The Honorable Aaron Michlewitz
Chair, House Committee on Ways and Means
State House, Room 243
Boston, MA 02133

Dear Chairs Rodrigues and Michlewitz,

Enclosed is the May Resettlement Agency Report, submitted in compliance with item 4003-0123 of chapter 77 of the acts of 2023. That act, which became law in December of 2023, appropriated \$10 million for resettlement agencies (RAs) that resettle and support refugees and immigrants under contract with the U.S. State Department. The money is authorized to be expended by the RAs to “provide services to refugees and other displaced persons eligible for [RA] services” and “to prevent families from entering the emergency shelter system.”

Eight resettlement agencies have been working under contract with the Office for Refugees and Immigrants (ORI) since March. RAs and shelter providers are coordinating on rehousing work with migrants in shelters and overflow sites. This monthly report reflects activity in June, 2024.

To date, few families have exited from shelter with support from RAs. ORI, with support from Housing and Livable Communities, has worked with RAs to address the barriers to success, for example by clarifying the responsibilities of shelter providers and RAs, and allowing RAs to access state funds more quickly on behalf of shelter residents. We are hopeful that we might see improvements in exit numbers in the coming weeks.

I hope you find this document useful and informative. Please feel free to contact Susan Church, Chief Operating Officer at ORI, if you have any questions about the report.

Respectfully,

Cristina Aguilera, Executive Director

Resettlement Agency Report

As of June, 2024

Chapter 77 of the acts of 2023, the final supplemental appropriations act for the state's fiscal year 2023, appropriated \$10 million in item 4003-0123 for resettlement agencies (RAs) that resettle and support refugees and immigrants under contract with the U.S. State Department. The money is authorized to be expended by the RAs to "provide services to refugees and other displaced persons eligible for [RA] services" and "to prevent families from entering the emergency shelter system."

The \$10 million in c. 77 supplemented \$500,000 appropriated in the same item in the fiscal year 2024 budget. This \$10.5 million, which goes to the same entities for the same purposes, is addressed in combination in this report.

Chapter 77 requires that monthly reports to the House and Senate Committees on Ways and Means detail the following information:

(i) a list of recipients of such funds; (ii) the amounts distributed to each recipient; (iii) the number of immigrants and refugees served by each recipient, delineated by municipality; (iv) a breakdown of the number of immigrants and refugees served by each recipient, delineated by individuals: (a) currently residing in the emergency housing assistance program under section 30 of chapter 23B of the General Laws; (b) who entered said program as migrants, refugees or asylum seekers as a result of the ongoing humanitarian crisis; and (c) who are currently on the waitlist for placement into said program; (v) a breakdown of the number of immigrants and refugees served by each recipient who have been resettled into long term housing other than the emergency shelter system; (vi) a breakdown of the number of immigrants and refugees served by each recipient who are currently awaiting federal work authorization versus the number of said immigrants and refugees who have had their federal work authorization approved; and (vii) a list of all municipalities served by each recipient of such funds

The status of these items is as follows:

(i) a list of recipients of such funds; (ii) the amounts distributed to each recipient;

Eight RAs receive funds through this item, covering eight geographic regions of the state. ORI worked with the RAs to assess the number of refugees they serve, and to develop expectations about the numbers of EA shelter families they can each commit to resettling by the end of calendar year 2024.

Of the \$10.5 million in authorized spending, \$2.5 million was distributed to support each recipients' work with their identified caseload of refugees as of January of 2024, when the contracts were negotiated. These funds are allocated in proportion to the January caseload.

The remaining \$8.0 million is committed based on RA's estimates of the numbers of families they can rehouse by December 2024; half was distributed in an initial payment at the commencement of the contract.

See Attachment 1 for more detail, which is current through June.

(iii) the number of immigrants and refugees served by each recipient, delineated by municipality;

See Attachment 2 for number of immigrants and refugees served by each recipient, delineated by municipality.

(iv) a breakdown of the number of immigrants and refugees served by each recipient, delineated by individuals: (a) currently residing in the emergency housing assistance program under section 30 of chapter 23B of the General Laws; (b) who entered said program as migrants, refugees or asylum seekers as a result of the ongoing humanitarian crisis; and (c) who are currently on the waitlist for placement into said program;

We do not have this information available; however, we are working to develop a better approach to pull data in this format. Please note that the large majority of immigrants in Massachusetts shelters have arrived as a result of the ongoing humanitarian crisis; therefore categories (a) and (b) are effectively the same.

(v) a breakdown of the number of immigrants and refugees served by each recipient who have been resettled into long term housing other than the emergency shelter system;

Through June, 9 immigrants and refugees have been resettled into long-term housing through the efforts of the RAs funded through this appropriation. Please note that this number is not the total for refugees and immigrants resettled out of shelters, but narrowly those resettled through this program.

(vi) a breakdown of the number of immigrants and refugees served by each recipient who are currently awaiting federal work authorization versus the number of said immigrants and refugees who have had their federal work authorization approved; and

RAs have approximately 191 "enrolled" individuals with whom they are actively working. Within this active caseload, the breakdown is as follows:

EAD Received	73
Filed	38
Not Specified	80
Grand Total	191

(vii) a list of all municipalities served by each recipient of such funds

See Attachment 2 for a list of municipalities served by each RA.
