Dear Chairperson Rodrigues and Chairperson Michlewitz,

The FY25 budget for retained revenue account 8200-0222 (“0222”) specifies that the Municipal Police Training Committee (“MPTC”) shall:

...submit a report on the status of recruit training, including the number of classes, start and end dates of each class, total number of recruits enrolled and graduating in each class, cost per recruit and cost per class for fiscal years 2024 and 2025; provided further, that not later than January 8, 2025, the report shall be submitted to the house and senate committees on ways and means...

I. BACKGROUND

The MPTC operates six fulltime police academies and authorizes an additional ten police academies that train recruits/student officers (used interchangeably) to become police officers. Operated academies are located in Boylston, Northern Essex Community College/Haverhill (“NECC”), Holyoke, Lynnfield, Randolph, and Plymouth. In February 2025, a seventh operated academy will open in East Falmouth.

MPTC-operated academies are in facilities leased by the MPTC, equipped by the MPTC, staffed by MPTC employees and contract instructors, and otherwise paid for and overseen by the MPTC.

By contrast, the MPTC authorizes academies independently run by the Boston Police Department, the Cambridge Police Department, the Lowell Police Department, the MBTA Police Department, the Springfield Police Department, the Worcester Police Department, Fitchburg State University,

Quinsigamond Community College, and from time-to-time, when there is sufficient demand, a National Guard Academy and a State Police Municipal Academy in New Braintree. The MPTC requires these authorized academies to enroll their student officers through the MPTC’s online enrollment portal, meet MPTC enrollment requirements, follow the MPTC curriculum, and submit “After Action” reports that summarize key metrics and events for each academy class. While the MPTC expends resources overseeing these authorized academies, it does not pay for their facilities, their equipment, or their staff, and it correspondingly does not receive any revenue from them or the student officers they train.

The focus of this Report is on revenue from recruit tuition fees that were collected and deposited into the 0222 account in FY24/FY25 to “provide training to new recruits” at MPTC-operated Academies.¹

II. MPTC-OPERATED ACADEMIES/RECRUITS – LAST SEVEN FISCAL YEARS

The roughly five month (22 week) program that trains a student officer to become a law enforcement officer is variously referred to as a “Police Academy” or “Recruit Officer Course” (AKA “ROC”) or “Entry Level Training” or “Foundational Training” or “Basic Training.” This report uses both *Academy* and *ROC* to refer to that five month training program.

Prior to police reform (Chapter 253 of the Acts of 2020) going into effect at the end of 2020, the scope of the MPTC’s training duties and responsibilities included roughly 14,000 police officers. Following this landmark legislation, those training duties and responsibilities expanded to 438 law enforcement agencies employing over 20,000 sworn law enforcement officers. In addition to the officers who had historically been required to fulfill MPTC training requirements, now, college campus police officers, hospital police officers, Massport police officers, and deputy sheriffs and constables performing police duties and functions must meet MPTC training requirements to be “certified” by the *Massachusetts Peace Officer Standards and Training Commission* (“POST”). This includes all recruits/student officers hired by those 438 agencies, who must complete a “basic training program” approved by the MPTC in order to become certified by POST. (G.L. c. 6E, S. 4(f)(1)(iii).)

The statutory change has contributed to a significant increase in the number of recruits/student officers attending and graduating from MPTC-operated Academies over the past seven fiscal years.²

¹ The MPTC also trains veteran officers, but the 0222 Budget language limits usage to paying for recruit training.

² Some ROC’s start/end in the same fiscal year while others start in one fiscal year and end in the next fiscal year. The recruit training data in this Report is based on ROCs that held their *graduation* in the applicable fiscal year.

III. MPTC-OPERATED ACADEMIES/RECRUITS - FY24

In FY24, the MPTC completed 12 ROC classes with start/end dates and total number of recruits enrolled and graduating as follows:

V. ACADEMY/RECRUIT COSTS

To calculate the cost of operating an MPTC Academy and training a recruit, this Report examines regularly recurring costs rather than periodic capital expenditures.³ Regularly recurring costs include: (a) fixed Academy Director salaries; (b) fixed Academy leases; (c) non-fixed Academy instructor payroll, and; (d) non-fixed routine Academy supplies and orientation/graduation/space expenses.

A. Academy Director Costs Per ROC

Each MPTC-operated Academy is staffed by a fulltime MPTC Academy Director. As the charts above reflect, Academy Directors typically run two Academies per year. Dividing the average Academy Director salary by two Academies per year allocates that cost on a per-Academy basis as follows:

FY24-FY25 ACADEMY DIRECTOR COSTS PER ROC			
FY24 Salary Average (100%)	FY24 ROC Cost (50%)	FY25 Salary Average (100%)	FY25 ROC Cost (50%)
\$ 104,610	\$ 52,305	\$ 113,608	\$ 56,804

B. Academy Lease Costs Per ROC

MPTC Academy locations host both basic recruit training and veteran officer in-service/specialized training. While recruits likely use the Academy facilities more than veteran officers, for purposes of this Report lease costs (and utilities/cleaning where applicable) have been apportioned 50-50.

Additionally, each Academy facility (with the exception of the new East Falmouth facility) hosts two ROCs per year. At these locations, the 50% facility usage attributed to recruit training is again divided in half. The chart below attributes 25% of lease costs (50% for East Falmouth) to each ROC operated at that facility:

FY24-FY25 ACADEMY LEASE COSTS PER ROC				
Academy Location	FY24 Lease Total (100%)	FY24 ROC Cost (25%)	FY25 Lease Total (100%)	FY25 ROC Cost (25%*)
RANDOLPH	\$ 1,027,971	\$ 256,993	\$ 1,066,969	\$ 266,742
HOLYOKE	\$ 743,270	\$ 185,817	\$ 751,941	\$ 187,985

TOTAL	\$ 4,257,256	\$ 1,083,064	\$ 4,631,107	\$ 1,247,360
*50% of February-June 2025 East Falmouth lease payments				
**Includes utilities/cleaning costs where applicable				

³ Capital expenditures include more substantial purchases such as portable hand-held radios, body-worn cameras, simulation equipment, and non-lethal firearms simunitions equipment, and other expenditures such as gym floor mats, gym equipment, CPR mannequins, and other equipment for first aid training.

C. Academy Instructor Costs Per ROC

The daily operation of MPTC Academies is heavily supported by contract *staff instructors* who, working closely with the Academy Director, oversee the scheduling of instructors and space as well as student officer attendance, health, fitness, decorum, mentoring, and overall wellbeing and development.

A second cadre of contract *subject matter instructors* provide classroom instruction on topics like constitutional law, criminal law, motor vehicle law, interviews and interrogations, and hands-on training in things like firearms skills, emergency vehicle operation (“EVOC”), defensive tactics (“DT”), use of force (“UoF”), and applied patrol procedures (“APP”).

All staff instructors and subject matter instructors make \$60/hour. Instructor costs are paid from the 0222 account, and when that is exhausted, from the MPTC’s 0200 main appropriation account, and when that is exhausted, from the Municipal Police Training Fund (“MPTF”). The MPTF is a source of last resort because instructor costs paid from it incur an additional 10% indirect cost on top of the direct cost. In other words, instructor costs rise to \$66/hour if paid from the MPTF.

Attachment A to this Report reflects a detailed break-out of projected instructor hours/costs for an Academy with 48 recruits and an Academy with 60 recruits. The MPTC projects that a 48 recruit ROC will require 5,384 instructor hours totaling \$323,040 and \$6,730/recruit. For a 60 recruit ROC, the MPTC projects 6,050 instructor hours totaling \$363,000 and \$6,050/recruit.

Despite these estimates, instructor costs fluctuate significantly. Academy class size impacts: (a) the number of staff instructors needed and, in some cases, the number of classroom instructors needed; (b) the number of rotations required for skills training, and; (c) the number of additional trainers needed to maintain instructor-student ratios. Also, instructor costs are impacted by whether an instructor is being compensated by their Department (if on-duty) or the MPTC (if off-duty).

Actual instructor costs in TY24 and the first half of TY25 ranged from a low of \$197,124 for the NECC 5th ROC (56 enrolled, 51 graduated) to a high of \$489,425 for the Lynnfield 5th ROC (80 enrolled, 74 graduated). For NECC 5th, the instructor cost of \$3,865 per graduating recruit was lower than projected because a higher number of instructors were on-duty and paid by their Department. For Lynnfield 5th, the instructor cost of \$6,613 per graduating recruit is about average for a 48 recruit ROC but appears higher because class size (due to significant demand) was nearly double that of a typical ROC.

When reviewing the FY24 chart below, it is important to note that, for the first six Academies graduating in FY24 (Lynnfield 3rd, Plymouth 74th, NECC 4th, Holyoke 1st, Boylston 32nd, and Randolph 18th), the data only includes instructor costs incurred in FY24. It does not include instructor costs incurred in FY23. Prior to the beginning of FY24, the MPTC’s payroll combination codes captured instructor costs by the location at which it was taught, but not the ROC at which it was taught.⁴

⁴ On January 30, 2022, the MPTC transitioned instructors from a hardcopy payment voucher system to an online payroll system. When entering their time into the new online payroll system, instructors used a drop-down menu to identify the location where they taught. If two Academies were running at the same time at the same location (which happened), the combination codes did not distinguish the Academy for which the instructor was teaching. Combination codes were updated at the beginning of FY24 to identify the specific Academy.

D. Academy Routine Operating Costs Per ROC

All Academies have standard routine operating costs that are not capital expenditures, including:

FY24-FY25 Academy Routine Operating Costs	
Description	Amount
Orientation (folders/MPTC patches)	\$ 500.00
Day One (meals in lieu of payment)	\$ 250.00
Breath Test/SFST (mouthpieces/manuals)	\$ 800.00
Firing Range (targets/backers)	\$ 3,500.00
Other Space Needs (APP/miscellaneous)	\$ 1,500.00
Graduation (venue/invitations/plaques/programs)	\$ 3,100.00
TOTAL	\$ 9,650.00

E. Total Academy/Recruit Costs

The charts below aggregate information from above to reflect Academy/recruit costs broken down for each MPTC Academy that graduated recruits in FY24 and the first half of FY25.

MPTC takeaways from this data include:

- Excluding the first six FY24 Academies with incomplete instructor costs, costs per recruit range from a low of \$5,815.27/recruit (NECC 5th) to a high of \$16,698.57/recruit (Randolph 19th).
- The wide range in costs per recruit is primarily a function of the wide range in lease costs.
- The average cost per recruit for the last six classes in FY24 was \$10,245.91/recruit.
- The average cost per recruit for the first five classes in FY25 was \$10,462.31/recruit.
- The average cost per recruit would be even higher if it included capital/miscellaneous expenditures that cannot easily be apportioned between recruits and veteran officers. For example, recruit costs do not include things like a \$374,040 licensing fee in FY24 and a \$373,261 licensing

fee in FY25 for indoor firing range space in Springfield, operating expenses for the EVOC training facility at Fort Devens, and thousands of dollars in annual bottled water costs.

- The average cost per recruit will increase in FY26 with the new East Falmouth Academy (higher lease costs) becoming fully operational, and the old Boylston Academy (lower lease costs) being replaced by the new Marlborough Academy (higher lease costs).

VI. FUNDING TO COVER ACADEMY/RECRUIT COSTS

The 0222 account is 100% user funded and the MPTC is legislatively mandated to use the tuition revenue collected exclusively for recruit training. Throughout FY24 and FY25, tuition was and is capped at \$3,200/recruit and total revenue collection was and is capped at \$2.8 million, above which all funds collected by the MPTC in that fiscal year revert to the General Fund.

The collection of recruit tuition has covered roughly one-third (33-36%) of recruit training costs (exclusive of capital spending) incurred in FY24/FY25. The MPTC funds the difference from its 0200 main appropriation, the MPTF, and a small amount of federal Highway Safety grant funding.

FY24-FY25 ACADEMY COSTS COVERED/NOT COVERED BY RECRUIT TUITION							
FY	ROCs WITH COMPLETE COST DATA*	TOTAL ROC COSTS	RECRUITS ENROLLED	RECRUIT TUITION FEE	TUITION COLLECTED	AMOUNT OF ROC COSTS NOT COVERED BY TUITION	PERCENT OF ROC COSTS NOT COVERED BY TUITION
2024	6	\$ 3,032,789.00	335	\$ 3,200.00	\$ 1,072,000.00	\$ 1,960,789.00	64.65%
2025	5	\$ 3,013,144.54	312	\$ 3,200.00	\$ 998,400.00	\$ 2,014,744.54	66.86%

*Excludes the first 6 Academies that graduated in FY24

In addition to the 0222 account only covering about one-third of recruit training costs, the administration of the account can be problematic when Academies start in one fiscal year and end in the next fiscal year. For example, in FY23 the 0222 revenue collection cap was \$1.8 million. In the second half of FY23, the MPTC collected recruit tuition prior to the start of six Academies that extended into FY24. In all, the MPTC collected \$2,110,557 in FY23 but had to revert \$310,557 to the General Fund despite continuing to absorb costs for the six Academies that started in FY23 and continued into FY24.

The MPTC is proud to provide world-class training for tomorrows police officers and appreciates the strong support from the Legislature in helping achieve this important mission. I hope this Report is useful in understanding the significant increase in recruit training being done by the MPTC since the passage of police reform and the corresponding expense associated with meeting this increased demand.

If either I or my staff can be of further assistance, we would be pleased to do so.

Respectfully,

Rick Rathbun
