Her Excellency Maura Healey
Governor of the Massachusetts
State House, Room 280
Boston, MA 02133

RE: MassCEC FY2025 Annual Reports

Dear Governor Healey:

I am writing to you regarding the Massachusetts Clean Energy Technology Center's ("MassCEC") fiscal year 2025 annual reports, which are mandated by Chapter 23J §5 of the General Laws. Section 5 requires MassCEC to annually report as follows:

The center shall annually submit a report setting forth, relative to its operations, its receipts and expenditures during such fiscal year and its assets and liabilities during the fiscal year to the governor, the secretary of administration and finance, the comptroller and the clerks of the house of representatives and senate, who shall forward the same to the house and senate committees on ways and means, the joint committee on economic development and emerging technologies, the joint committee on telecommunications, utilities and energy and the joint committee on environment, natural resources and agriculture annually on or before August 15.

The center shall annually, not later than August 15, submit to the governor, the joint committee on telecommunications, utilities and energy, the joint committee on economic development and emerging technologies and the senate and house committees on ways and means a report detailing the expenditure and investment of monies from the fund and the trust fund over the previous fiscal year, the ability of the fund to meet the requirements in section 35FF of chapter 10 and the ability of the trust fund to meet the requirements in section 9, and any recommendations for improving the ability of the board, the center and the fund and trust fund to meet such requirements.

The center shall annually, no later than August 15, submit to the governor, the joint committee on telecommunications, utilities and energy, the joint committee on economic development and emerging technologies and the senate and house committees on ways and means a report detailing the commonwealth's clean energy sector. The report shall include, but shall not be limited to, an examination of the growth rate of the commonwealth's clean energy sector, including the number of in-state jobs and businesses.

MassCEC takes this mission seriously and strives to deliver a thorough and accurate analysis of the clean energy sector in Massachusetts. As in past years, work on this year's report is ongoing but, unfortunately, will not be completed by the August 15th deadline. MassCEC receives a significant amount of state level clean energy industry data from the U.S. Department of Energy's "U.S. Energy and Employment Jobs Report" (USEER). The 2025 USEER data will likely not be available until August or September of this year, delaying MassCEC's overall timeline for submission. MassCEC is committed to providing you with its 2025 Industry Report not later than March 31, 2026. Likewise, the organization's audited FY25 financial report will be provided no later than January 30, 2026. Draft financial information will be provided to the Comptroller's office by the established dates communicated to the organization for Component Unit reporting.

Thank you for your consideration of this letter. If you or your staff have any questions or wish to discuss this further, please contact me directly at ereichert@masscec.com, or Diego Huevo, MassCEC Senior Director of Government Relations, at dhuevo@masscec.com.

Sincerely,

Emily Reichert, Ph.D.
Chief Executive Officer

cc: Honorable Rebecca Tepper, Secretary of Energy and Environmental Affairs
Honorable Matthew Gorzkowicz, Secretary of Administration and Finance
Honorable William McNamara, Comptroller
