An Act relative to an insulin patient assistance program.

PETITION OF:

NAME:	DISTRICT/ADDRESS:	DATE ADDED:
<i>Danielle W. Gregoire</i>	<i>4th Middlesex</i>	<i>9/17/2021</i>

HOUSE No.

By Miss Gregoire of Marlborough, a petition (subject to Joint Rule 12) of Danielle W. Gregoire for legislation of establish an insulin patient assistance program. Health Care Financing.

The Commonwealth of Massachusetts

**In the One Hundred and Ninety-Second General Court
(2021-2022)**

An Act relative to an insulin patient assistance program.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

1 Section 1. MINIMUM STANDARDS FOR INSULIN PATIENT ASSISTANCE

2 (a) DEFINITION. For purposes of this section, the following definitions apply:

3 (1) MANUFACTURER. The term ‘manufacturer’ refers to a company engaged in the
4 manufacture, sale, and marketing of insulin in the United States that is self-administered on an
5 outpatient basis; and

6 (2) INSULIN PATIENT ASSISTANCE PROGRAM. The term ‘Insulin Patient
7 Assistance Program’ or ‘PAP’ means assistance in the form of insulin free of charge for a
8 specified duration provided by a manufacturer to an eligible individual, as more specifically set
9 forth in Section (b)(2)(D), for example directly to an eligible individual’s licensed practitioner
10 for dispensing, to an eligible individual through a single-use card that can be used at a pharmacy
11 when accompanied with a prescription, or any other similar means.

12 (b) MINIMUM STANDARDS FOR INSULIN PATIENT ASSISTANCE. Each
13 manufacturer with a Medicaid drug rebate agreement under 42 U.S.C. 1396r-8 shall ensure their
14 patient assistance offerings for insulin operate in accordance with this Section:

15 (1) ACCESS TO URGENTLY NEEDED INSULIN. Each Manufacturer shall ensure
16 that there exists an option as part of its insulin patient assistance offerings for individuals who
17 urgently need insulin and are at risk of rationing to obtain a one-time annually, 30-day supply of
18 insulin at no cost, provided they have a prescription and attest to financial need in writing. For
19 the purposes of this subsection, the term ‘urgently needed insulin’ means having readily
20 available for use less than a seven-day supply of insulin, and thus, likelihood of rationing
21 because will not be able to obtain insulin without grant of this urgent need offering.
22 Manufacturers may implement processes to provide urgently needed insulin to patients, for
23 example through a single use voucher that is redeemable at any retail pharmacy with a
24 prescription.

25 (2) ADMINISTRATION OF INSULIN PATIENT ASSISTANCE PROGRAM
26 (PAP). Each manufacturer of insulin shall establish procedures to ensure that participation in its
27 manufacturer-administered Insulin PAP is available to individuals who satisfy manufacturer-
28 defined eligibility criteria consistent with the requirements below. These procedures shall
29 include, at a minimum:

30 (A) Making freely available an application form for the manufacturer’s insulin PAP
31 on the manufacturer’s website or a website specific to the insulin PAP;

32 (B) Following receipt of the application, in a reasonable timeframe, issuing a written
33 notice to the individual disclosing that the manufacturer has determined that the individual is
34 eligible, ineligible, or that more information is needed for determination of eligibility;

35 (C) Upon determination that an individual is eligible for the Insulin PAP, the
36 manufacturer will enroll such individual for 12 months from the date the manufacturer issued a
37 notice of eligibility unless the individual acquires government sponsored health insurance at any
38 time during the 12 month term; and

39 (D) Considering an individual eligible if he or she:

40 (i) Is a U.S. citizen or legal resident;

41 (ii) Has a family income that is equal to or less than 400 percent of the federal
42 poverty guidelines;

43 (iii) Does not have private prescription drug coverage such as an HMO or PPO; and

44 (iv) Is not eligible to receive prescription drug benefits through a federally funded
45 program or through the Department of Veterans Affairs, except that an individual who is
46 enrolled in Medicare Part D may be eligible for a manufacturer's insulin patient assistance
47 program if they meet all other eligibility requirements and agree to all applicable manufacturer-
48 set program terms and conditions.

49 (c) PENALTY. If a manufacturer fails to comply with this section, an administrative
50 penalty of \$10,000.00 per month of noncompliance will apply. Manufacturers may appeal
51 penalties for non-compliance through an administrative review process. This chapter shall be
52 enforced by the Department of Public Health.

(d) EFFECTIVE DATE. This section is effective upon enactment.
