An Act to strengthen the control of contagious and infectious diseases in the Commonwealth.

*Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:*

5           (b) Insurance plans, health coverage, and medical assistance and medical benefit  
6           programs shall not charge cost sharing or require utilization review for any health care service  
7           for the prevention, diagnosis, or treatment of a disease designated under subsection (a), for  
8           coverage subject to section 17AA of chapter 32A, section 10AA of chapter 118E, section

15 required if the applicable plan is governed by the Federal Internal Revenue Code and would lose  
16 its tax-exempt status as a result of the prohibition on such for these services.

17 (c) Upon the designation of a contagious or infectious disease pursuant to subsection (a),  
18 the commissioner shall: (1) provide forthwith written notice of such designation and the  
19 requirements of this section to the secretary of health and human services, who shall enforce this  
20 section with respect to programs of medical assistance and medical benefits established under  
21 chapter 118E; the group insurance commission which shall enforce this section for coverage

24 maintenance organizations, and all other entities that provide health coverage and medical  
25 assistance and benefit programs within the scope of the division's regulation, of a designation  
26 pursuant to paragraph (a) and the requirements of this section; (2) take steps to ensure that the  
27 public health council shall have the opportunity in an advisory capacity to comment upon such  
28 designation; and (3) take reasonable steps to notify health care institutions, health care providers,  
29 and consumers of the provisions of this section, including as applicable through clinical  
30 advisories, posting to the department's website, or other means.

33 commissioner shall at least annually review the list and shall either renew or remove each  
34 designation. When a contagious or infectious disease is removed from the list of designations
