The anesthesiologist assistant may perform those duties and responsibilities delegated to him by the supervising anesthesiologist when the duties and responsibilities are provided under the supervision of a licensed anesthesiologist approved by the board. The board may adopt rules and regulations to implement the provisions of sections 12HH to 12MM that include scope of practice of an anesthesiologist assistant including requirements and limitations on the provision of anesthesia services by an anesthesiologist assistant as determined by the board to be in the best interests of patient health and safety and consistent with the standards of care established by the National Commission for Certification of Anesthesiologist Assistants.. (c) All licenses other than temporary licenses expire annually on December 31. An anesthesiologist assistant may renew his license by completing and submitting a renewal application form published by the board and renewal fee to the board prior to expiration of his current license.

(d) The board may reinstate a lapsed license if the applicant pays a reinstatement fee and meets the requirements for the granting of an initial license.
