Worcester County Sheriff's Office	8910-1011	Contracted	160	38,000	-	$1,254,133.39	$1,254,133.39
Total			**6,415**	**534,337**	**$3,929,867.90**	**$20,168,120.01**	**$24,097,987.91**

Note: participant totals across offices are a sum of each office's unique count; an individual served by more than one office may be counted more than once.

Massachusetts Sheriffs' Association

FY 2026 Medication-Assisted Treatment (MAT) Report — Berkshire County Sheriff's Office

Sheriff's Office	Berkshire County Sheriff's Office
Line item	8910-0147
Reporting period (start)	July 1, 2025
Reporting period (end)	June 30, 2026
Prepared by (name, title)	Marianne Blanchet
Contact (email / phone)	Marianne.Blanchet@SDB.state.ma.us
Date submitted	10/29/2026

Program Overview & Narrative

Describe how MAT is delivered (e.g., in-house medical staff, contracted vendor, or a hybrid), which facilities offer it, and any context the Legislature should know.

Delivery model	Hybrid (in-house and contracted)
Contracted vendor(s), if any	Spectrum for daily methadone dose distribution
Facilities offering MAT	1
Narrative	Berkshire County Sheriff's Office provides all three forms of FDA aproved medications; Buprenorphine, Methadone, Vivitrol. Inmates who are in custody with and existing and confirmed prescription will remain on that medication, should the individual chose to do so. Inmates requesting to be on the MOUD must be assessed/diagnosed by MH/SUD speecialists, have any necessary medical assessments and lab work completed and then may be inducted if medically appropriate. Medication-Asisted Treatment(MAT), including opioid treatment programs (OTPs), combines behavioral therapy, education and medications to treat substance use disorders. BCSO also meets weekly to review inmates that chose the Brien Center for their out patient clinic.

(i) Number of Participants in the Program

Total number of unique individuals who received MAT while in custody during the reporting period. Count each person once.

Participants while in custody	141

(ii) Breakdown of Dosage and Type of Medications Received

One row per medication/formulation. Add rows above "Other" if needed. Participants by medication may exceed the unique total if a person received more than one.

Medication	Formulation / brand	Route	Dosage (mg)	Participants	Total doses received	Notes
Buprenorphine	Sublingual tablet	Sublingual	2mg, 8mg,UD	124	31,160	
Buprenorphine/naloxone	Sublingual film/tablet (e.g., Suboxone)	Sublingual	8mg/2mg	3	15	
Buprenorphine extended-release	Monthly injection (e.g., Sublocade)	Subcutaneous injection	100mg/.05ml;300mg/1.5ml	17	47	
Buprenorphine extended-release	Weekly/monthly injection (e.g., Brixadi)	Subcutaneous injection	96mg/0.27ml;128mg/0.36ml	19	66	
Methadone	Oral liquid	Oral		-	-	This is distributed by Spectrum and the drug cost is included in the flat monthly fee.
Methadone HCL	Tablet	Oral	10mg	2	346	
Naltrexone extended-release	Monthly injection (e.g., Vivitrol)	Intramuscular injection	380mg	3	3	
Naltrexone	Oral tablet	Oral	50mg	1	3	
Total				**169**	**31,640**	

(iii) Cost Breakdown of Medications

Medication costs for the reporting period.

Medication	Formulation / brand	Total doses (from ii)	Medication cost ($)	Cost per dose ($)	Notes
Buprenorphine	Sublingual tablet	31,160	$22,880.29	$0.73	
Buprenorphine/naloxone	Sublingual film/tablet (e.g., Suboxone)	15	$6.30	$0.42	
Buprenorphine extended-release	Monthly injection (e.g., Sublocade)	47	$72,977.84	$1,552.72	
Buprenorphine extended-release	Weekly/monthly injection (e.g., Brixadi)	66	$102,582.48	$1,554.28	
Methadone	Oral liquid	-		-	
Methadone HCL	Tablet	346	$34.60	$0.10	
Naltrexone extended-release	Monthly injection (e.g., Vivitrol)	3	$3,768.55	$1,256.18	
Naltrexone	Oral tablet	3	$93.90	$31.30	
Buprenorphine 2 mg;8mg	Stock Cards	-	$2,228.10	-	
Total medication cost		**31,640**	**$204,572.06**	**$6.47**

FY 2026 Medication-Assisted Treatment (MAT) Report — Bristol County Sheriff's Office

Sheriff's Office	Bristol County Sheriff's Office
Line item	8910-8302
Reporting period (start)	July 1, 2025
Reporting period (end)	June 30, 2026
Prepared by (name, title)	Ana Arruda, Chief Financial Officer
Contact (email / phone)	anaarruda@bcso-ma.org 508-995-1311, ext. 2324
Date submitted	10/30/2026

Program Overview & Narrative

Describe how MAT is delivered (e.g., in-house medical staff, contracted vendor, or a hybrid), which facilities offer it, and any context the Legislature should know.

Delivery model	Contracted
Contracted vendor(s), if any	Correctional Psychiatric Services
Facilities offering MAT	Darmouth House of Correction and Jail, Dartmouth Women's Center, Ash St. Jail
Narrative	The MAT program at Bristol County facilities offers psychosocial treatment by assessing the patient's specific needs, use of FDA approved medications, individual counseling, support groups and referrals for continued support upon release to the community. The benefits and risks of inmates participating in the MAT program include: a) Stabilizing brain functions; b) long term treatment can reverse some of the damage; c) allows people to function normally-they can continue to work, go to school, etc. ; d) relieves withdrawal symptoms and reduces cravings; e) may cause withdrawal if stopped abruptly; f) medications are controlled substance with abuse potential; g) medication side effects and interactions; h) risk of overdose or fatality especially if taking benzodiazepines.

(i) Number of Participants in the Program

Total number of unique individuals who received MAT while in custody during the reporting period. Count each person once.

Participants while in custody	160

(ii) Breakdown of Dosage and Type of Medications Received

One row per medication/formulation. Add rows above "Other" if needed. Participants by medication may exceed the unique total if a person received more than one.

Medication	Formulation / brand	Route	Dosage (mg)	Participants	Total doses received	Notes
Buprenorphine	Sublingual tablet	Sublingual	2mg - 16mg	626	19,077	
Buprenorphine extended-release	Weekly/monthly injection (e.g., Brixadi)	Subcutaneous injection	128mg	1	1	
Methadone	Oral liquid	Oral	30mg-275 mg	771	26,093	
Total				**1,398**	**45,171**	

(iii) Cost Breakdown of Medications

Medication costs for the reporting period.

Medication	Formulation / brand	Total doses (from ii)	Medication cost ($)	Cost per dose ($)	Notes
Buprenorphine	Sublingual tablet	19,077	$77,935.00	$4.09	
Buprenorphine extended-release	Weekly/monthly injection (e.g., Brixadi)	1	$1,704.00	$1,704.00

FY 2026 Medication-Assisted Treatment (MAT) Report — Dukes County Sheriff's Office

Sheriff's Office	Dukes County Sheriff's Office
Line item	8910-8403
Reporting period (start)	July 1, 2025
Reporting period (end)	June 30, 2026
Prepared by (name, title)	Amanda Cimeno, HSA
Contact (email / phone)	acimeno@dcsoma.org 774-549-6083
Date submitted	10/29/2026

Program Overview & Narrative

Describe how MAT is delivered (e.g., in-house medical staff, contracted vendor, or a hybrid), which facilities offer it, and any context the Legislature should know.

Delivery model	Hybrid (in-house and contracted)
Contracted vendor(s), if any	Correctional Psychiatric Services (CPS)
Facilities offering MAT	Dukes County Jail and House of Correction
Narrative	The Dukes County Sheriff's Office currently offers Naltrexone, Vivitrol and extended-release Buprenorphine injections. With a current staff member pursuing a nursing degree, we anticipate expanding daily medical coverage, allowing us to enhance out medication-assisted treatment services to include daily administration of oral Buprenorphine. Methadone treatment services are not available on Martha's Vineyard, and due to our limited access and operational constraints, we are currently unable to offer Methadone treatment within our facility. The Dukes County Sheriff's Office contracts with CPS to provide medical services through healthcare providers, including patient assessments and medication management and prescribing.

(i) Number of Participants in the Program

Total number of unique individuals who received MAT while in custody during the reporting period. Count each person once.

Participants while in custody	5

(ii) Breakdown of Dosage and Type of Medications Received

One row per medication/formulation. Add rows above "Other" if needed. Participants by medication may exceed the unique total if a person received more than one.

Medication	Formulation / brand	Route	Dosage (mg)	Participants	Total doses received	Notes
Buprenorphine	Sublingual tablet	Sublingual	2	1	1

Date submitted	10/30/2026

Program Overview & Narrative

Describe how MAT is delivered (e.g., in-house medical staff, contracted vendor, or a hybrid), which facilities offer it, and any context the Legislature should know.

Delivery model	In-house
Contracted vendor(s), if any	N/A
Facilities offering MAT	Main facility
Narrative	The Opioid Treatment Program (OTP) at FCSO is accredited by SAMHSA, BSAS, and NCCHC, with additional audits by the DEA and DPH. The program is a multidisciplinary, whole-person care initiative that requires coordinated staffing across medical, behavioral health, security, classification, and reentry services. Upon booking into the facility, individuals undergo a medical intake conducted by nursing staff, including a substance use inventory, Clinical Opioid Withdrawal Scale (COWS) assessment, 12-panel urine toxicology screening, and education on withdrawal and infectious disease. Eligible individuals receive an orientation to OTP services and available treatment options and, if they voluntarily elect to participate, provide informed consent. Following enrollment, participants are referred to a licensed medical provider (nurse practitioner, physician assistant, or physician) for further assessment and medication for opioid use disorder (MOUD) treatment planning; a behavioral health clinician for a behavioral health intake; a caseworker for a reentry needs assessment; and a post-release caseworker to support continuity of care and successful community reintegration. Participation also requires engagement in additional treatment services identified through individualized assessments and documented in a treatment plan. Medication administration requires dedicated nursing and security staff to maintain a controlled, consistent, and secure dispensing process, including monitoring participants during medication absorption and ensuring compliance with established protocols. Medical providers review and determine medication dose adjustments weekly, with prescriber-directed changes during initial stabilization and a formal request process available once a participant has reached a stable dose. Dose change requests are reviewed through a multidisciplinary care team comprising medical, behavioral health, security, classification, and reentry personnel, whose observations and knowledge of the participant inform clinical decisions and treatment progress.

(i) Number of Participants in the Program

Total number of unique individuals who received MAT while in custody during the reporting period. Count each person once.

Participants while in custody	254

(ii) Breakdown of Dosage and Type of Medications Received

One row per medication/formulation. Add rows above "Other" if needed. Participants by medication may exceed the unique total if a person received more than one.

FY 2026 Medication-Assisted Treatment (MAT) Report — Hampden County Sheriff's Office

Sheriff's Office	Hampden County Sheriff's Office
Line item	8910-1040
Reporting period (start)	July 1, 2025
Reporting period (end)	June 30, 2026
Prepared by (name, title)	Christopher Gelonese Special Sheriff / CFO
Contact (email / phone)	chris.gelonese@sdh.state.ma.us 413-858-0117
Date submitted	11/02/2026

Program Overview & Narrative

Describe how MAT is delivered (e.g., in-house medical staff, contracted vendor, or a hybrid), which facilities offer it, and any context the Legislature should know.

Delivery model	In-house
Contracted vendor(s), if any	Behavioral Health Network (discharge planning only) Springfield Pharmacy as approved pharmacist ordering to avoid conflict of interest with SOPS
Facilities offering MAT	Hampden County Correctional Center (Main Institution, Western Massachusetts Regional Women's Correctional Facility, Western Massachusetts Recovery and Wellness Center, and Stonybrook Stabililzation and Treatment Center.
Narrative	The Hampden County Sheriff's Office offers FDA approved Medications for Opioid Use Disorder (Buprenorphine-oral and injectable, Methadone, and Naltrexone.) The program integrates evidence-based medication treatment, behavioral health services, patient education, peer support, and coordinated discharge planning to promote continuity of care, recovery, and successful community re-entry.

(i) Number of Participants in the Program

Total number of unique individuals who received MAT while in custody during the reporting period. Count each person once.

Participants while in custody	1,594

(ii) Breakdown of Dosage and Type of Medications Received

One row per medication/formulation. Add rows above "Other" if needed. Participants by medication may exceed the unique total if a person received more than one.

Medication	Formulation / brand	Route	Dosage (mg)	Participants	Total doses received	Notes
Buprenorphine	Sublingual tablet	Sublingual	2mg, 8mg	738	67, 330	
Buprenorphine/naloxone	Sublingual film/tablet (e.g., Suboxone)	Sublingual	2mg-.5mg	1	1

Date submitted	10/30/2026

Program Overview & Narrative

Describe how MAT is delivered (e.g., in-house medical staff, contracted vendor, or a hybrid), which facilities offer it, and any context the Legislature should know.

Delivery model	In-house
Contracted vendor(s), if any	N/A
Facilities offering MAT	Hampshire House of Corrections
Narrative	Since becoming federally licensed in October 2021, 732 individuals have been through our OTP program and only 148, or 20 percent, have returned to our facility after their release, as of April 27, 2026. This 80 percent success rate with our OTP program would likely not be possible without the close partnerships we enjoy with the Northampton Recovery Center, Ware Recovery Center, and other recovery focused groups in our community.

(i) Number of Participants in the Program

Reporting period (start)	July 1, 2025
Reporting period (end)	June 30, 2026
Prepared by (name, title)	Bridget Cook, Chief Financial Officer
Contact (email / phone)	bcook@sdm.state.ma.us 781-960-2800
Date submitted	10/29/2026

Program Overview & Narrative

Describe how MAT is delivered (e.g., in-house medical staff, contracted vendor, or a hybrid), which facilities offer it, and any context the Legislature should know.

Delivery model	Hybrid (in-house and contracted)
Contracted vendor(s), if any	CPS, Amergis and SOPS
Facilities offering MAT	Middlesex Jail and House of Correction
Narrative	The Middlesex Sheriff's Office utilizes a hybrid approach for MAT services. We have full-time clinicians, nurses and other qualified MAT healthcare professionals. We contract with vendors to provide supplemental services for MAT. Through these vendor services, Spectrum Healthcare is subcontracted for the OTP methadone portion of this program. Our main, current MAT vendor contract is expiring and we are going through the procurement process to establish a new contract. At this time, we are unsure what the estimated vendor costs will be, but we anticipate they will increase for FY27. Once we have an awarded bid, we will advise Ways and Means and Administration and Finance of any price increases.

(i) Number of Participants in the Program

Total number of unique individuals who received MAT while in custody during the reporting period. Count each person once.

Participants while in custody	694

(ii) Breakdown of Dosage and Type of Medications Received

One row per medication/formulation. Add rows above "Other" if needed. Participants by medication may exceed the unique total if a person received more than one.

Program Overview & Narrative

Describe how MAT is delivered (e.g., in-house medical staff, contracted vendor, or a hybrid), which facilities offer it, and any context the Legislature should know.

Delivery model	Hybrid (in-house and contracted)
Contracted vendor(s), if any	Correctional Psychiatric Services (CPS) and Spectrum Health Systems, Inc.
Facilities offering MAT	Norfolk County Sheriff's Office
Narrative	The Norfolk County Sheriff's Office (NCSO) provides comprehensive Substance Use Disorder (SUD) treatment to an all-male incarcerated population. In partnership with Spectrum Health Systems and Correctional Psychiatric Services (CPS), the program delivers clinically licensed Medication for Opioid Use Disorder (MOUD) using all three FDA-approved medications: Buprenorphine (sublingual and injectable), Methadone, and Naltrexone (oral and injectable). The program uses an integrated, individualized, and multidisciplinary treatment model from admission to reentry. Upon admission, each individual receives an initial nursing screening to identify urgent health needs, followed by comprehensive medical, dental, and mental health screenings within 14 days. Individuals with SUD receive coordinated services addressing substance use, physical and behavioral health, programming, and reentry needs. Continuity of care is a central component of the program. Treatment is coordinated throughout incarceration, transfer, and discharge, with referrals to community-based providers when appropriate. Healthcare professionals, correctional staff, and community partners collaborate to support consistent, recovery-oriented care while protecting patient privacy, dignity, and cultural needs. The program is designed to improve SUD management, maintain access to effective treatment, support successful transitions to community care, and promote sustained recovery and improved outcomes following release.

(i) Number of Participants in the Program

FY 2026 Medication-Assisted Treatment (MAT) Report — Plymouth County Sheriff's Office

Sheriff's Office	Plymouth County Sheriff's Office
Line item	8910-8702
Reporting period (start)	July 1, 2025
Reporting period (end)	June 30, 2026
Prepared by (name, title)	Dawn Struzzieri MSN, RN, Health Services Administrator
Contact (email / phone)	dstruzzieri@pcsdma.org
Date submitted	10/29/2026

Program Overview & Narrative

Describe how MAT is delivered (e.g., in-house medical staff, contracted vendor, or a hybrid), which facilities offer it, and any context the Legislature should know.

Delivery model	Contracted
Contracted vendor(s), if any	CPS - Correctional Psychiatric Services
Facilities offering MAT	Sheriff's Department Plymouth (SDP)
Narrative	The MAT/MOUD at PCCF program combines clinical services and recovery support with FDA-approved medications (Suboxone, Methadone, Brixadi) to treat Opioid Use Disorder (OUD). This includes individual and group counseling and case management services, development of a relapse prevention plan, development of individualized treatment plans and aftercare plans to reflect the individual needs of each patient in the program, and referrals to community providers for mental health, medical and other needs. The MAT/MOUD program is open to pre-trial and sentenced inmates who have an active prescription in the community and would like to continue their medication. Patients who are looking to be inducted on MAT/MOUD can also request services if they are sentenced individuals and have evidence of an active Opioid Use Disorder.

(i) Number of Participants in the Program

Total number of unique individuals who received MAT while in custody during the reporting period. Count each person once.

Contact (email / phone)	Rsteinberg@scsdma.org 617-704-6543
Date submitted	10/29/2026

Program Overview & Narrative

Describe how MAT is delivered (e.g., in-house medical staff, contracted vendor, or a hybrid), which facilities offer it, and any context the Legislature should know.

Delivery model	Hybrid (in-house and contracted)
Contracted vendor(s), if any	Correctional Psychiatric Services (CPS), Health Care Resource Centers (HCRC), Spectrum, Inc
Facilities offering MAT	Both Suffolk County facilities
Narrative	The Suffolk County Sheriff's office provides all FDA forms of medication for the treatment of opioid and aclohol use disorder to the men and women under our care. Suffolk partners with CPS to provide comprehensive medical and mental health services. SCSD and CPS sub contract with HCRC for methadone. SCSD also employs clinical and non-clinical staff to oversee the program, comply with all BSAS, DCP and DEA regulations, discharge/reentry and treatment plans and other case management related needs to the men and women participating and/or requesting this treatment. Spectrum is an additional contracted partner who provides required treatment groups and programming to participants. As this is a medication based program, Suffolk has multiple medication passes to dispense the medication daily requiring multiple nurses and custody staff to ensure adherance and safety to the participants.

(i) Number of Participants in the Program

Total number of unique individuals who received MAT while in custody during the reporting period. Count each person once.

Participants while in custody	1,236

FY 2026 Medication-Assisted Treatment (MAT) Report — Worcester County Sheriff's Office

Sheriff's Office	Worcester County Sheriff's Office
Line item	8910-1011
Reporting period (start)	July 1, 2025
Reporting period (end)	June 30, 2026
Prepared by (name, title)	Jason Rives, Superintendent
Contact (email / phone)	jrives@sdw.state.ma.us
Date submitted	10/30/2026

Program Overview & Narrative

Describe how MAT is delivered (e.g., in-house medical staff, contracted vendor, or a hybrid), which facilities offer it, and any context the Legislature should know.

Delivery model	Contracted
Contracted vendor(s), if any	Advocates, Inc. - subcontracted to CTC / Arcadia
Facilities offering MAT	Jail and House of Correction @ 5 Paul X. Tivnan Drive
Narrative	SDW contracts with Advocates, Inc. (who is also our Mental Health Provider) at the jail and house of corrections to manage our MAT program. Advocates subcontracts with CTC, a community provider who delivers and dispense medications each day. The contract provides for 80 program participats and there is a daily per diem rate for every partipant over 80. There is also a seperate invoice for monthly injectibles. Daily per diem rate is $16.46 for FY26 and injectable rate is $2,472 per month.

(i) Number of Participants in the Program

Total number of unique individuals who received MAT while in custody during the reporting period. Count each person once.

Participants while in custody	160

(ii) Breakdown of Dosage and Type of Medications Received

One row per medication/formulation. Add rows above "Other" if needed. Participants by medication may exceed the unique total if a person received more than one.

Medication	Formulation / brand	Route	Dosage (mg)	Participants	Total doses received	Notes
Buprenorphine	Sublingual tablet	Sublingual	2mg - 24mg	72-80	38,000+ across all	Each patient is dosed 1x per day
Buprenorphine/naloxone	Sublingual film/tablet (e.g., Suboxone)	Sublingual	2mg - 24mg	72-80		Each patient is dosed 1x per day
Buprenorphine extended-release	Monthly injection (e.g., Sublocade)	Subcutaneous injection	100mg, 300mg	0-3		Patient is dosed 1x per month
Methadone	Oral liquid	Oral	28mg - 300mg	72-80		Each patient is dosed 1x per day
Naltrexone extended-release	Monthly injection (e.g., Vivitrol)	Intramuscular injection	380mg	0-1		Patient is dosed 1x per month
Naltrexone	Oral tablet	Oral	25 - 50mg	-		N/A
Total				**-**	**38,000**	

(iii) Cost Breakdown of Medications

Medication costs for the reporting period.

Medication	Formulation / brand	Total doses (from ii)	Medication cost ($)	Cost per dose ($)	Notes

Massachusetts Sheriffs' Association

FY 2026 Medication-Assisted Treatment (MAT) Report — Worcester County Sheriff's Office

Buprenorphine	Sublingual tablet	38,000+ across all		$16.46	Medication costs for SDW are included in the annual contract. We pay a per diem for suboxone and methadone patients per day when we exceed the 80 patient census
Buprenorphine/naloxone	Sublingual film/tablet (e.g., Suboxone)			$16.46	Medication costs for SDW are included in the annual contract. We pay a per diem for suboxone and methadone patients per day when we exceed the 80 patient census
Buprenorphine extended-release	Monthly injection (e.g., Sublocade)			$2,472.00	This is not included in our monthly contract and we are billed seperately for these injections
Methadone	Oral liquid			$16.46	Medication costs for SDW are included in the annual contract. We pay a per diem for suboxone and methadone patients per day when we exceed the 80 patient census
Naltrexone extended-release	Monthly injection (e.g., Vivitrol)			-	
Naltrexone	Oral tablet			-	
Total medication cost		**-**	**-**	**-**	

Other MAT Program Costs

TOTAL MAT PROGRAM COST		**$1,254,133.39**		

Additional Notes

Massachusetts Sheriffs' Association

FY 2026 Medication-Assisted Treatment (MAT) Report — Worcester County Sheriff's Office

*90-120 MAT Participants at any one time -- Mean/Median of 105 -- ~160 Participants Total From July 1, 2025 to June 30, 2026 - On Average 45-50% BUP, 45-50% MTD, 4-6% Sublocade, 0-1.5% Vivitrol

**Tracking participants per unique medication would convolude data since it is common for partipants to switch between medications

*** Daily doses are not explicitly tracked. All but 5-10 participants receive daily doses.

**** Dosages reported as a range over the time span
