2 is hereby amended by inserting after section 23C the following section:-

4 clearly requires otherwise, have the following meanings:-

5           “Child” means any child, youth or young adult who is under the custody, care or  
6 responsibility of the department.

7           “Child-specific family” means a family that includes a non-relative (i) who is significant  
8 in a particular child’s life, or (ii) to whom the child and/or parent(s) ascribe the role of family  
9 based on cultural and affectional ties or individual family values.

“Department” means the Department of Children and Families.

(b) The department shall present a document listing the rights enumerated in subsection (d) to the parent(s) of each child in its care, the foster parent(s) of each child in its care and each child in its care, or where developmentally appropriate, the child’s attorney, when the child enters care and at other times the department deems appropriate. Within 3 months of the effective date of this statute, the department shall create a simple and plain language version of these rights as they are enumerated below so that they are accessible and easily understood by children and youth in care. This simple and plain language version shall be created with the participation of lived experience community members. The department shall explain these rights to the child in a developmentally appropriate way when the child enters the department’s care. The department shall ensure the document is translated into the language spoken by the child, the child’s parent and the foster parent(s). The document shall be posted in all congregate care facilities in a public space where all residents have access, prominently on its website and in all area offices. The department shall present the document for continual use to the child’s attorney and parent(s) and display the document prominently on its website and in all area offices.

(c) The department shall amend any regulations or policies that may conflict with this section in a timely fashion.

(d) Each child has the following rights:

(1) Safety and Security:

(i) Each child shall be treated with dignity, respect and consideration, and has the right to have their privacy respected.

(ii) Each child has the right not to be discriminated against, physically hurt or harassed by department staff, foster parents, the child's attorney or service providers on the basis of religion, race, color, creed, gender, gender identity, gender expression, sexual orientation, national origin, age, disability, culture, language or ethnicity.

(iii) Each child has the right to a placement that is gender-affirming and free from physical, psychological, sexual, emotional or other abuse, neglect or exploitation.

(iv) Each child has the right to access personal possessions, personal space and privacy with allowance for safety.

(v) Each child has the right to autonomy of all pictures, taken by any individual, of themselves as appropriate.
