M.G.L. c. 94I: Medical Use of Marijuana § 1 Definitions

This section defines “Electronic certification” as a document signed or executed electronically by a registered healthcare professional, stating that in the healthcare professional's professional opinion, the potential benefits of the medical use of marijuana would likely outweigh the health risks for the qualifying patient. The certification will specify the patient's debilitating medical condition and will be made only during a bona fide healthcare professional-patient relationship. Once a healthcare professional submits an electronic certification to the Massachusetts Cannabis Control Commission, a temporary registration is automatically generated.

This section defines “Healthcare professional” as a duly Massachusetts licensed physician, physician assistant or certified nurse practitioner authorized by the commission to issue written certifications.
