60 under this section, funding, from any source that is appropriated or otherwise provided to it for
61 the purpose of subsidizing or reducing the costs to families of fees for early education and care
62 for their children, including increasing per child rates set by the department.

63 (b) The early education and care financial assistance program shall provide , subject to
64 appropriation, sufficient child care financial assistance to enable all families to afford and access
65 high-quality early education and care for infants, toddlers, preschool-age, and school-age
66 children, as defined in section 1A of this chapter, provided that a school-age child’s financial
67 assistance shall continue until at least the end of the school year in which the child reaches the
68 maximum age.

69 (c) Child care financial assistance may be used for early education and care provided by
70 public, private, non-profit, and for-profit entities licensed or approved by the department,
71 including but not limited to: preschools, childcare centers, nursery schools, before and after
72 school programs, out-of-school time programs, Head Start and Early Head Start programs and

85 nutrition assistance program who are participating in education and training services approved by
86 the department of transitional assistance.

88 with any income limits in effect under subsections (g) and (h) of this section.

89 (g) The department shall subsidize, subject to appropriation, the cost of early education
90 and care services to all families in need of these services with incomes at or below 85 per cent of
91 the Massachusetts state median income. Provided, should appropriations be insufficient to
92 subsidize the cost of early education and care services to all families in need of these services
93 with incomes at or below 85 per cent of the Massachusetts state median income, first priority
94 shall be provided to those children whose family's household income is at or below 50 per cent
95 of the Massachusetts state median income or a child with a documented disability whose

100 Massachusetts state median income; provided, however, that a family with income below the
101 federal poverty level shall not have its priority status on a waitlist negatively impacted by a
102 family with income above the federal poverty level.

103 (h) Provided that additional funds shall be made available to the commonwealth through
104 the Child Care Development Fund, or that the federal government shall otherwise obligate itself
105 to release additional funding not available upon passage of this act, the department shall allocate
106 funding to increase the numbers of families receiving subsidies based on income eligibility in
107 stages: (i) to those eligible for financial assistance as stipulated in subsection (g); (ii) to provide
108 child care financial assistance to all families in need of these services, whose income is above 85
109 per cent, but not exceeding 100 per cent, of the Massachusetts state median income; (iii) to
110 provide child care financial assistance to all families in need of these services, whose income is
111 above 100 per cent, but not exceeding 110 per cent, of the Massachusetts state median income;

113 income is above 110 per cent, but not exceeding 125 per cent, of the Massachusetts state median
114 income;

115 (i) Family income, for the purposes of eligibility for early education and care financial
116 assistance shall include income of parents living with the child receiving subsidized care but
117 shall not include: any form of income of foster parents, caregivers, or other adult family

118 members; income of or for siblings who are not receiving subsidized care; or earned income of
119 any minor child.

120 (j) The department shall subsidize early education and care by: (i) providing vouchers for
121 payment to providers, enabling families to access early education and care providers of their
122 choice and (ii) offering families the alternative of an open space with a provider that is
123 subsidized under the provider's contract with the department.

124 (k) The department shall require early education and care providers, as a condition for
125 receiving payments from the department for financial assistance provided to families under this
126 section, to enter into and comply with contractual agreements with the department, developed by
127 the department and requiring the provider to comply with all applicable requirements of this
128 chapter and any other federal or state requirements necessary to receive funding for financial
129 assistance provided to families under this section.

130 (l) The department and its agents shall not reduce, terminate, or deny continued financial
131 assistance to families until and unless the family is determined to be ineligible and is given the
132 opportunity for an administrative appeal hearing. In situations in which the department or its
133 agents deny a family's application for financial assistance, the department shall provide the
134 family an opportunity for an administrative appeal hearing and shall process such appeals within
135 60 days from the date requested.

136 (m) The department and its agents shall not reduce, terminate, or deny continued child
137 care financial assistance to families based on their household income until and unless the
138 household income exceeds at least 85 per cent of the Massachusetts state median income or the

139 income threshold for currently eligible families as prioritized in subsection (g) or (h), whichever
140 is higher.

141 (n) To the extent not otherwise prohibited by federal or state law, the department shall not
142 terminate or deny child care financial assistance on the grounds of fee arrears until and less: (1)
143 the family's fees and financial assistance have been adjusted, prospectively and retroactively, to
144 take into account any reduction in income, and the arrears reduced accordingly; and (2) the
145 family has been offered an affordable payment plan, taking into account their income and
146 expenses, and only if the family refused to enter into the plan. Disputes about the existence or
147 amount of fee arrears and the affordability of payment plans shall be subject to administrative
148 appeal. The department shall accord providers the option of receiving department payment of
149 arrears and repaying the department as the family makes payments under a payment plan.

150 (o) The department shall review the early education and care financial assistance program
151 at least annually to identify access barriers to families and opportunities to improve families'
152 experience with the financial assistance process, including but not limited to department
153 paperwork and verification requirements. The department shall take action to remove any access
154 barriers, including but not limited to: (i) making technological improvements, (ii) streamlining
155 the application and renewal processes, (iii) improving outreach to potentially eligible families
156 regarding the availability of financial assistance and the process for applying, (iv) ensuring
157 access for families whose primary language is not English, (v) establishing procedures to screen
158 families for the need for disability accommodations and provide these accommodations, (vi)
159 ensuring that the department, through its agents and employees, promptly responds to
160 communication by parents and caregivers, and (vii) ensuring that families with children with

161 high needs are informed of openings with providers that focus on serving such families and
162 children.

163 (p) The department shall adopt any additional regulations necessary to implement the
164 provisions of this section, after providing the opportunity for public comment, to be accepted
165 through both testimony at public hearings and written comments, and after consideration of these
166 comments.

192 to: (i) compensating early education and care provider staff through increased salaries, benefits,
193 bonuses, professional development, or access to continuing education opportunities; (ii)
194 increasing affordability of early education and care to families by reducing the tuition and fees
195 paid by families or offering scholarships to families; (iii) enabling early education and care
