Executive Office of Public Safety and Security

Facial Recognition Annual Report

September 2025 – September 2026

Secretary Gina K. Kwon

Executive Office of Public Safety and Security

Facial Recognition Searches Annual Report
M.G.L. c. 6, § 220

On December 31, 2020, "*An Act Relative to Justice, Equity and Accountability in Law Enforcement in the Commonwealth*" (the Act), was signed into law. The Act created G.L. c. 6, § 220, which became effective on July 1, 2021, and imposes limitations and requirements on law enforcement agencies requesting or performing facial recognition searches and establishes reporting requirements for law enforcement agencies and the Executive Office of Public Safety and Security (EOPSS).

A "facial recognition search" is defined in the statute as "a computer search using facial recognition to attempt to identify an unidentified person by comparing an image containing the face of the unidentified person to a set of images of identified persons; provided, however, that a set of images shall not include moving images or video data." G.L. c. 6, § 220(a). As of July 1, 2021, law enforcement agencies requesting or performing a facial recognition search may only do so via written request and only based on two statutory justifications: court order or emergency. G.L. c. 6, § 220(b). This requirement of a written request for limited purposes does not apply "to the department of state police when performing investigatory functions related to the issuance of identification documents by the registrar of motor vehicles." G.L. c. 6, § 220(b).

Beginning July 1, 2021, law enforcement agencies were required to document certain information about facial recognition searches requested by law enforcement agencies, and report

that information to EOPSS on a quarterly basis. G.L. c. 6, § 220(c). The Act requires law enforcement agencies to provide the following information[1]:

(i) a copy of any written request made for a facial recognition search;

(ii) the date and time of the request;

(iii) the number of matches returned, if any;

(iv) the database searched;

(v) the name and position of the requesting individual and employing law enforcement agency;

(vi) the reason for the request, including, but not limited to any underlying suspected crime;

(vii) the entity to which the request was submitted; and

(viii) data detailing the individual characteristics included in the facial recognition request.

The Act requires EOPSS to publish on its website annually the documentation provided to EOPSS on a quarterly basis by law enforcement agencies and the following information:

(i) the total number of facial recognition search requests made by other law enforcement agencies to the department of state police, disaggregated by law enforcement agency;

(ii) the total number of facial recognition searches performed by the department of state police, disaggregated by law enforcement agency on whose behalf the search was performed; and

(iii) the total number of facial recognition searches requested and performed by the state police;

[1]Such documentation shall not be a public record. G.L. c. 6, § 220(c).

(iv) the total number of facial recognition search requests made by the department of state police to the Federal Bureau of Investigation, disaggregated by law enforcement agency on whose behalf the requests were made; and

(v) the total number of facial recognition searches performed by the Federal Bureau of Investigation on behalf of Massachusetts law enforcement agencies.

Quarterly Documentation and Information About Facial Recognition Searches Requested and Performed by Law Enforcement Agencies Between September 1, 2025, and September 8, 2026, Pursuant to G.L. c. 6, § 220(c) & (d).

The department of state police received a total of 143 requests to utilize facial recognition technology between September 1, 2025, and September 8, 2026. Of the 143 requests, sixty-three were pursuant to a court order. Photographs were submitted with all of the requests received and the department's database, Issuance 360, was used to perform all of the searches. Sixty-three of the searches yielded at least one potential match. The department of state police did not make any facial recognition requests of any type to the Federal Bureau of Investigation between September 1, 2025 and September 8, 2026.

The table below includes the information required by G.L. c. 6, § 220(c) & (d) broken down by category.

Copy of Written Request	Date of Request	Number of Potential Matches Returned	Database Searched	Name / Department	Requesting Case/File #	Reason/ Suspected Crime	Entity to Which Submitted	Data Detailing Individual Characteristics
