4 expenditures and acquisitions made by or for: (1) acute care hospitals and comprehensive cancer
5 centers as defined in section 1 of chapter 118G, only, \$7,500,000, except that expenditures for,
6 or the acquisition of, major movable equipment not otherwise defined by the department as new

9 acute care hospitals, and facilities subject to licensing under chapter 111B, with respect to: (a)
10 expenditures for, or the acquisition of, medical, diagnostic or therapeutic equipment, \$400,000;

12 for, or the acquisition of, any replacement of medical, diagnostic or therapeutic equipment
13 defined as new technology or innovative services for which a determination of need has issued or

14 which was exempt from determination of need, shall not require a determination of need and
15 shall not be included in the calculation of the expenditure minimum; provided further, that
16 expenditures and acquisitions concerned solely with outpatient services other than ambulatory
17 surgery, not otherwise defined as new technology or innovative services by the department, shall
18 not require a determination of need and shall not be included in the calculation of the expenditure

20 determination of need shall be required. Notwithstanding the above limitations, acute care

27 Medicare program shall be a clinic for the purpose of licensure under section 51, and shall be
28 deemed to be in compliance with the conditions for licensure as a clinic under said section 51 if
29 it is accredited to provide ambulatory surgery services by the Accreditation Association for
30 Ambulatory Health Care, Inc., the Joint Commission on Accreditation of Healthcare
31 Organizations, the American Association for Accreditation of Ambulatory Surgery Facilities or
32 any other national accrediting body that the department determines provides reasonable
33 assurances that such conditions are met. No original license shall be issued pursuant to said

44 services, and technologies and develop a plan for the provision of new services, beds,
45 technologies, and structural expansions throughout the commonwealth, and develop a plan for
46 the continued role of community hospitals and health centers within the commonwealth. The
47 Department shall utilize this plan in its evaluation of all applications for a determination of need,
48 as required by this section, in order to determine whether the proposed expansion construction,
49 or acquisition of health care facilities or services is needed in the Commonwealth, or whether the
50 proposed expansion construction, or acquisition of health care facilities or services will
51 unnecessary duplicate ongoing services and increase health care costs in the Commonwealth.”

56 department shall require hospitals seeking emergency department expansions to demonstrate that
57 prior to filing a determination of need application, the hospital has implemented measures to

58 reduce emergency room overcrowding. The department shall promulgate regulations defining
59 the measures hospitals may take to reduce emergency room overcrowding.”

64 this section, file with the department documentation of programs implemented by the health care
65 facility designed to ensure utilization of all new technology in a manner that is consistent with
66 state and national guidelines. The department shall annually publish a list of state and national
67 guidelines governing the utilization of new technology. The department shall promulgate

127 As used in this section the following terms shall have the following meanings:

128 “Facility of Primary Licensure” means the single physical structure and location where
129 the majority of the hospital’s licensed beds are located.

130 (a) Every acute-care hospital that provides any services at a location other than its
131 “Facility of Primary Licensure” is prohibited from operating a Secondary Facility pursuant to the
132 original license of the Facility of Primary Licensure and is hereby required to obtain from the
133 Department a new license for that location if the facility constitutes a Secondary Facility. A
134 facility constitutes a Secondary Facility if:

135 a. The facility is physically located a distance greater than 500 yards, or

136 b. The facility requires or maintains separate heating, cooling, electric, sewer
137 systems from the Facility of Primary Licensure.

141 all public and private payors for services using the National Provider Identification Number
142 assigned to the specific facility and physical locations where the services were provided.

143 (d) No public or private payor shall be required to pay a claim billed by a health care
144 facility, ambulatory surgical center, or outpatient facility not billed in accordance with this
145 section.

146 (e) Subject to any agreement between the parties, a Secondary facility shall bill a carrier
147 for services at a rate negotiated by the parties separately from the rates for the Facility of Primary
148 Licensure or in the absence of an agreement, 110% of Medicare.

149 (f) Notwithstanding the provisions of this chapter the Department shall not grant a license
150 to any Secondary Facility unless there is a determination by the department that there is a need
151 for such a facility pursuant to Section 25C. Secondary Facilities in operation as of the effective
152 date of this section shall be exempt from the Department's determination of need requirements.

153 (g) The Department along with the Office of the Attorney General shall have the
154 authority to enforce the requirements of this section.

155 SECTION 5. Chapter 111: Section 70G. Reduction of Duplicate Diagnostic Services

156 Section 70G. Each hospital in the Commonwealth shall file with the department, within
157 thirty (30) days of the start of the hospital fiscal year, a written plan designed to eliminate the
158 duplication of unnecessary diagnostic services performed on a patient by another hospital or
159 diagnostic facility when there is knowledge of a prior test. The plan shall include the following:

160 1) Current procedures for sending and receiving diagnostic, imaging and other test results
161 from or to another hospital or provider of care;

162 2) A defined procedure for determining whether any such test results can be appropriately
163 used in the patient's treatment;

164 3) A plan to improve the hospital's ability to send and receive such test results from or to
165 other providers of care. The Department shall notify the hospital that the plan has been approved
166 or disapproved within thirty (30) days after filing, based on a determination as to whether the
167 plan adequately addresses the issues of patient safety and costs of duplicating diagnostic tests. If
168 such plan has not been acted upon by the department within thirty (30) days, the plan shall be
169 deemed approved. If the department disapproves of such plan, the hospital shall submit a revised
170 plan within thirty (30) days. If the revised plan continues to be disapproved, or if a hospital fails
171 to submit a plan, the commissioner may issue an order that such a plan be submitted
172 immediately. If such an order is issued, health insurance carriers may deny payment for any
173 duplicate services furnished unless the hospital can establish that the duplicate service was
174 medically necessary and appropriate. In the event that a carrier denies payment for duplicate
175 services, the hospital may not bill the insured for those services.

176 SECTION 6. Section 51 of Chapter 111 of the General Laws is hereby amended by
177 inserting at the end thereof the following:

178 Each hospital in the Commonwealth that operates an Emergency Room shall annually file
179 with the Department, within thirty (30) days of the start of the hospital fiscal year, a written
180 operating plan designed to eliminate emergency room overcrowding and diversions. The plan
181 shall include the following:

182 1) A comprehensive assessment of emergency room wait times for the prior fiscal
183 year, including the average wait time and the number of complaints submitted to the hospital
184 regarding wait times in the emergency room, and a review of steps taken to reduce the wait time.
185 The assessment shall also include the number of hours the emergency room was on diversion
186 status, broken down by day of the week, and the actual number of emergency diversions for the
187 prior fiscal year;

188 2) A summary of the specific measures that the hospital will take in the current fiscal
189 year to eliminate overcrowding in the emergency room, such as adjusting elective surgery
190 schedules to reduce variability;

191 3) The anticipated impact the plan will have on staffing ratios and, after the first
192 year, the actual impact the plan has had for the previous year;

193 4) A defined set of measures by which to assess the plan's success, such as the
194 number of emergency room diversions, the average wait time to receive emergency services,
195 and/or the percentage of patients in a bed within one hour of arriving in the emergency room;

196 The Department shall notify the hospital that the plan has been approved or disapproved
197 within twenty (20) days after filing, based on a determination as to whether the plan adequately
198 addresses the needs of emergency room patients. If such plan has not been acted upon by the
199 Department within twenty (20) days, the plan shall be deemed approved. If the Department
200 disapproves of such plan, the hospital shall submit a revised plan within twenty (20) days. If the
201 revised plan continues to be disapproved, or if a hospital fails to submit a plan, the commissioner
202 may take any action deemed appropriate.

203 SECTION 7. Section 12 of Chapter 118E of the General Laws is hereby amended by
204 inserting at the beginning of the section the following new definitions:

211 a managed care organization to provide services to MassHealth enrollees.

212 SECTION 8. Section 12 of Chapter 118E of the General Laws is further amended by
213 inserting at the end of the section the following new language:

214 For emergency, post-stabilization, and certain other services that have received a prior
215 approval by a managed care organization contracting with the Commonwealth to provide
216 managed care services to MassHealth enrollees, health care providers not included in a managed
217 care organization’s network, must accept a rate equal to the rate paid by Medicaid for the
218 same or similar services. Nothing in this section shall prohibit a managed care organization
219 from denying payment for unapproved services conducted by a non-network provider.

220 SECTION 9. Chapter 118H of the General Laws is hereby amended by the addition of a
221 new Section 7, as follows:

222 Section 7. For emergency, post-stabilization, and certain other services that have received
223 a prior approval by a carrier or managed care organization contracting with the Connector to

224 provide managed care services to Commonwealth Care Health Insurance Program enrollees,
225 health care providers not included in a managed care organization's network, must accept a rate
226 equal to the rate paid by Medicaid for the same or similar services. Nothing in this section shall
227 prohibit a carrier or managed care organization from denying payment for unapproved services
228 conducted by a non-network provider.

229

230 SECTION 10. Chapter 118G is hereby amended by adding the following new Section:

231 As used in this section, the following words shall have the following meanings:

233 established under chapter 32A; and to the extent legally feasible and otherwise not prohibited by
234 any applicable provision of the Employee Retirement Income Security Act of 1974, other
235 employee welfare benefit plans.

236 Every acute care hospital, health care facility, ambulatory surgical center, or outpatient
237 facility licensed in the commonwealth that does not agree to participate in a payor's network
238 must accept a rate equal 110% of the rate paid by Medicare for the same or similar services.
239 Nothing in this section shall prohibit a payor from denying payment for unapproved services
240 conducted by a non-network provider. Every acute care hospital, health care facility, ambulatory
241 surgical center, or outpatient facility licensed in the commonwealth shall be prohibited from
242 attempting to charge or to collect from the enrollee, or persons acting on the enrollee's behalf,
243 any amount in excess of the amount paid by the payor for that service pursuant to the
244 requirements of this section, other than applicable co-payments, co-insurance and deductibles.

246 SECTION 11. Chapter 118G of the General Laws is hereby amended by inserting after
247 section 4 the following new section:

248 4A. Reporting of Hospital Margins

250 an operating margin that exceeds 5 percent, the division shall hold a public hearing within 60
251 days. The Acute Hospital shall submit testimony on its overall financial condition and the
252 continued need to sustain an operating margin that exceeds 5 percent. The Acute Hospital shall
253 also submit testimony on efforts the Acute Hospital is making to advance health care cost
254 containment and health care quality improvement; and whether, and in what proportion to the
255 total operating margin, the Acute Hospital will dedicate any funds to reducing health care costs.
256 The division shall review such testimony and issue a final report on the results of the hearing. In
257 implementing the requirements of this Section, the Division shall utilize data collected by
258 hospitals pursuant to the requirements of Section 53 of Chapter 288 of the Acts of 2010.

259 SECTION 12. Chapter 118G of the General Laws is hereby amended by after section 15
260 inserting the following new section:

261 15A: Contracting Rights of Private Payors- Unfair Methods of Competition and Unfair or
262 Deceptive Acts or Practices in the Conduct of Health Care Providers

263 It shall be an unfair business trade practice for any health care provider to attempt to
264 recoup any unreimbursed amounts paid by government payors by increasing charges to other

265 nongovernmental payors. Violations of this section shall be subject to enforcement by the office
266 of the attorney general.

267 The division shall monitor health care provider charges to ensure compliance with this
268 section and shall report any non-compliance to the attorney general. The division of health care
269 finance and policy in cooperation with the office of the attorney general shall promulgate

278 the commonwealth, and group general or blanket insurance providing hospital, surgical, medical,
279 dental, and other health insurance benefits covering persons in the service of the commonwealth,

289 dependent, including said person's spouse organized under chapter 176M.

290 (b) Joint committees of the general court and the house and senate committees on ways
291 and means when reporting favorably on mandated health benefits bills referred to them shall

306 section. The report on the mandated health benefit by the division of health care finance and
307 policy must be received by the agency or board and available to the public at least 30 days prior
308 to any public hearing on the proposal. If the division of health care finance and policy fails to

309 report to the agency or board within 45 days of the request, said agency or board may proceed
310 with a public hearing on the mandated health benefit proposal without including a review and
311 evaluation from the division.

312 (e) Any party or organization on whose behalf the mandated health benefit was proposed
313 shall provide the division of health care finance and policy with any cost or utilization data that

317 assistance, the group insurance commission, the department of public health, the division of
318 insurance, and other state agencies holding utilization and cost data relevant to the division's
319 review under this section. Such interagency agreements shall ensure that the data shared under
320 the agreements is used solely in connection with the division's review under this section, and that
321 the confidentiality of any personal data is protected. The division of health care finance and

328 The report shall include, at a minimum and to the extent that information is available, the

330 proposed insurance coverage would increase or decrease the cost of the treatment or service over
331 the next 5 years, the extent to which the proposed coverage might increase the appropriate or

332 inappropriate use of the treatment or service over the next 5 years, the extent to which the
333 mandated treatment or service might serve as an alternative for more expensive or less expensive
334 treatment or service, the extent to which the insurance coverage may affect the number and types
335 of providers of the mandated treatment or service over the next 5 years, the effects of mandating
336 the benefit on the cost of health care, particularly the premium, administrative expenses and
337 indirect costs of municipalities, large employers, small employers, employees and nongroup
338 purchasers, the potential benefits and savings to municipalities, large employers, small
339 employers, employees and nongroup purchasers, the effect of the proposed mandate on cost
340 shifting between private and public payors of health care coverage, the cost to health care
341 consumers of not mandating the benefit in terms of out of pocket costs for treatment or delayed
342 treatment and the effect on the overall cost of the health care delivery system in the
343 commonwealth; (2) the medical efficacy of mandating the benefit, including the impact of the
344 benefit to the quality of patient care and the health status of the population and the results of any
345 research demonstrating the medical efficacy of the treatment or service compared to alternative
346 treatments or services or not providing the treatment or service; and (3) if the proposal seeks to
347 mandate coverage of an additional class of practitioners, the results of any professionally
348 acceptable research demonstrating the medical results achieved by the additional class of
349 practitioners relative to those already covered and the methods of the appropriate professional
350 organization that assures clinical proficiency.

351 SECTION 14. Chapter 118G: Section 19. Reduction of Preventable Hospital
352 Readmissions

353 As used in this section, the following words shall have the following meanings:

354 “Potentially Preventable Readmission” (PPR) shall mean a readmission to a hospital that
355 follows a prior discharge from a hospital within 14 days, and that is clinically-related to the prior
356 hospital admission.

357 “Observed rate of Readmission” shall mean the number of admissions in each hospital
358 that were actually followed by at least one PPR divided by the total number of admissions.

359 “Expected Rate of Readmission” shall mean a risk adjusted rate for each hospital that
360 accounts for the severity of illness, and age of patients at the time of discharge preceding the
361 readmission.

362 “Excess Rate of Readmission” shall mean the difference between the observed rates of
363 potentially preventable readmissions and the expected rate of potentially preventable
364 readmissions for each hospital.

365 (a) Potentially Preventable Readmission criteria.

366 1) A hospital readmission is a return hospitalization following a prior discharge that
367 meets all of the following criteria:

368 a. The readmission could reasonably have been prevented by the provision of
369 appropriate care consistent with accepted standards in the prior discharge or during the post
370 discharge follow-up period.

371 b. The readmission is for a condition or procedure related to the care during the prior
372 hospitalization or the care during the period immediately following the prior discharge and
373 including, but not limited to:

374 i. The same or closely related condition or procedure as the prior discharge.
