INTRODUCTION

The Division of Capital Asset Management & Maintenance (DCAMM) is pleased to publish the Commonwealth of Massachusetts Real Property Report for 2026. The Report includes Commonwealth property, both owned and leased. In addition to this PDF version of the report, DCAMM also maintains a fully searchable [online version](https://www.mass.gov/info-details/commonwealth-report-on-real-property) (https://www.mass.gov/info-details/commonwealth-report-on-real-property) of the report available on DCAMM's website. This PDF version represents a current snapshot (as of February 2026) of the land and building information at the time of publication. The online version, however, is updated monthly. It incorporates improved accessibility features, along with several other user-friendly enhancements such as custom filtering and basic mapping of properties.

This report has been prepared in accordance with the requirements of M.G.L Chapter 7C, Section 39. The information contained herein was compiled using the Commonwealth Asset Management Information System ("CAMIS"), an enterprise-wide platform overseen by the DCAMM Office of Finance and Administration to track the Commonwealth's land and building portfolio, as well as DCAMM's centralized leasing database. Please see the "Data Sources" section below for further background on the Real Property Report data.

REPORT ORGANIZATION

This PDF version of the report contains five tables varying by content and views of properties occupied by Commonwealth agencies (including both owned and leased):

- Table 1 - Summary of Commonwealth-Owned Real Property by Executive Office and Agency
- Table 2 - Summary of Commonwealth-Owned Real Property by Executive Office, Agency, and Municipality
- Table 3 - Summary of Commonwealth-Leased Real Property by Executive Office, Agency, and Municipality
- Table 4 - Summary of County-Owned Real Property by User Agency, County, and Municipality
- Table 5 - Summary of Public/Private-Owned, State Restricted Real Property

Each table provides a range of specific details depending on context. Tables 1 and 2 summarize the number and square footage of buildings categorized as either major or minor buildings for each location. Please refer to the [online version](#) for detailed listing of all buildings in the inventory, include non-building improvements at each site.

MORE ABOUT WHAT'S INCLUDED IN THE REAL PROPERTY REPORT

Leases of Private Space for State Agencies

The online report includes a separate page dedicated to leases of privately-owned space procured through DCAMM to house operations of a wide variety of state agencies. This section of the report includes the name of the leasing agency, leased address, leased area (useable square feet), and key dates. The online report allows the user to filter by many of these attributes. The leases may

include parking spots and other ancillary spaces provided by the landlord. Also included in our lease reporting are the limited number of third-party licenses.

Some state entities, including the University of Massachusetts, procure leases on their own authority, outside of DCAMM. Those leases are not included here. Some security sensitive leased locations (e.g., law enforcement), and leases of group homes operated by Executive Office of Health and Human Service agencies are not considered a public record and are also excluded from this online lease reporting.

Data on Authority-owned Property

For higher education campuses, Tables 1 and 2 of this PDF version include information available for land and buildings owned by Massachusetts State College Building Authority (MSCBA), UMass Building Authority (UMBA), along with campus – specific Higher Education Assistance Corps. and foundations. These buildings owned by these entities contribute significantly to the mission of each campus. However, each respective entity should be contacted directly for the definitive current inventory.

Assets owned by other authorities and independent agencies are included in this report only if the Commonwealth uses or occupies those facilities. Assets owned by authorities such as MWRA, MBTA, and Massport and other independent agencies are not included in this report except in rare cases when assets are used or occupied by the Commonwealth. These entities should be contacted directly for information about their holdings.

Conservation, Agricultural Restrictions and Certain Easements

The online report also lists property with conservation restrictions and agricultural preservation restrictions plus certain easements. Legal ownership of these lands remains with a municipal or private party. The Commonwealth only owns restrictions on certain “development rights” tied to the property, not the property itself, but reflect the Commonwealth’s commitment to preserving open space.

County-owned Land Housing Sheriffs and Court Facilities

The report also includes county-owned land and buildings that are occupied by various Sheriff’s and Trial Court departments. These buildings and associated land are not included in any other parts of the online report.

REPORT HISTORY AND DATA SOURCES

In the late 1980's, the Massachusetts Asset Management System (MAssets) staff collected data from all 351 municipalities across the Commonwealth and from state agencies reporting their land and building holdings. In 1999 pursuant to legislative authorization, DCAMM initiated the Capital Asset Management Information System (CAMIS). Through this program DCAMM conducted a comprehensive condition assessment of the state’s capital assets and procured software to manage the collected data. In 2015 the MAssets data was merged into the CAMIS database.

Now, through its office of Finance and Administration, DCAMM has implemented the CAMIS program to both assist facilities in their daily maintenance activities and to provide data for DCAMM staff to optimize statewide capital maintenance and repair planning, and to track state land and building assets. CAMIS staff consult with facilities' staff throughout the state to update information about their buildings and improvements. DCAMM also consults with assessors of cities and towns statewide to verify information about parcels in their municipalities, and with various state agencies to confirm their land holdings and update any change in status.

DCAMM's Office of Real Estate Management (OREM) manages the purchase and sale of real property for most Commonwealth agencies. OREM works with the CAMIS team and DCAMM's Office of the General Counsel to ensure that each acquisition and disposition of land and buildings is logged into the Commonwealth portfolio of real property. They also report on telecom leases on state property, easements, land swaps, and care & control agreements between agencies.

The Office of Leasing (within OREM) maintains information on properties leased on behalf of Commonwealth agencies. The information contained in the Leasing database is constantly changing, based on the commencement and expiration, as well as the terms of each agreement. The Leasing Office diligently seeks the most appropriate and inexpensive rental space available to suit each agency's needs and records information on each agreement in their database as each transaction is completed.

The information in the Real Property database is dynamic. This RPR publication is therefore a comprehensive annual snapshot of the existing portfolio. Due to the tremendous volume of land and building data gathered over decades, DCAMM and its agency partners are constantly reviewing CAMIS data to ensure accuracy and making changes to the data when warranted.

ONGOING DATA QUALITY IMPROVEMENTS

The annual Real Property Report presents a snapshot of a dynamic land and building portfolio. DCAMM continues with systematic quality review and technology enhancements for CAMIS reporting, including implementing an online searchable version of the report where the public can access information updated monthly (see [online version](#)).

For comments or questions about this report or any Commonwealth-owned property, please contact the Division of Capital Asset Management & Maintenance, Office of Finance and Administration, One Ashburton Place, Boston, MA 02108 or at info.DCAMM@mass.gov.
