REPORT DATA

Data in this report are the most current available and reported on a calendar-year basis, unless otherwise specified. Data are based on all travel – domestic and international, leisure and business, unless otherwise specified. A visitor is defined as someone who travels at least 50 miles one way or stays overnight in paid accommodations.

NOTE ON INTERNATIONAL RESULTS

The basis for estimating international traveler volume to the United States and Massachusetts is the U.S. Department of Commerce I-94 survey program.

ECONOMIC IMPACT

THE MULTIPLIER IMPACT

Visitors' direct expenditures have a multiplier impact on the Massachusetts economy through indirect and induced spending. Indirect spending results from Massachusetts' travel-related businesses purchasing goods and services within Massachusetts. Induced spending results from

employees of travel-related businesses spending part of their income in MA. This multiplier impact is measured for expenditures, earnings, and employment. In CY 2022, the total impact of all travel spending was \$36.3 billion, total employment reached 210,000, with \$10.8 billion in earnings.

MOTT GRANT PROGRAMS

REGIONAL TOURISM GRANT PROGRAM

Massachusetts' 16 Regional Tourism Councils (RTCs) are independent, membership-based, not-for-profit organizations that market their regions as travel destinations. Each RTC focuses on the travel market segments that generate the greatest economic return for its region: domestic visitors, international visitors, leisure visitors, group travel, meetings, conventions, and sports events. RTCs are funded by membership fees, other private-sector revenues sources, and funds from the Regional Grant Program.

The Regional Grant Program was established by statute (Chapter 23A, Section 14) and is managed by MOTT. It provides state funds to each RTC to support its destination marketing programs. The grant program requires that RTCs match their grants with a minimum one-to-one match of nongovernmental funds. Grants are awarded based on a performance-based formula which evaluates the economic impact of RTCs' efforts (20%), their marketing plans (40%), room occupancy tax collected (20%), and their abilities to raise matching funds (20%).
