8 transportation.

9 "Passenger-carrying vehicle", busses, vans, trucks and cars owned, operated and  
10 maintained by a railroad company and primarily used to transport railroad employees in other

11 than the cab of such vehicle and designed primarily for operation on roads. The Rail and Transit

24 If a third party contracts with the person operating the vehicle on behalf of the railroad  
25 company or its agents, contractors, subcontractors, vendors, sub-vendors, secondary vendors or  
26 subcarriers to transport railroad crew, the insurance requirements may be satisfied by either the  
27 third party or the person operating the vehicle, so long as the person operating the vehicle names  
28 the third party as an additional insured or named insured. The railroad company may also satisfy  
29 the insurance requirements. Proof of coverage shall be provided to the Division by the person  
30 contracting with the railroad company.

55 transportation vehicles has violated this chapter or the rules of the Division or that the company  
56 or its agent has been found by a court or governmental agency to have violated federal or state  
57 law.
