Attached to this memo are the individual submissions of the 11 District Attorney Offices. The District Attorneys utilize the same outdated case management system (DAMION) but differ significantly in how each office defines its data and inputs and reports that data, as well as whether certain data is even tracked at all. Please also note that, due to administrative staffing issues, not all offices are able to input all cases (especially those in the district courts) into DAMION, resulting in underreporting of cases; and not all offices are able to quickly close disposed cases, resulting in over reporting.
