The Commonwealth of Massachusetts

In the Year Two Thousand Thirteen

An Act improving recycling in the Commonwealth.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

1 SECTION 1. PURPOSE: An economically sound and environmentally progressive solid
2 waste management strategy includes components of conservation, source reduction, reuse,
3 recycling and litter control. Businesses, consumers, and governments share responsibility for
4 managing solid waste and all must cooperate in developing and maintaining the best programs to
5 manage solid waste effectively and efficiently. These statutory changes are necessary to ensure
6 effective solid waste management recovery systems in the Commonwealth including expanded
7 access to and participation in comprehensive recycling programs at home, in public places, and
8 in commercial settings; better recycling promotion and education efforts; incentives for
9 households and businesses to recycle more of their solid waste; and development of
10 comprehensive litter prevention and control programs.

50 operations; and recycling media and education campaigns. Funds shall be distributed through a
51 combination of population-based and merit-based formulas based on the recommendations of the
52 Board.

53 (d) Not more than twenty percent of amounts deposited in the fund shall be used
54 for litter prevention and removal programs including, but not limited to, a state grant program for
55 litter pickup and removal; litter education programs for the public and for schools; increased
