HOUSE No. 3255

By Representatives Barber of Somerville and Meschino of Hull, a petition (accompanied by bill, House, No. 3255) of Christine P. Barber, Joan Meschino and others relative to the implementation of an electric vehicle motor vehicle fleet program. Telecommunications, Utilities and Energy.

The Commonwealth of Massachusetts

In the One Hundred and Ninety-Second General Court
(2021-2022)

An Act to promote electric vehicle fleets by 2035.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

1 SECTION 1.

2 Section 1 of Chapter 90 of the General Laws, as appearing in the 2016 Official Edition, is
3 hereby amended by adding the following definitions:-

4 “Electric vehicles” are vehicles that rely solely on electric motors for propulsion and
5 includes non-combustion vehicles.

6 “Emergency vehicle”, any publicly owned vehicle operated by a peace officer in
7 performance of their duties, any authorized emergency vehicle used for fighting fires or
8 responding to emergency fire calls, any publicly owned authorized emergency vehicle used by an
9 emergency medical technician or paramedic, or used for towing or servicing other vehicles, or
10 repairing damaged lighting or electrical equipment, any motor vehicle of mosquito abatement,

vector control, or pest abatement agencies and used for those purposes, or any ambulance used by a private entity under contract with a public agency.

SECTION 2.

Section 1 of chapter 21N is hereby amended by inserting the following definitions:

“Motor vehicles”, as defined in section 1 of chapter 90.

“Motor vehicle fleet” is a set of at least twenty-five motor vehicles under the same ownership or control and registered in the Commonwealth of Massachusetts.

“Motor vehicle fleet serving a public purpose” is a motor vehicle fleet of which an portion is leased, rented, or contracted by the Commonwealth of Massachusetts or a municipality or any political subdivision thereof from a person or entity other than the Commonwealth of Massachusetts or a municipality to provide a public service or for its own use, including school buses and paratransit vehicles.

“Public motor vehicle fleet” is a motor vehicle fleet owned by the Commonwealth of Massachusetts, a transportation authority, a school district, a public university, a quasi-public agency, or a municipality or in the shared ownership of multiple municipalities, or any political subdivision thereof. A public motor vehicle fleet includes vehicles under the same ownership of the Commonwealth or a municipality, even if a portion of the motor vehicle fleet is under the management or control of separate secretariats, departments, agencies, or offices.

“Electric vehicle”, as defined in section 1 of chapter 90.

SECTION 3.

Chapter 21N is hereby amended by inserting after section 7 the following sections: -

Section 7A. The Secretary, in consultation with the department of energy resources, department of transportation, department of environmental protection, and department of public utilities, shall develop a transition to an electric motor vehicle fleet program and promulgate regulations to require the following motor vehicle fleet standards: (a) fifty percent of all public motor vehicle fleets and motor vehicle fleets serving a public purpose shall be electric vehicles by 2025; (b) seventy-five percent of all public motor vehicle fleets and motor vehicle fleets serving a public purpose shall be electric vehicles by 2030; and (c) one hundred percent of all public motor vehicle fleets and motor vehicle fleets serving a public purpose shall be electric vehicles by 2035.

In reaching the Commonwealth's public fleet requirements defined in this section, the Secretary shall prioritize for electrification any vehicles cited as medium- or high-priority by the study commissioned pursuant to section 6 of chapter 448 of the acts of 2016. To meet the deadlines established in this section, the Secretary shall prioritize electric vehicle deployment in locations serving environmental justice populations as defined in the general laws or, in the absence of a statutory definition, the environmental justice policy of the executive office of energy and environmental affairs, as may be amended.

Section 7B. Notwithstanding section 9A of chapter 7, vehicles subject to the electric vehicle public motor vehicle fleet program include: all public motor vehicle fleets, all motor vehicle fleets serving a public purpose, and all motor vehicle fleets that are owned, leased, rented, or contracted, by quasi-public agencies, excluding emergency vehicles. The Department of Energy Resources, with input from the Department of Environmental Protection, Department

of Public Utilities, and Department of Transportation, shall: (i) establish goals for private motor vehicle fleets conversion (ii) identify and implement incentives to support electric vehicle purchases (iii) work with owners of motor vehicle fleets used, at least in part, for the purpose of commercial ride-sharing and ride-hailing and passenger transportation, including vehicles regulated pursuant to chapter 159A½ to transition to electric vehicles; (iv) work with owners of motor vehicle fleets used for public transportation licensed to operate in the Commonwealth pursuant to chapter 90 or chapter 159A to transition to electric vehicles; and (v) work with owners of motor vehicle fleets used as commercial motor carriers, freight services, limousine services, and taxis registered to operate in the Commonwealth to transition to electric vehicles.

Section 7C. The Secretary, in consultation with the executive office for administration and finance, shall require that new motor vehicles purchased by the Commonwealth shall be electric vehicles according to the following deadlines: (i) forty percent of all purchases in 2022; (ii) sixty percent of all purchases in 2023; (iii) eighty percent of all purchases in 2024; (iv) ninety percent of all purchases in 2025; and (v) one hundred percent of all purchases in 2026.

Section 7D. The Department of Energy Resources shall design and implement an incentive program to encourage the conversion of private fleets to electric vehicles. Should an owner of a motor vehicle fleet fail to comply with electric vehicle program requirements, the Department of Energy Resources shall remove the incentive for that owner and require reimbursement of the incentive. As part of the incentive program, the Department of Energy Resources shall ensure a specific pool of funds, not less than ten percent of all funds allocated to the incentive program, is available to municipalities to promote the transition to electric vehicle motor vehicle fleet.

75 SECTION 4.

76 Beginning in 2022 and every five years thereafter through 2040, the Secretary shall
77 submit a report to the Legislature that measures the Commonwealth's progress towards
78 implementation of the electric vehicle motor vehicle fleet program. The report shall: (i) assess
79 the electric vehicle market in the Commonwealth; (ii) identify funding sources to serve as
80 incentives for purchasing electric vehicles to offset costs to agencies, municipalities, and
81 businesses; (iii) identify barriers to increased penetration of electric vehicles; and (iv)
82 recommend legislative and regulatory action to address those barriers.

83 SECTION 5.

84 The Secretary may provide education, training, and technical assistance to motor vehicle
85 fleet operators to support electric vehicle penetration.

86 SECTION 6.

87 The regulations required pursuant to sections 7A through 7D of said chapter 21N shall be
88 promulgated and in effect not later than 270 days following the effective date.
