SUMMARY:

This bill directs the Massachusetts teachers' retirement board to credit Cheryl DiLisio, an employee of Nahant public schools, with 1.7 years of additional creditable service. This additional time will be taken into account when calculating her retirement allowance. Before any retirement allowance becomes effective, she must pay into the annuity savings fund of the Massachusetts teachers' retirement system the amount equal to what would have been withheld from her regular compensation for the previous service plus buyback interest. This will not affect any other retirement benefits she may be entitled to.
