**In the Year Two Thousand Eleven**  
—————

An Act relative to the repair, removal and replacement of dams..

*Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:*

1                   SECTION 1. Whereas, there are more than three thousand dams in the  
2 Commonwealth, most of which are privately owned or have been abandoned, and many of which  
3 no longer serve their original purpose or any other purpose;

4                   Whereas, many dams do not comply with the Commonwealth’s health and safety  
5 standards and therefore pose an immediate threat to public health, safety, welfare, and the  
6 environment;

7                   Whereas, the removal of dams serving no purpose would eliminate threats posed by those  
8 dams and would protect the environment, restore wildlife habitat, enhance fish passage, and  
9 eliminate regulatory requirements to register, inspect, and repair useless dams; and

10                   Whereas, the deferred operation of this act would tend to defeat its purpose,  
11 which is to ensure that all dams in the Commonwealth are promptly inspected and, where  
12 appropriate, repaired or removed, therefore it is hereby declared to be an emergency law,  
13 necessary for the immediate protection of public health, safety, welfare, and the environment.
