## **INDEPENDENT AUDITOR'S REPORT**

To the Advisory Board of the  
Lowell Regional Transit Authority  
Lowell, Massachusetts

### ***Report on the Audit of the Financial Statements***

#### ***Opinion***

We have audited the accompanying financial statements of the Lowell Regional Transit Authority (the Authority), a component unit of the Massachusetts Department of Transportation, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Lowell Regional Transit Authority as of June 30, 2025, and the respective changes in financial position, and, where applicable, cash flows thereof for year then ended in accordance with accounting principles generally accepted in the United States of America.

#### ***Basis for Opinion***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Authority and to meet our ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis (located on pages 4 through 7) and certain pension and postemployment benefits information (located on pages 35 through 40) be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an

opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Authority's basic financial statements. The accompanying schedule of net cost of service and schedule of local assessments are presented on pages 43 through 44 for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of net cost of service and schedule of local assessments, in all material respects, in relation to the financial statements as a whole.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated March 25, 2026, on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

**LOWELL REGIONAL TRANSIT AUTHORITY**  
(A Component Unit of the Massachusetts Department of Transportation)

Required Supplementary Information

Management's Discussion and Analysis - Unaudited

The following is offered to the readers of the Lowell Regional Transit Authority's financial statements. It is a narrative overview and analysis of the financial performance of the Lowell Regional Transit Authority (the Authority) during the fiscal year ended June 30, 2025. Please read this discussion and analysis in conjunction with the Authority's financial statements which begin on page 8.

This financial report is designed to provide a general overview of the Authority's finances for all those with an interest in the Authority's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to David Bradley, Administrator, Lowell Regional Transit Authority, 115 Thorndike Street, Lowell, Massachusetts 01850.

**Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the Authority's basic financial statements. The Authority is a special-purpose government engaged in only business type activities. As such, its financial statements consist of only those financial statements required for proprietary funds and the related notes.

Revenue is recorded when earned and expenses are recorded when incurred. The financial statements include a statement of net position, a statement of revenues, expenses and changes in net position, and a statement of cash flows. These are followed by the notes to the financial statements. In addition to the financial statements, this report also contains supplemental schedules pertaining to the net cost of service of the Authority.

The statement of net position presents information on the assets and liabilities, with the difference between the two reported as net position. Over time, increases and decreases in net position may serve as a useful indicator of whether the financial position of the Authority is improving or deteriorating.

The statement of revenues, expenses and changes in net position reports the operating revenues and expenses and nonoperating revenues and expenses of the Authority for the fiscal year with the difference – the increase or decrease in net position – being combined with any capital grants to determine the net change in position for the fiscal year. That change combined with the previous year's end net position total reconciles to the net position total at the end of this fiscal year.

The statement of cash flows reports cash and investment activities for the fiscal year resulting from operating activities, capital and related activities, noncapital and related financing activities and investing activities. The net result of these activities added to the beginning of the year cash and investment balance reconciles to the cash and investment balance of the current fiscal year.

The notes to the financial statements provide additional information that is essential to the understanding of the data provided in the basic financial statements and can be found on pages 13 through 34 of the report.

Management's Discussion and Analysis - Unaudited

**Financial Highlights**

The assets of the Authority exceed its liabilities at the close of the most recent fiscal year by \$32,643,241. The Authorities total net position increased by \$1,878,363 mainly due to the depreciation of fixed assets. The Authority's expenses, except for depreciation and amortization, are fully funded annually through a combination of federal, state, and local assistance.

The Authority's net position consists of its investment in capital assets (e.g., land, buildings, vehicles, and other equipment). The Authority uses these capital assets to provide fixed route and paratransit services to individuals within its service area; consequently, these net assets are not available for future spending. Although the Authority's investment in capital assets is reported as net of related debt, it should be noted that the resources needed to repay any related debt outstanding must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Key factors in the changes in revenues and expenses are as follows:

- Passenger fares decreased \$747,660, or 66.05% as the Authority transitions to fare free service. Parking revenues increased \$13,136, or 2.05%.
- Total revenue increased by \$2,107,888 while total expenses, excluding depreciation, increased by \$2,110,439.
- Revenues from assessments from member municipalities increased by 2.5% as allowed by law.
- Federal operating assistance increased by \$1,191,410 while State operating assistance increased by \$523,062.

**Capital Assets and Debt**

The Authority's capital assets as of June 30, 2025 amounted to \$34,767,568 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, transportation equipment, office, and other equipment.

Capital asset additions and net retirements during the fiscal include the following:

Transit Equipment	\$ 2,577,820
Construction in Progress	<u>2,517,110</u>
	<u><u>\$ 5,094,930</u></u>

The Authority acquires its capital assets under federal capital grants and state matching funds.

At year-end, the Authority had \$6,200,000 of notes outstanding, the same as the prior year.

**LOWELL REGIONAL TRANSIT AUTHORITY**  
(A Component Unit of the Massachusetts Department of Transportation)

Required Supplementary Information

Management's Discussion and Analysis - Unaudited

**Economic Factors and Next Year's Budgets**

Funding the Authority's net cost of service consists of non-capital expenses less all non-capital revenues, except member municipality assessments and contract assistance from the Commonwealth of Massachusetts. The net cost of service is funded through assessments to member municipalities, which may increase by no more than 2.5% annually plus the members' share of any new services. In Fiscal 2025, the State has continued its funding policy to provide State Contract Assistance currently as opposed to reimbursing as in prior years.

This year the LRTA accomplished the following Capital Projects:

- Completed facility and equipment improvements including: renovation of the Road Runner office to upgrade furniture, flooring, bathrooms, painting, and a new driver safety training room; window replacement at the Gallagher Intermodal Center; joint and seam repairs on the Gallagher II garage, flooring repairs at the Fixed Route maintenance center, LED lighting upgrades in the Road Runner parking lot and Gallagher Terminal, and security camera upgrades through the Gallagher property
- Purchased four (4) new 30-foot Gillig buses for expanded Fixed Route service
- Purchased (1) new vehicle for Acton COA
- Purchased spare parts and tires for both Fixed Route and Paratransit services
- Replaced vehicles for Roadrunner and COA services
- Replaced windows and doors on the façade of the Maguire building

In the upcoming year the LRTA Capital Program will include:

- Purchase spare parts for Fixed Route and Paratransit
- Replace six (6) diesel buses with 35-foot Hybrid Electric buses for Fixed Route
- Replace vehicles for Road Runner and COA services
- Replace (1) non-revenue/support vehicle
- Upgrade Paratransit scheduling and dispatching software
- Facility and equipment maintenance

**LOWELL REGIONAL TRANSIT AUTHORITY**  
(A Component Unit of the Massachusetts Department of Transportation)

Notes to Financial Statements

June 30, 2025

**Note 1. The Reporting Entity**

The Authority, a political subdivision of the Commonwealth of Massachusetts (the Commonwealth), was established in accordance with Chapter 161B of the Massachusetts General Laws to provide a public transit system for the territory comprised of the City of Lowell and the towns of Billerica, Chelmsford, Dracut, Dunstable, Tewksbury, Tyngsboro, Pepperell, Acton, Groton, Townsend, Westford, Maynard, and Carlisle. In accordance with requirements of Statement No. 14, *The Financial Reporting Entity, of the Governmental Accounting Standards Board* (GASB), the financial statements must present the Authority (the primary government) and its component units. Pursuant to this criteria, no component units were identified for inclusion in the accompanying financial statements. Additionally, the accompanying financial statements are incorporated into the financial statements of the Commonwealth as the Authority is a component unit of the Massachusetts Department of Transportation.

**Note 2. Summary of Significant Accounting Policies**

**A. Basis of Accounting**

The operations of the Authority are accounted for as an enterprise fund on an accrual basis in order to recognize the flow of economic resources. Under this basis, revenues are recognized in the period in which they are earned, expenses are recognized in the period in which they are incurred, depreciation of assets is recognized, and all assets and liabilities associated with the operation of the Authority are included in the Statements of Net Position. The principal revenues of the Authority are fare box revenues received from patrons and terminal revenues from parking facilities. The Authority also recognizes as operating revenue the rental fees received from vendors from operating leases of Authority property. Operating expenses for the Authority include the costs of operating mass transit and demand responsive services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

**B. Budget**

The Authority must establish an operating budget each year so that the amount will equal the sum of (a) the aggregate of all annual appropriations for expenditures and transfers, less (b) the aggregate of all revenue and transfers projected to be received by the Authority, including available surplus funds. The budget for all operations of the Authority is prepared by the Administrator and is acted upon by the Advisory Board. The budget is prepared on the accrual basis. Depreciation is not recognized as an expense, but capital outlays are recognized as expenses for budgetary control purposes. These expenses are reclassified for the purpose of preparing financial reports in accordance with GAAP.

**C. Cash and Cash Equivalents**

Cash includes amounts in demand deposits. Cash equivalents include all highly liquid deposits with an original maturity of three months or less when purchased. These deposits are fully collateralized or covered by federal deposit insurance except as stated in Note 2. The carrying amount of the cash equivalents is fair value. For purposes of the statement of cash flows, the Authority considers all highly liquid investments purchased with a maturity of three months or less to be cash equivalents.

**LOWELL REGIONAL TRANSIT AUTHORITY**  
(A Component Unit of the Massachusetts Department of Transportation)

Notes to Financial Statements

June 30, 2025

**Note 2. Summary of Significant Accounting Policies (continued)**

**D. Compensated Absences**

The Authority has recorded a liability for employees' rights to receive compensation for future absences. Employees are granted varying amounts of vacation, personal time and sick leave in accordance with the Authority's personnel policies. Upon termination, employees are paid for accrued vacation time and up to 30 days of unused sick time but not for personal time. Accordingly, a liability entitled Compensated Absences is shown as a current liability on the accompanying financial statements. The balance at June 30, 2025 was \$171,209, an increase of \$27,012.

**E. Capital Assets**

Capital assets are stated at cost. Cost includes not only purchase price or construction cost, but also ancillary charges necessary to place the asset in condition for use.

**F. Depreciation**

The Authority provides for depreciation using the straight-line method. Depreciation is intended to distribute the cost of depreciable properties over the following estimated average useful lives:

Buildings	30 years
Vehicles	5-12 years
Passenger Shelters	5 years
Furniture, fixtures and equipment	5-7 years

**G. Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

**H. Concentration of Credit Risk**

Financial instruments which potentially subject the Authority to concentrations of credit risk consist principally of investments, cash equivalents and grants receivable. The Authority's cash equivalents were with various credit-worthy financial institutions; investments consisted of grants receivable from Federal and State grants and local assessments. The Authority considers the credit risk associated with financial instruments to be minimal.

**I. Investments**

Investments consist of short-term investments in the Massachusetts Municipal Depository Trust (MMDT), which is an external investment pool that is overseen by the Massachusetts State Treasurer. MMDT is recorded at its net asset value per share, or NAV, which is equal to \$1.00 per share.

**LOWELL REGIONAL TRANSIT AUTHORITY**  
(A Component Unit of the Massachusetts Department of Transportation)

Notes to Financial Statements

June 30, 2025

**Note 2. Summary of Significant Accounting Policies (continued)**

**J. Unearned Revenue**

Unearned revenue arises when assets are recorded before eligibility requirements have been met.

**K. Available Unrestricted Resources**

The Authority's policy is to utilize available unrestricted resources prior to restricted resources.

**L. Statement of Net Position**

The statement of net position presents all of the Authority's assets and liabilities, with the difference reported as net position. Net position is reported in three categories:

**Net investment in capital assets** consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes and other debt that are attributed of the acquisition, construction or improvement of those assets.

**Restricted net position** results when constraints placed on net position use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through enabling legislation.

**Unrestricted net position** consists of net position which does not meet the definition of the two preceding categories.

**M. Restricted Assets and Restricted Liabilities**

Restricted assets are restricted for the acquisition of capital assets and the reserve for extraordinary expense. Restricted liabilities are amounts payable from the restricted assets.

**N. Pension Plans**

For purposes of measuring the Authority's net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Lowell Retirement System (LRS) and additions to/deductions from the LRS's fiduciary position have been determined on the same basis as they are reported by LRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**O. Deferred Outflows/Inflows of Resources**

The Authority accounts for certain transactions that result in the consumption or acquisition of one period that are applicable to future periods as deferred outflows and inflows, respectively, to distinguish them from assets and liabilities. For fiscal 2025, the Authority has reported deferred outflows and deferred inflows that are related to its pension plan.

**LOWELL REGIONAL TRANSIT AUTHORITY**  
(A Component Unit of the Massachusetts Department of Transportation)

Notes to Financial Statements

June 30, 2025

**Note 2. Summary of Significant Accounting Policies (continued)**

**P. Postemployment Benefits Other Than Pensions (OPEB)**

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the OPEB trust and additions to/deductions from the Trust's fiduciary net position have been determined on the same basis as they are reported by the trust. For this purpose, benefit payments are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

**Q. Implementation of GASB Pronouncements**

During fiscal 2025, the following GASB Pronouncements were adopted and implemented, when necessary, by the Authority. The adoption of these statements did not have a material impact on the Authority's financial statements.

- No. 101 – *Compensated Absences*
- No. 102 – *Certain Risk Disclosures*
- No. 103 – *Financial Reporting Model Improvement*
- No. 104 – *Disclosure of Certain Capital Assets*

The GASB has not issued any further statements which require adoption subsequent to June 30, 2025.

**Note 3. Unrestricted Cash, Restricted Cash, and Short Term Investments**

The following represents essential risk information about the Authority's deposits and investments.

**A. Investment Policy**

State and local statutes place certain limitations on the nature of deposits and investments available to the Authority. Deposits (including demand deposits, term deposits and certificates of deposit) in any one financial institution may not exceed certain levels without collateralization by the financial institutions involved. Investments can also be made in securities issued by or unconditionally guaranteed by the U.S. Government or Agencies that have a maturity of less than one year from the date of purchase, repurchase agreements guaranteed by such securities with maturity dates of no more than 90 days from the date of purchase and units in the Massachusetts Municipal Depository Trust ("MMDT").

**B. Custodial Credit Risk**

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The government does not have a deposit policy for custodial risk. As of June 30, 2025, \$1,064,424 of the government's bank balance of \$1,314,424 was exposed to custodial credit risk as uninsured and uncollateralized.

**C. Interest Rate Risk**

As of June 30, 2025, the Authority's primary short-term investment was in the State Treasurer's investment pool, MMDT. The fair value of the MMDT investment at June 30, 2025 was \$1,747,651 and its average maturity is less than one year.

**LOWELL REGIONAL TRANSIT AUTHORITY**  
(A Component Unit of the Massachusetts Department of Transportation)

Notes to Financial Statements

June 30, 2025

**Note 3. Unrestricted Cash, Restricted Cash, and Short Term Investments (continued)**

**D. Credit Risk**

As of June 30, 2025, the Authority's investment in the state investment pool, MMDT, was not rated.

**E. Fair Value Measurements**

The Authority categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Because MMDT is measured at net asset value, it is not required to be measured within the fair value hierarchy described above.

**F. Liquidity**

MMDT does not place any limitation or restrictions on participant withdrawals. MMDT has no redemption restrictions.

**G. Restricted Cash**

Restricted cash is segregated from operating cash due to being restricted for capital asset purchases.

**Note 4. Grants**

Under various sections of Bipartisan Infrastructure Law, the United States Department of Transportation approves capital grants to fund up to 80% of the Authority's capital improvement projects. The remaining portion of approximately 20% will be financed through the Commonwealth's Executive Office of Transportation.

The State has awarded LRTA a number of contracts for specific transit projects as listed in the table below.

Contract name	Contract Number	Contract Limit	Current Year	Prior Years	Remaining Balance	A/R Balance
Fare Free	129018	\$1,170,257	929,942	-	240,315	114,261
Mobility Management	127536	40,000	40,000	-	-	20,000
Reap	127549	222,000	222,000	-	-	128,738
Total		<u>\$1,432,257</u>	<u>1,191,942</u>	<u>-</u>	<u>240,315</u>	<u>262,999</u>

**LOWELL REGIONAL TRANSIT AUTHORITY**  
(A Component Unit of the Massachusetts Department of Transportation)

Notes to Financial Statements

June 30, 2025

**Note 4. Grants (continued)**

The Authority is also eligible for grants for operating or contract assistance from the United States Department of Transportation. Pursuant to Section IX of the Act, as amended, the federal government may fund up to 50% of the Authority's net cost of service, as defined. There were no such funds drawn down for fiscal year 2025. The Authority received \$1,308,195 in ARP funds.

The Authority has a contract with the Commonwealth for operating assistance as provided for in the enabling legislation under which the Commonwealth will pay the Authority a portion of its net cost of service. The amount of this contract assistance for fiscal year 2025 was \$9,215,668.

**Note 5. Receivables**

The receivables for operating and capital assistance are disaggregated as follows:

United states Department of Transportation

Direct federal grants

ARP grant \$ 365,883

Passed through MassDOT - Mobility Management 20,000

Commonwealth of Massachusetts

Operating grants

Local operating assistance billed by the State to the communities  
constituting the Authority and paid by the State to the Authority 5,288,584

State Fare Free grant 114,262

State Ridership Experience grant 128,738

Other: Due from service providers 207,990

Miscellaneous 15,174

Total Receivables 6,140,631

Less nocurrent receivables 1,683,312

Current Receivables \$ 4,457,319

Capital assistance

Federal grants 1,026,142

Commonwealth of Massachusetts 2,697,650

Total Capital Grant Receivables \$ 3,723,792

**LOWELL REGIONAL TRANSIT AUTHORITY**  
(A Component Unit of the Massachusetts Department of Transportation)

Notes to Financial Statements

June 30, 2025

**Note 7. Revenue Anticipation Notes**

At June 30, 2025, the Authority had \$6,200,000 of revenue anticipation notes (RAN) outstanding. The RANs has a weighted average net interest cost (NIC) of 3.4715% and are due August 15, 2025.

	Outstanding at June 30 2024	Issued	Retired	Outstanding at June 30 2025
3.4715% revenue anticipation note	\$ -	6,200,000	-	6,200,000
3.8823% revenue anticipation note	3,000,000	-	3,000,000	-
3.8956% revenue anticipation note	3,200,000	-	3,200,000	-
Total	\$ 6,200,000	6,200,000	6,200,000	6,200,000

Subsequent to the year end, the Authority retired \$6,200,000 of the notes outstanding at year end. The retirement was financed by the borrowing of \$6,750,000 of revenue anticipation notes with weighted average interest costs of 3.3602%, that are due September 2, 2026. The Authority uses the proceeds of these notes to fund its mass transit operations. The RAN is considered short term debt that is expected to be refinanced and is included in the accompanying Statement of Net Position as a noncurrent liability.

**Note 8. Bank Credit Line**

The Authority has a revolving line of credit with The Lowell Five Cent Savings Bank in the maximum amount of \$1,000,000 that is due on demand. The note contains a variable interest rate. The loan is secured by the general assets of the Authority. The Authority had no outstanding balance at June 30, 2025. The Authority has a revolving line of credit with The Lowell Five Cent Savings Bank (the bank) in the maximum amount of \$1,000,000 that is due on demand. The note contains a variable interest rate. The loan is secured by the general assets of the Authority. The Authority had no outstanding balance at June 30, 2025. Subsequent to year-end, the Authority terminated this agreement and entered into a new line of credit agreement with the same bank. The new facility provides for a maximum borrowing capacity of \$1,500,000 and has a one-year term. All other terms of the line of credit remain consistent with the prior agreement.

**Note 9. Pension Plan**

**General Information about the Pension Plan**

**A. Plan Description**

The Lowell Contributory Retirement System (LCRS) is multiple- employer, cost sharing, contributory defined benefit pension plan covering all employees of the government member units deemed eligible by the Lowell Contributory Retirement Board (Board), with the exception of school department employees who serve in a teaching capacity. The pensions of such school employees are administered by the Commonwealth of Massachusetts' Teachers Retirement System. Membership in the System is mandatory upon the commencement of employment for all permanent employees working a minimum

**LOWELL REGIONAL TRANSIT AUTHORITY**  
(A Component Unit of the Massachusetts Department of Transportation)

Notes to Financial Statements

June 30, 2025

**Note 9. Pension Plan (continued)**

of 20 hours per week. Participating member units include the City of Lowell, the City of Lowell School Department (Non-Teachers), the Lowell Housing Authority, and the Lowell Regional Transit Authority.

The System is a member of the Massachusetts Contributory Retirement System and is governed by Chapter 32 of the Massachusetts General Laws. The Public Employee Retirement Administration Commission (PERAC) is the state agency responsible for oversight of the Commonwealth's public retirement systems.

The Retirement Board is responsible for maintaining records of member employee contributions, for determining eligibility for retirement due to any service and disability, or for the payment of retirement benefits. The System is governed by five-member Board who establish the policies under which the System operates. Board members are appointed or elected as specified by Massachusetts General Laws (MGL) CH. 32, Section 20 for terms not to exceed 3 years.

**B. Benefits Provided**

Massachusetts contributory retirement system benefits are, with certain exceptions such as cost of living adjustments which can be adopted by the Board from time to time, uniform from system to system. The System provides for retirement allowance benefits up to a maximum of 80% of a member's highest three-year average annual rate of regular compensation. For persons who became members on or after April 2, 2012, average salary is the average annual rate of regular compensation received during the five consecutive years that produce the highest average, or, if greater, during the last five years (whether or not consecutive) preceding retirement. Benefit payments are based upon a member's age, length of creditable service, level of compensation, and group classification.

There are three classes of membership in the retirement system: group 1, group 2, and group 4. Group 1 consists of general employees which includes clerical and administrative positions. Group 2 consists of positions that have been specified as hazardous. Lastly, group 4 consists of police officers, firefighters, and other hazardous positions.

Members become vested after ten years of creditable service. A superannuation retirement allowance may be received upon the completion of 20 years of service or upon reaching the age of 55 with 10 years of service. Normal retirement for most employees occurs at age 65 (except for certain hazardous duty and public safety positions, whose normal retirement is at age 55).

A retirement allowance consists of two parts: an annuity and a pension. A member's accumulated total deductions and the interest they generate constitute the annuity. The differential between the total retirement benefit and the annuity is the pension. The average retirement benefit is approximately 80-85% pension and 15-20% annuity.

The pension portion of any retirement benefit is paid from the Pension Fund of the System. The governmental unit employing the member must annually appropriate and contribute the amount of current-year pension assessment. MGL Chapter 32 requires that systems be on an actuarially

**LOWELL REGIONAL TRANSIT AUTHORITY**  
(A Component Unit of the Massachusetts Department of Transportation)

Notes to Financial Statements

June 30, 2025

**Note 9. Pension Plan (continued)**

determined funding schedule to be fully funded by 2040. Under the current funding schedule, the System will be fully funded by 2037.

Members who become permanently and totally disabled for further duty may be eligible to receive a disability retirement allowance. The amount of benefits to be received in such cases is dependent on several factors, including whether or not the disability is work related, the member's age, years of creditable service, level of compensation, veteran's status and group classification.

Employees who resign from service and who are not eligible to receive a retirement allowance or are under the age of 55 are entitled to request a refund of the accumulated total deductions.

Survivor benefits are extended to eligible beneficiaries of members whose death occurs prior to or following retirement.

**C. Funding Policy**

Active members contribute between 5 and 11% of their gross regular compensation. The percentage rate is keyed to the date upon which an employee's membership commences. These deductions are deposited in the Annuity Savings Fund and earn an interest rate determined by the Public Employee Retirement Administration Commission's (PERAC) actuary. When a member's retirement becomes effective, his/her deductions and related interest are transferred to the Annuity Reserve Fund. Any cost-of-living adjustments granted between 1981 and 1997 and any increase in other benefits imposed by the Commonwealth of Massachusetts' state law during those years are borne by the Commonwealth and are deposited into the Pension Fund. Cost-of-living adjustments granted after 1997 must be approved by the System and all costs are borne by the System. The Authority is required to pay into the Retirement System its share of the system-wide actuarially determined contribution, which is apportioned among the employers, based on active covered payroll. The Authority's contribution to the Retirement System for the year ended June 30, 2025 was \$140,687, which equaled its required contribution for the year.

**Pension Liabilities, Pension expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At June 30, 2025, the Authority reported a liability of \$1,267,134 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2025. Update procedures were used to roll back the total pension liability to December 31, 2024. The Authority's proportion of the net pension liability was based on a projection of the long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At December 31, 2024, the Authority's proportion of net pension liability was 0.38 percent.

**LOWELL REGIONAL TRANSIT AUTHORITY**  
(A Component Unit of the Massachusetts Department of Transportation)

Notes to Financial Statements

June 30, 2025

**Note 9. Pension Plan (continued)**

Since LCRS performs an actuarial valuation bi-annually, there are no reported amounts for changes in benefit terms differences between expected and actual experience and changes in assumptions as of December 31, 2024.

In the LCRS Financial Statements for the year ended December 31, 2024, in addition to assets, the statement of fiduciary net position will sometimes report a separate section for deferred outflow of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of fiduciary net position that applies to a future period (s) and so will not be recognized as an outflow of resources (deduction) until then. The LCRS did not have any items that qualify for reporting in this category.

In addition to liabilities, the statement of fiduciary net position will sometimes report a separate section for deferred inflow of resources. This separate financial statement element, *deferred inflow of resources*, represents an acquisition of net position that applies to future period (s) and so will not be recognized as an inflow of resources (addition) until that time. The LCRS did not have any items that qualify for reporting in this category.

For the year ended June 30, 2025, the Authority recognized pension expense of \$134,722 and reported deferred outflows and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources
Difference between expected and actual experience	\$ 127,909
Net difference between projected and actual investment earnings on pension plan investments	37,778
Change of assumptions	28,593
Changes in proportion and differences between employer contributions and proportionate share of contributions	(103,420)
	\$ 90,860
	\$ 90,860

**LOWELL REGIONAL TRANSIT AUTHORITY**  
(A Component Unit of the Massachusetts Department of Transportation)

Notes to Financial Statements

June 30, 2025

**Note 9. Pension Plan (continued)**

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	Deferred Outflows of Resources
2026	\$ 24,562
2027	39,992
2028	(36,627)
2029	20,554
2030	42,379

**A. Actuarial Assumptions**

The total pension liability was determined by an actuarial valuation as of January 1, 2025 using the following assumptions:

**LOWELL REGIONAL TRANSIT AUTHORITY**  
(A Component Unit of the Massachusetts Department of Transportation)

Notes to Financial Statements

June 30, 2025

**Note 9. Pension Plan (continued)**

Valuation date	January 1, 2025
Actuarial cost method	Entry age normal
Amortization method - UAAL	Increasing dollar amount at 4% to reduce the Unfunded Actuarial Accrued Liability to zero on or before June 30, 2036, with annual increases in appropriations limited to 5.28%.
Asset valuation method	The Actuarial Value of Assets is the fair value of assets as of the valuation date reduced by the sum of: a) 80% of gains and losses of the prior year, b) 60% of gains and losses of the second prior year, c) 40% of gains and losses of the third prior year and d) 20% of gains and losses of the fourth prior year. Investment gains and losses are determined by the excess or deficiency of the expected return over the actual return on the fair value. The actuarial valuation of assets is further constrained to be not less than 90% or more than 110% of market value.
Investment rate of return	7.00%, net pension plan investment expense, including inflation.
Inflation	2.40 percent per year
Projected salary increases	6%-4.25% for Group 1 (based on service) 7%-4.75% for Group 4 (based on service)
Payroll growth	3.50% per year
Cost of living adjustments	3% of the first \$17,000 of the annual retirement allowance
Mortality rates:	RP-2014 Blue Collar Mortality Table with full generational mortality improvement using Scale MP-2021. For disabled members, RP-2014 Blue Collar Mortality Table set forward one year with full generational mortality improvement using Scale MP-2021.

**LOWELL REGIONAL TRANSIT AUTHORITY**  
(A Component Unit of the Massachusetts Department of Transportation)

Notes to Financial Statements

June 30, 2025

**Note 9. Pension Plan (continued)**

*Investment policy:* The pension plan’s policy in regard to the allocation of invested assets in the Pension Reserve Investment Trust (PRIT) is established by the Pension Reserves Investment Management Board (PRIM). The policy with regard to the allocation of all other invested assets is established by the Retirement Board. Plan assets are managed on a total return basis with a long-term objective of achieving a fully funded status for the benefits provided through the pension plan.

The long term expected rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class in the pension plan’s target asset allocation as of December 31, 2024 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-term Expected Real Rate of Return</u>
Global equity	36.00%	4.61%
Core fixed income	15.00%	2.60%
Value-added fixed income	9.00%	5.30%
Private equity	16.00%	7.80%
Real estate	10.00%	4.10%
Timber/natural resources	4.00%	4.10%
Hedge funds and portfolio completion	10.00%	4.10%
Total	100.00%	

**B. Discount Rate**

The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed plan member contributions will be made at the current contribution rates and that contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**LOWELL REGIONAL TRANSIT AUTHORITY**  
(A Component Unit of the Massachusetts Department of Transportation)

Notes to Financial Statements

June 30, 2025

**Note 9. Pension Plan (continued)**

**C. Sensitivity of the Authority’s proportionate share of the net pension liability to changes in the discount rate**

The following presents the Authority’s proportionate share of the net pension liability calculated using the discount rate of 7.00 percent, as well as what the Authority’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate:

	1% Decrease	Discount Rate	1% Increase
	6.00%	7.00%	8.00%
Authority's proportionate share of the net pension liability	\$ 1,665,519	\$ 1,267,134	\$ 931,058

**D. Changes in Actuarial Assumptions and Plan Provisions**

Changes in Assumptions

None.

Change in Plan Provisions

None.

**E. Pension plan fiduciary net position**

Detailed information about the pension plan’s fiduciary net position is available in the separately issued LCRS financial report that can be obtained from the Lowell Contributory Retirement System, 375 Merrimack Street Basement, Room 3, Lowell, Massachusetts, 01852.

**Other Pension Plans**

The Authority also administers a deferred compensation plan through which employees can participate in a voluntary, payroll-deducted retirement program created in accordance with Internal Revenue Code Section 457. The deferred compensation is not available to employees until termination, retirement, death approved or unforeseeable emergency. All amounts of compensation deferred, property purchased with those amounts, and all income attributable to those amounts are held in trust for the exclusive benefit of participants and their beneficiaries.

**LOWELL REGIONAL TRANSIT AUTHORITY**  
(A Component Unit of the Massachusetts Department of Transportation)

Notes to Financial Statements

June 30, 2025

**Note 10. Other Postemployment Benefit (OPEB) Disclosures**

The Authority established an Other Post-Employment Benefits (OPEB) Irrevocable Trust. The trust was established for the sole purpose of providing for the advance funding of future costs of retired employee health insurance and other benefits provided to retirees.

**A. Net OPEB Liability**

The Authority's net OPEB liability was measured as of June 30, 2025 for the year ended June 30, 2025, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2025.

**B. Changes in the Net OPEB Liability**

	Increase (Decrease)		
	Total OPEB Liability (a)	Plan Fiduciary Net Position (b)	Net OPEB Liability (a) - (b)

Notes to Financial Statements

June 30, 2025

**Note 10. Other Postemployment Benefit (OPEB) Disclosures (continued)**

*Sensitivity of the total OPEB liability to changes in the discount rate.* In the event the discount rate were 1 percent higher or lower than forecast and employee contributions were to increase at the forecast rates, the total OPEB liability as of June 30, 2025 would change as follows:

	1% decrease	Current discount rate	1% increase
	<u>3.45%</u>	<u>4.45%</u>	<u>5.45%</u>
Net OPEB liability (Asset)	\$ (797,189)	\$ (815,347)	\$ (831,722)

*Sensitivity of the total OPEB liability to changes in the healthcare trend.* In the event that healthcare trend rates were 1 percent higher or lower than forecast and employee contributions were to increase at the forecast rates, the total OPEB liability as of June 30, 2024 would change as follows:

	1% decrease	Current trend rate	1% increase
	<u>4.80%</u>	<u>5.80%</u>	<u>6.80%</u>
Net OPEB liability (Asset)	\$ (830,772)	\$ (815,347)	\$ (798,620)

**C. OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

For the year ended June 30, 2025, the Authority recognized OPEB expense of \$(78,020). At June 30, 2025, the Authority reported deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Inflows of Resources</u>
Net difference between projected and actual earnings on OPEB plan investments	<u>\$ (116,956)</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended June 30:	
2026	\$ (27,469)
2027	(36,609)
2028	(32,256)
2029	(20,622)

**LOWELL REGIONAL TRANSIT AUTHORITY**  
(A Component Unit of the Massachusetts Department of Transportation)

Notes to Financial Statements

June 30, 2025

**Note 11. Risk Management**

In conjunction with its normal operations, the Authority is exposed to various risks related to the damage or destruction of its assets from both natural and man-made occurrences, tort/liability claims, errors and omissions claims and professional liability claims. As a result of these exposures, the Authority has developed a comprehensive risk management program. There have been no significant reduction in coverage from the prior year and settlements have not exceeded insurance coverage for the current year or in any other year.

GASB Statement No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues*, requires that liabilities for self-insured claims be reported if it is probable that a loss has been incurred and the amount can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. The estimated liability for all self-insured losses incurred but not reported is not material at June 30, 2025.

**Note 12. Commitments and Contingent Liabilities**

**A. Capital Investment Program**

The Authority's capital investment continuing program for mass transportation development has projects in service and in various stages of approval, planning, and implementation. The following table shows, as of June 30, 2025, capital projects costs approved, expenditures against these projects, and estimated costs to complete these projects, as well as the major funding sources.

<u>Funding Source</u>	<u>Approved project costs</u>	<u>Expenditures through June 30, 2025</u>	<u>Unexpended costs</u>
Federal grants	\$ 20,745,621	6,751,535	13,994,086
State and local sources	2,803,380	1,570,385	1,232,995
Total	<u>\$ 23,549,001</u>	<u>8,321,920</u>	<u>15,227,081</u>

The terms of the federal grant contracts require the Authority to, in part, utilize the equipment and facilities for the purposes specified in the grant agreement, maintain these items in operation for a specified time period, which normally approximates the useful life of the equipment, and to comply with the Equal Employment Opportunity and Affirmative Action programs required by Bipartisan Infrastructure Law. Failure to comply with these terms may jeopardize future funding and require the Authority to refund a portion of these grants to the Bipartisan Infrastructure Law. In management's opinion, no events have occurred that would result in the termination of the grants or require the refund of a significant amount of funds received under these grants.

**LOWELL REGIONAL TRANSIT AUTHORITY**  
(A Component Unit of the Massachusetts Department of Transportation)

Notes to Financial Statements

June 30, 2025

**Note 12. Commitments and Contingent Liabilities (continued)**

**B. Legal and Other**

The Authority is a defendant in various litigations. Although the outcomes of these matters are not presently determinable, in the opinion of the Authority's management, the resolution of these matters will not have a material adverse effect on the financial condition of the Authority.

The Authority has entered into a three-year agreement for fixed route management and preventive maintenance services effective July 1, 2024. The contract can be extended for two more years. The management fee begins at \$213,915. The Authority had also entered into a three-year management agreement for the provision of its demand responsive services effective July 1, 2024. That contract can also be extended for two additional years. The first year's management fee begins at \$171,453.

The State changed its methodology for reimbursing the Authority for local member community assessments presented in current and past audits. This change affected all Transit Authorities in the Commonwealth with the exception of the MBTA. LRTA has accumulated \$1,683,312 in shortages going back to fiscal 2008. Discussions have been going on through the Authority's representative, the Massachusetts Association of Regional Transit Authorities (MARTA). Little progress has been made in resolving this matter. The state changed the format of current reimbursement to an amount two years in arrears.

**C. Fuel Contracts**

The Authority had the following contracts outstanding during the fiscal year:

Product	Term	Gallons	Price
Unleaded Gasoline	12/1/24 - 6/30/26	75,000	\$ 2.398
Ultra Low Sulfur Diesel	12/1/24 - 6/30/26	300,000	\$ 2.553

**Note 13. Net Assets – Investments in Capital Assets**

This balance is represented by the amount invested in capital assets net of related debt. It is comprised of the following:

Cost of Capital Assets Acquired	\$ 88,692,196
Less: Accumulated Depreciation	53,924,628
Less: Outstanding Debt Related to Capital Assets	<u>1,646,444</u>
	<u><u>\$ 33,121,124</u></u>

**LOWELL REGIONAL TRANSIT AUTHORITY**  
(A Component Unit of the Massachusetts Department of Transportation)

Notes to Financial Statements

June 30, 2025

**Note 14. Transit Service**

The operation of the Authority's fixed route service and maintenance of the Authority's transportation property were performed by First Transit Management of Lowell, Inc. under the terms of an agreement whereby First Transit Management of Lowell, Inc. operated mass transit along such routes and according to such schedules as defined by the Authority. In return, the Authority agreed to pay First Transit Management of Lowell, Inc. a management fee and to reimburse it for all costs and expenses which were reasonable and necessary for the efficient operation of the service.

The operation of the Authority's "road runner" bus service for the elderly, handicapped, and low-income persons is performed by MV Contract Transportation, Inc. In return, the Authority agrees to pay MV Contract Transportation, Inc. a management fee and to reimburse it for all costs and expenses which were reasonable and necessary for the efficient operation of the service.

The Authority enters into an annual contract with each of the Towns of Acton, Billerica, Carlisle, Chelmsford, Dracut, Groton, Maynard, Pepperell, Tewksbury, Townsend, Tyngsboro, and Westford to provide paratransit services for the elderly, handicapped, and low-income persons who are unable to use the fixed route service. Service policies are defined by the Authority, which has agreed to reimburse for all reasonable and necessary expenses for the efficient operation of the paratransit service.

**Note 15. Executive Compensation**

Administration and Finance regulations, 801 CMR 53.03(2), on Executive Compensation require that the Authority disclose in the annual financial statements the "salaries and other compensation of its executive director, officers, board members and other highly compensated employees". Compensation is defined in the regulation, 801 CMR 53.04 (1) to include "base salary, bonuses, severance, retirement or deferred compensation packages and policies relative to the accrual and payment of sick and vacation time, including payouts for unused sick and vacation time". The administrator and the chief financial officer are the only individuals for whom disclosure is required. Based on the above definition of compensation the administrator received \$182,704 during the fiscal year. Board members officers do not receive compensation.

**Note 16. Related Party**

The Authority is deemed to be a related party of the Commonwealth of Massachusetts and the Massachusetts Department of Transportation due to its status as a component unit. Related party transactions consisted of Operating Assistance of \$9,215,668; State Capital Assistance of \$2,788,940; and Local Assessments of \$3,340,373 to be paid to the Authority by the Commonwealth. Related party receivables consist of \$5,288,584 in local operating assistance to be billed to the Communities constituting the Authority and \$2,697,650, of State Capital Assistance.

**Note 17. Unrestricted Net Position - Pension**

The balance in the Unrestricted Net Position - Pension on the Statement of Net Position, reflects the effect of the presentation of the net pension liability required by GASB 68 that is listed as a noncurrent liability. This requirement was effective with the fiscal year ended June 30, 2015.

**LOWELL REGIONAL TRANSIT AUTHORITY**  
(A Component Unit of the Massachusetts Department of Transportation)

Notes to Financial Statements

June 30, 2025

**Note 18. Unrestricted Net Position – OPEB**

The balance in the Unrestricted Net Position – OPEB on the Statement of Net Position, reflects the effect of the net OPEB liability required by GASB 75 that is listed as a noncurrent liability. This requirement was effective with the fiscal year ended June 30, 2018.

**Note 19. Unearned Revenue: Extraordinary Reserve and Stabilization Fund**

In accordance with Section 6 of Chapter 161B of the General Laws of the Commonwealth, the Authority is allowed to establish a reserve account for the purpose of meeting the cost of extraordinary expenses that are both unusual in nature and infrequent in occurrence. The total reserve amount may not exceed 20% of the prior year's local assessment and the annual funding cannot exceed 3% of the current year's local assessment. The accumulated aggregate reserve of \$128,251 (which represents approximately 3.84% of the applicable local assessment of \$3,340,373) is included in unearned revenue in the accompanying statement of net position.

Chapter 161B of the General Laws of the Commonwealth has been amended to allow the Authority to establish a stabilization fund, which can be accessed for capital improvements or to offset an unforeseen and dramatic loss of revenue within a fiscal year. The Authority maintains a stabilization fund in the amount of \$54,267 which is included in unearned revenue in the accompanying statement of net position.

**Note 20. COVID-19**

During fiscal 2020 the Coronavirus epidemic significantly affected the Authority's operations. Most demand responsive services were discontinued, fare revenues were not collected and ridership decreased significantly. LRTA was required to incur expenses for personal protection equipment, barriers and disinfectant related products and cleaning services. In response to the effects of COVID-19, the Coronavirus Aid Relief, and Economic Security Act (CARES Act) was signed into law. The purpose of that law was to help the Authority fully fund their revenue losses and cover the additional expenses require to protect employees and riders. The funding requires no local match. The Authority was awarded \$11,200,527.

In March of 2021 the American Rescue Plan Relief Act of 2021 (ARP) was enacted to provide ongoing assistance to ensure the ability of the Authority to provide services well into the future. The grant will assist with operating expenses related to maintaining day-to-day operations, cleaning and sanitization, combating the spread of pathogens on transit systems and maintaining critical staffing levels. The award to LRTA was in the amount of \$4,315,711.

**LOWELL REGIONAL TRANSIT AUTHORITY**  
(A Component Unit of the Massachusetts Department of Transportation)

Notes to Financial Statements

June 30, 2025

**Note 20. COVID-19 (continued)**

The following table represents drawdowns made to June 30, 2025.

	Grant Amount	Current Expenditures	Prior Expenditures	Remaining Balance
CARES Act	\$11,200,527	1,754,349	8,450,425	995,753
ARPA	4,315,711	1,308,195	2,064,964	942,552
	\$15,516,238	3,062,544	10,515,389	1,938,305

**Note 21. MAP Vehicles**

Mobility Assistance vehicles are provided directly to the local communities by the Commonwealth of Massachusetts. Funding for these acquisitions is in the form of a grant from the Federal Transit Administration to the Massachusetts Department of Transportation (MassDOT). The only involvement of the LRTA is that the vehicles are titled in the name of the Authority. MassDOT places a lien on each vehicle preventing the Authority from taking ownership until the estimated useful life of the vehicles is over. The valuation of each vehicle is its acquisition price offset by an equal amount assigned to the lien. The lien amount is reduced annually by the amount of depreciation recorded.

**Note 22. Subsequent Events**

The Authority has evaluated events subsequent to June 30, 2025 through March 25, 2026, the date the financial statements were available for issuance, and determined that other than the RAN refinancing discussed in Note 7 and the line of credit refinancing discussed in Note 8, there are no material items that would require recognition or disclosure in the Authority's financial statements.

**LOWELL REGIONAL TRANSIT AUTHORITY**  
(A Component Unit of the Massachusetts Department of Transportation)

Notes to Required Supplementary Information

As of and For the Year Ended June 30, 2025

An annual budget is legally adopted by the Authority. The Authority's Administrator oversees the budgeting process, which is approved annually by the Advisory Board.

The Authority's annual budget is prepared on a basis of accounting other than GAAP. The actual budgetary amounts column of the Schedule of Revenues, Expenditures and Changes in Net Position – Budget and Actual is presented on a budgetary basis to provide meaningful comparison to the adopted budget. A complete reconciliation is provided below:

Expenditures - budgetary basis	\$ 16,448,537
Depreciation and amortization	3,300,552
Accounting for post-employment benefits	<u>83,985</u>
Expenses - GAAP basis	<u><u>\$ 19,833,074</u></u>

**LOWELL REGIONAL TRANSIT AUTHORITY**

**Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards***

To the Advisory Board of the  
Lowell Regional Transit Authority  
Lowell, Massachusetts

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the Lowell Regional Transit Authority (the Authority), as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated March 25, 2026.

**Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Authority's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
