

SENATE No. 2579

Text of amendment #5 (Senator Moore) to the House bill relative to immediate COVID-19 recovery needs (House, No. 4234).

The Commonwealth of Massachusetts

In the One Hundred and Ninety-Second General Court
(2021-2022)

1 SECTION XX. The first paragraph of section 13A of chapter 22 of the General Laws, as
2 appearing in the 2018 Official Edition, is hereby amended by striking out the second and third
3 sentences and inserting in place thereof the following 3 sentences:-

4 “Two of the appointive members shall be architects licensed to practice in the
5 commonwealth. One of the appointive members shall be a licensed building inspector. Three of
6 the appointive members shall be selected after consultation with advocacy groups on behalf of
7 persons with disabilities”

8 SECTION XX. The first paragraph of section 13A of chapter 22 of the General Laws, as
9 so appearing, is hereby further amended by striking out the fourth paragraph, in lines 38 through
10 63, and inserting in place thereof the following four paragraphs:-

11 The board shall make and from time to time alter, amend, and repeal, in accordance with
12 the provisions of chapter thirty A, rules and regulations designed to make multiple dwellings,
13 and public buildings and facilities, including but not limited to areas that are not generally in
14 public use, accessible to, functional for and safe for use by persons with disabilities. The board
15 shall also make rules and regulations requiring that any person who has lawful control of

16 improved or enclosed private property used as off-street parking areas where the public has a
17 right of access as invitees or licensees, shall reserve parking spaces in said off-street parking
18 areas for vehicles authorized to display handicapped plates or placards under section 2 of chapter
19 90; provided, that the parking requirements shall be consistent with the Americans with
20 Disabilities Act Standards for Accessible Design. The parking spaces reserved for vehicles of
21 such handicapped persons shall be clearly marked as such.

22 The rules and regulations of the board shall also establish standards and procedures
23 designed to make adaptable for persons with physical disabilities for any building, regardless of
24 the date of construction, (1) all dwelling units in multiple dwellings equipped with an elevator;
25 (2) all ground floor dwelling units in multiple dwellings not equipped with an elevator; and (3)
26 all public use and common use portions of such multiple dwellings, providing however, that in
27 any building constructed before March thirteenth, nineteen hundred and ninety one, such
28 standards and procedures for dwelling units shall apply only to such units within (1) any non-
29 residential building undergoing a gut rehabilitation as part of a change in use into a multiple
30 dwelling facility, or (2) any residential building which is vacant undergoing a gut rehabilitation.

31 The rules and regulations of the board shall establish standards and procedures designed
32 to make accessible to, functional for and safe for use by persons with physical disabilities
33 residential buildings whenever constructed and without the restrictions in the above paragraph.
34 Unless otherwise specified, five percent of the units in lodging or residential facilities for hire,
35 rent or lease, containing twenty or more units, shall meet this requirement; provided, however,
36 that accessible units shall allow five feet of turning radius for a wheelchair in the kitchens and
37 bathrooms. In the event that the board determines that the need, in certain areas of the
38 commonwealth, for such units either exceeds or does not require said five percent, the board may

39 require that, in said areas a percentage of units less than five percent or not greater than ten
40 percent be accessible and safe for persons with disabilities; provided, however, that said
41 accessible units shall allow five feet of turning radius for a wheelchair in the kitchens and
42 bathrooms. The board may make such determination only if there is sufficient factual basis,
43 using data from the central registry of the Massachusetts Rehabilitation Commission and other
44 sources, to establish with a reasonable degree of certainty the present and future needs for said
45 accessible units in certain areas of the commonwealth. A percentage of less than five percent
46 shall not be established unless such accessible units, which are not needed by persons with
47 disabilities cannot be readily hired, rented, or leased to other persons.

48 The rules and regulations of the board shall include, but not be limited to, detailed
49 architectural standards further defining adaptable and accessible dwelling units, and such other
50 provisions necessary to provide rights and remedies substantially equivalent to or greater than
51 the rights and remedies provided by the Federal Fair Housing Act, the Department of Justice's
52 Americans with Disabilities Act Standards for Accessible Design and regulations thereunder as
53 they pertain to such multiple dwellings.

54 SECTION XX. Said section 13A of said chapter 22, as so appearing, is hereby further
