**In the One Hundred and Ninety-Second General Court  
(2021-2022)**  
\_\_\_\_\_

An Act to ensure effective health care as a right.

*Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:*

1           SECTION 1. (a) Notwithstanding any general or special law to the contrary, the  
2 following terms shall have the following meanings unless the context clearly requires otherwise:-

3           “Single payer benchmark”, the estimated total costs of providing health care to all  
4 residents of the commonwealth under a single payer health care system in a given year.

5           “Single payer health care”, a system that provides publicly financed, universal access to  
6 health care for the population through a unified public health care plan.

7           (b) The center for health information and analysis shall recommend a methodology to  
8 develop a single payer benchmark. The single payer health care system considered under the  
9 single payer benchmark shall offer continuous, comprehensive and affordable coverage for all  
10 residents of the commonwealth regardless of income, assets, health status or availability of other

11 health coverage. The benchmark may consider the costs of a single-payer health care system at  
12 different actuarial values, levels of cost-sharing and levels of provider reimbursement; provided  
13 however that the benchmark shall include all actuarial values, levels of cost-sharing and levels of  
14 provider reimbursement considered by the center. In developing the methodology, the center  
15 shall monitor, review and evaluate reports related to single payer health care and the  
16 performance of single payer health care systems in other states and countries.

17 (c) The center for health information and analysis, in conjunction with the health policy  
18 commission and the division of insurance, shall provide an annual report detailing a comparison  
19 of the actual health care expenditures in the commonwealth for 2022, 2023 and 2024 with the  
20 single payer benchmark for 2022, 2023 and 2024, respectively, indicating whether the  
21 commonwealth would have saved money while expanding access to care under a single payer  
22 health care system. The first report shall be filed by not later than July 1, 2024 to the clerks of the  
23 senate and house of representatives, the joint committee on health care financing and the senate  
24 and house committees on ways and means.

25 (d) If a report under subsection (c) determines that the single payer benchmark  
26 outperformed the actual total health care expenditures in the commonwealth in 2022, 2023 or  
27 2024 the health policy commission shall submit a proposed single payer health care  
28 implementation plan to the clerks of the senate and house of representatives, the joint committee  
29 on health care financing and the senate and house committees on ways and means within 1 year  
30 of the date that the report is filed. The plan may include proposed legislation to implement a  
31 single payer health care system that offers continuous, comprehensive and affordable coverage  
32 for all residents regardless of income, assets, health status or availability of other health

- 33 coverage. When developing the implementation plan, the commission shall hold not less than 3
- 34 public hearings and seek stakeholder input from across the commonwealth.”.
