KIMBERLEY DRISCOLL
LIEUTENANT GOVERNOR

September 23, 2026

To the Honorable Senate and House of Representatives,

I am filing for your consideration a bill entitled “An Act Making Appropriations for Fiscal Year 2026 to Provide for Supplementing Certain Existing Appropriations and for Certain Other Activities and Projects.”

This legislation is necessary to meet critical spending needs, pay bills, build reserves and close Massachusetts’s Fiscal Year 2026 (FY26) in balance. In total, this bill proposes to appropriate \$2.24 billion gross/\$1.46 billion net to meet our obligations and added targeted resources to priority areas of our budget, including support for first responders and maternal health.

This bill also presents an opportunity for us to act together to make life more affordable in Massachusetts. While the President continues to drive up costs with his war and tariffs, we have an opportunity to deliver relief for residents and businesses alike.

That is why I am proposing here to suspend Massachusetts’ gas tax for two months, providing immediate relief for residents and truck drivers as President Trump continues to wage war in Iran with no end in sight. Today in Massachusetts, the average cost of a gallon of gas is \$4.40 and the cost of a gallon of diesel is \$6.38, up from \$2.90 for regular and \$4.20 for diesel in February 2026 before the war started. This has disrupted major shipping routes and energy infrastructure in the Middle East and has resulted in families and businesses across the country paying more for gas, diesel and the goods they rely on every day.

While we cannot control the price of gas, we can control how much we tax it.

Under this proposal, Massachusetts would suspend its 24-cent-per-gallon tax on gas and diesel for two months beginning seven days after the bill is signed, delivering an estimated \$120 million in relief. The legislation would require gas stations to lower prices to reflect the suspended tax so that drivers are able to see the savings at the pump, while also protecting station owners from absorbing the cost of the reduced-price gasoline. Because gas tax revenue is a primary source of funding to the Commonwealth Transportation Fund, we are also proposing to backfill this revenue with unbudgeted, surplus Fair Share surtax revenue in FY27, making this a fiscally responsible plan that will not disrupt any planned investments in our transportation infrastructure and remain compliant with our existing bond obligations. As I detailed earlier this summer, our administration is also filing language to lower sports and concert ticket resale prices and ensure that fans have a fair opportunity to enjoy the events they love without paying exorbitant prices on the secondary market. The legislation would establish some of the nation's strongest consumer protections for the secondary ticket marketplace, building on reforms recently adopted in states such as Vermont and Maine.

We propose to cap the resale price of concert tickets at 110 percent of the price of the face value of the original ticket. This bill would also limit the service fees and charges that can be imposed by ticket resellers like StubHub and SeatGeek to no more than 10 percent of the total price of the ticket for resale and prohibit the sale of speculative tickets. There is similar language being considered as part of the Mass Wins economic development bill, and I urge you to enact these provisions as soon as possible.

Overall, this supplemental budget proposal addresses costs incurred in FY26, which ended on June 30, and other critical needs that will allow our administration to advance key priorities. The MassHealth program accounts for the largest of these deficiencies, due in part to rising utilization rate for behavioral health services and pharmaceutical costs, as well as required payments to help stabilize premiums. This budget recommends \$1.8 billion gross to pay for services provided through MassHealth in FY26, at a net cost to the state of \$1.03 billion after federal reimbursements. We will continue to do everything in our power, in the face of federal funding reductions, to manage spending for this critical safety net program and adjust to the changing Medicaid landscape.

This budget also includes a request for \$41.5 M in total resources to support SNAP recipients, including \$26.6 million for caseworkers at the Department of Transitional Assistance. This will augment funding currently in the budget and allow us to maintain the net new 78 caseworkers hired last year and bring on 10 new caseworkers to operate with caseload ratios that are now near pre-pandemic levels. An additional \$14.9 million will support strategic investments in our DTA system through technology and staff support to reduce error rates to comply with new federal guidelines. While President Trump is trying to force hundreds of thousands of people in Massachusetts off SNAP, we must keep doing everything we can to help people navigate federal changes and stay enrolled in this crucial program.

We have also proposed \$2.25 million to strengthen postpartum care and mental health support for mothers and families across Massachusetts, with a focus on reaching people earlier. Of that, \$2 million will help provide universal access to the Department of Public Health's Welcome Family optional home visiting program statewide, and \$250,000 would strengthen the Department of Mental Health's Massachusetts Child Psychiatry Access Program for Moms, known as MCPAP for Moms. Welcome Family is a voluntary and free home visiting program that is available for parents and caregivers who choose to access these services in the weeks after a baby is born.

Our bill will support additional local fire service grants, support the work of the Foundation Budget Review Commission and invest \$10 million in the Massachusetts Life Sciences Center. Additional appropriations are needed to cover FY25-26 expenses for sheriffs, Executive Office of Environmental Affairs summer event programming, Department of Public Health hospital staffing, the State Police, the Holyoke Veterans' Home and National Guard tuition and fee waivers.

In addition to those I've already detailed, this legislation also includes a number of outside policy sections, some of which seek to simply make technical corrections to policies already enacted by the Legislature. Other new provisions include an extension of the period during which businesses will face no tax penalties or interest as they work to come into compliance with the new rules enacted in June regarding conformity at the state level with certain federal tax law changes under the One Big Beautiful Bill Act. This legislation also proposes updates to several laws governing how corporations are formed and operated in Massachusetts, helping to ensure the state remains a leading place to start and grow a business. We also want to remove the requirement for electric utilities to procure electric supply for basic service on a 6-month basis. This would permit them to better hedge future electricity costs, reducing price volatility between seasons and potentially lowering rates. Based on the differences between basic services and municipal aggregators, this change is estimated to save ratepayers \$610 million.

Additional policy sections would remove obstacles to veterans obtaining medical marijuana licenses and create a new Health Care Stabilization Fund to support emerging health care needs, including new costs born from recent federal policy changes. This fund will allow us to house surplus resources to support MassHealth, the Connector, and the Health Safety Net.

I also want to reiterate my support for and urge your consideration of other measures filed by our administration that would make a true difference, both financially and operationally, for our cities and towns. This includes my proposal filed over the summer to use \$100 million in future surplus surtax revenue to provide one-time budget relief to every school district across the state to retain teachers, paraprofessionals and mental health counselors. This session I also refiled the Municipal Empowerment Act, which included a menu of reforms that will give cities and towns operational freedom to streamline operations and make local government more

efficient. This includes procurement reforms and the option to provide additional local tax relief for residents, including seniors. While we acknowledge that revenue-raising proposals are no longer under consideration, there are many other provisions that are common-sense, non-controversial reforms that were recommended by the Joint Committee on Municipalities and Regional Government, and I encourage you to consider adding them to this bill before it reaches my desk.

I also appreciate all the work the Legislature has put into a number of bills our administration has filed, including the BRIGHT Act and Mass Wins Act, which includes a version of my DRIVE initiative to support our academic research ecosystem. I look forward to continuing to work with you over the coming weeks to get those bills finalized and on my desk.

I respectfully urge you to support my administration's efforts to close the books for Fiscal Year 2026 in a timely fashion by enacting this legislation promptly. Sufficient revenues are available to finance the appropriations and other spending we have proposed in this bill without tapping our robust Stabilization Fund, and we are eager to keep Massachusetts strong and financially solid as we transition into the next fiscal year.

Respectfully submitted,
