204         Section 3A. The authority, in cooperation with the state treasurer, shall at all times keep  
205 accounts of all receipts, expenditures and disbursements and all assets and liabilities of the  
206 authority, which shall be open to inspection by any officer or duly appointed agent of the  
207 commonwealth.

208         Section 4. Within 365 days of the effective date of this act and prior to the review of grant  
209 applications, the authority shall conduct a comprehensive review of all municipal public safety  
210 buildings in the Commonwealth, including, but not limited to, determining the total number of  
211 public safety buildings, the date of initial construction, the number of public safety services  
212 based in each public safety building, the number of cities and towns actively renovating or  
213 constructing a public safety building, the total population served by each public safety service in  
214 each public safety building, the unique needs of each public safety service and their impact on  
215 the construction of a public safety building, how construction of the public safety building  
216 impacts dispatch response time, how to prioritize health and safety of public safety personnel in  
217 the construction of a public safety building, and how public safety equipment and vehicles are  
218 stored in existing public safety buildings. This review shall be the responsibility of an  
219 independent, third-party research firm, as identified by the authority, and based on criteria set  
220 forth in this section.

221         Section 5. Any eligible applicant may apply to the authority for reimbursement, in whole  
222 or in part, of any expenses incurred for educational, engineering and architectural services

223 incidental to the planning of a public safety building or any expenses incurred for surveys made  
224 of public safety building needs and conditions, the contract for which has been approved by the  
225 authority. Such application shall be accompanied by information and documentation that the  
226 authority may require.

227           Section 6. An eligible applicant may submit to the authority a statement of interest which  
228 shall be approved by a vote of the applicable local governing body or bodies as set forth and in a  
229 form prescribed by the authority, and which shall state what the eligible applicant believes are  
230 the deficiencies in said eligible applicant's respective public safety facilities that meet one or  
231 more of the priorities established by the authority. Said statement of interest shall be  
232 accompanied by such additional forms, documents, and information as the authority shall deem  
233 necessary to review the statement. The submission for a statement of interest shall not commit  
234 the authority to accept any further application materials, approve an application, or provide a  
235 grant or any other type of funding, or place any other obligation or requirement upon the  
236 authority. The authority shall notify an eligible applicant if the authority determines that the  
237 statement of interest has not met the criteria established by the authority.

238           If the authority determines that the statement of interest and associated material merits  
239 further consideration, the authority may, in its discretion, invite the eligible applicant to apply to  
240 the authority for a public safety facilities grant to meet in part the cost of a public safety building  
241 project; but, a city or town shall not have an entitlement to funds under this chapter except at the  
242 discretion of the authority in accordance with this chapter. Application shall mean a series of  
243 documents, forms, letters, statements, certifications, plans, studies, drawings, and other data and  
244 information required by the authority to be submitted within the deadlines and in the format  
245 prescribed by the authority and shall be accompanied or supplemented by drawings, plans,

246 estimates of cost and proposals for defraying the costs or any additional information the authority  
247 may require, before construction is undertaken. The authority shall require a maintenance plan to  
248 be submitted as part of the application to address any required updates to the public safety  
249 building following the completion of construction. The authority shall promulgate regulations  
250 establishing the procedural steps by which applications must be made and reviewed, and may at  
251 any time during the application process determine that the application does not warrant further  
252 consideration, pursuant to the priority criteria established by the authority. In the event that an  
253 eligible applicant undertakes construction before approval is obtained, the eligible applicant shall  
254 remain subject to the authority's approval process as if the construction were not undertaken.

255           Section 7. (a) On or before June 30 of each year, the authority shall submit a report to the  
256 governor, the house and senate committees on ways and means, the joint committee on public  
257 safety and homeland security, the joint committee on bonding, capital expenditures and state  
258 assets, and the joint committee on municipalities and regional government, which analyzes the  
259 anticipated financial needs for public safety facilities projects of the kind that qualify for  
260 assistance under this chapter. The report shall include a listing of each public safety building,  
261 together with a description of its public safety services, number of population served, age and  
262 state of maintenance and whether it is likely to require construction, enlargement, reconstruction,  
263 rehabilitation or improvement due to such factors as deterioration, lack of adequate facilities to  
264 meet public safety services' needs and changing number of population served.

265           (b) The authority shall also conduct periodic surveys of the cities and towns to determine  
266 the need for new public safety facility construction to meet demand.

267           (c) The authority shall develop a long-term capital plan in accordance with needs and  
268 funding projected to be available in the trust under this chapter for purposes of planning and  
269 guiding the policies of the authority.

270           (d) The capital plans, needs surveys and reports of the authority shall not give rise to any  
271 claim, legal or moral, or enforceable right in any party to benefits or funds from the trust or from  
272 other sources.
