HOUSE No. 582

By Representative Soter of Bellingham, a petition (accompanied by bill, House, No. 582) of Michael J. Soter and others relative to the protection of medical exemptions for immunizations for school attendance. Education.

[SIMILAR MATTER FILED IN PREVIOUS SESSION
SEE HOUSE, NO. 706 OF 2021-2022.]

The Commonwealth of Massachusetts

**In the One Hundred and Ninety-Third General Court
(2023-2024)**

An Act relative to the protection of medical exemptions for immunizations for school attendance.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

1 SECTION 1. Chapter 76 of the General Laws, as appearing in the 2018 Official Edition,
2 is hereby amended by striking out section 15 and inserting in place thereof the following
3 section:-

4 Section 15. No child shall, except as hereinafter provided, be admitted to school except
5 upon presentation of a physician's certificate that the child has been successfully immunized
6 against diphtheria, pertussis, tetanus, measles and poliomyelitis and such other communicable
7 diseases as may be specified from time to time by the department of public health.

8 A child shall be admitted to school upon certification (a "Medical Certification") by a
9 physician that he has personally examined such child and that in his opinion the totality of the

10 child's medical circumstances is such that his health would be endangered by such vaccination or
11 by any of such immunizations. Such opinion may be based upon such factors as are deemed
12 relevant by the physician in his or her independent medical judgment including, among other
13 factors, concerns regarding an increased risk of adverse events, family history, or exacerbation of
14 pre-existing medical conditions relating to the child. The Medical Certification shall be
15 submitted at the beginning of each school year to the physician in charge of the school health
16 program.

17 In the absence of an emergency or epidemic of disease declared by the department of
18 public health, no child whose parent or guardian states in writing that vaccination or
19 immunization conflicts with his sincere religious beliefs shall be required to present said
20 physician's certificate in order to be admitted to school.

21 Medical Certifications shall be confidential, shall not be disclosed to any person outside
22 of the school health program, and shall not be admissible as evidence in any action of any kind
23 before any court, tribunal or agency without express, written consent of the child's parent or
24 guardian.

25 In the absence of manifest bad faith, a physician who provides a Medical Certification
26 shall not be subject to disciplinary action by any governing or licensing authority. Medical
27 Certifications may not be used to change or negatively affect a physician's rating or standing
28 with an employer, insurer, hospital affiliation or academic affiliation.
