(i) The bureau may place expert accountants, technicians, and any other persons, as it may deem necessary, in the office, gambling area, or other place of business of any person licensed or registered under this chapter for the purpose of determining compliance with the rules and regulations adopted pursuant to this chapter.

(j) The bureau may investigate, for purposes of prosecutions any suspected criminal violation of this chapter; provided, however, that nothing in this section shall be deemed to limit the investigatory and prosecutorial powers of other state and local officials and agencies, including district attorneys and police departments.

(k) The bureau may recommend to the commission the denial of any application, the limitation, conditioning, restriction, suspension, or revocation of any license, permit, registration or approval, or the imposition of any fine upon any person licensed or approved by the commission.

(o) The executive director of the bureau shall petition the commission to initiate proceedings or actions appropriate to enforce statutory and regulatory requirements mandated of license-holders, and the commission shall grant or deny such petitions expeditiously.

(p) Employees of the bureau may refuse to reveal, in any court or administrative proceeding except a proceeding brought by the commonwealth or the United States the identity of an informant, or the information obtained from the informant, or both the identity and the information.

Section 6. (a) The commission shall cause to be made and kept a record of all proceedings at regular and special meetings of the commission. These records shall be open to public inspection, except those portions declared by law to be confidential.

(b) Notwithstanding any other general or special law to the contrary all files, records, reports, and other information in possession of any state or local government agency including tax filings and related information that are relevant to an investigation by the bureau conducted pursuant to this chapter shall be made available to the bureau as requested. However, any tax or financial information received from a government agency shall be used solely for effectuating the purposes of this chapter. To the extent that these files, records, reports, or information are confidential or otherwise privileged from disclosure under any law they shall not lose that confidential or privileged status for having been disclosed to the bureau.

(1) The commission and the bureau shall not release or disclose any privileged information, documents or communications provided by an applicant or licensee without the prior written consent of the applicant or licensee or pursuant to a lawful court order after timely notice of the proceedings has been given to the applicant or licensee.

(2) The commission and the bureau shall maintain all privileged information, documents and communications in a secure place accessible only to members of the commission and the executive director, and employees of the commission.

(3) The commission and the bureau shall adopt procedures and regulations to protect the privileged nature of information, documents and communications provided by an applicant or licensee.

Section 7. (a) The commission and the bureau shall investigate the qualifications of each applicant under this act before any license is issued or any registration, finding of suitability or approval of acts or transactions for which commission approval is required or permission is granted, and shall continue to monitor the conduct of all licensees and registrants and other persons having a material involvement, directly or indirectly with a licensed casino gaming facility or holding company to ensure that licenses are not issued or held by, nor is there any material involvement directly or indirectly with a licensed gaming facility or holding company by unqualified, disqualified or unsuitable persons, or persons whose operations are conducted in an unsuitable manner or in unsuitable or prohibited places or locations, as provided in commission regulations. All expenses associated with the licensing of any applicant shall be borne by the applicant. Pursuant to its regulations, the commission shall require each applicant for a gambling license to deposit with the Commission, together with the application therefor, an application fee. The fee shall constitute the anticipated costs and charges incurred in the investigation and processing of the application, and any additional sums as are required by the commission to pay final costs and charges.

(b) The commission and the bureau may require a finding of suitability or the licensing of any person who owns any interest in the premises of a licensed establishment; owns any interest in real property used by a licensed establishment whether he leases the property directly to the licensee or through an intermediary; repairs, rebuilds or modifies any gaming device; manufactures or distributes chips or gaming tokens for use in the commonwealth.

(c) The commission and the bureau may require a finding of suitability or the licensing of any person who furnishes services or property to a state gaming licensee under any arrangement pursuant to which the person receives payments based on earnings, profits or receipts from gaming.

(d) No applicant for a gaming license, or a manufacturer's or distributor's license or other affirmative commission approval has any right to a license or the granting of the approval sought. Any license issued or other commission approval granted pursuant to the provisions of this act is a revocable privilege, and no holder acquires any vested right therein or thereunder.

No person shall operate a gaming establishment without having obtained all necessary operating licenses from the commission. There shall be a single licensed operator for each gaming establishment. The licensing standards must be met at all times by each officer, director, partner, and trustee of the operating entity, by each substantial party in interest of the operating entity or of the premises on which such establishment is located, and by such other party in interest of the operating entity, the premises, or any holding company or intermediary company of the operating entity or the premises as the commission may require. In no event shall the commission permit a person or entity previously convicted of a felony to be a party in interest of the operating entity or

of the premises or of any holding or intermediary company of the operating entity or the premises. A separate license shall be required for any person described above, unless the commission specifically determines otherwise.

(e) Each gaming operator license approved by the commission pursuant to subsections (a), (b) and (c) of section 8 shall be valid for a term of 5 years from date of approval and shall be renewed for additional 5 year terms unless the commission demonstrates that the operator is no longer qualified to hold a gaming license pursuant to this chapter.

(f) Each license approved by the commission shall be awarded as the result of an application process to be designed and established by said commission. Said process shall include a request for proposals which shall be designed to maximize the economic benefits and revenue generating potential. A person may apply to be a licensed casino gaming operator by filing an application with the commission, in the form and with such accompanying application fees as the commission may establish. Information on the application will be used as the basis for a thorough background investigation which the bureau shall conduct with respect to each applicant. Each application shall disclose the identity of each party in interest, each holding company and intermediary company, and each affiliate of the operating entity. The application shall disclose, in the case of a privately held corporation, the names and addresses of all directors, officers, and stockholders; in the case of a publicly traded corporation, the names and addresses of all directors, officers, and persons holding at least 1 per cent of the total capital stock issued and outstanding; in the case of a partnership, the names and addresses of all partners, both general and limited, and in the case of a trust, the names and addresses of all trustees and beneficiaries. Persons applying for gaming operator licenses shall be required to define the number of full-time equivalent employees that the project will produce, and the project's non-gaming economic development potential.

(g) Each operating entity shall identify, in its application, the premises where it proposes to conduct its gaming operations and demonstrate that the operating entity owns or has legal control of the premises where it proposes to conduct its gaming operations. The application shall contain such information regarding the physical location and condition of the premises and the potential impact of the proposed gaming operations upon adjacent properties and the municipality and region within which the premises are located, as the commission may require. The application shall disclose the identity of all parties in interest regarding the premises; and, except as otherwise permitted herein, no person other than a licensee shall have any right to or interest in net gaming revenue or adjusted net gaming revenue in the form of a percentage of any sums payable hereunder. An operating entity may also identify temporary premises in its application where an applicant may be permitted to operate a temporary casino facility for a period of no longer than 24 months during construction of its permanent gaming facility.

Section 8. The commission shall grant no more than 3 casino gaming operator licenses. No casino shall be sited in a community without the approval of that community's legislative body or, in such cases as is required by the governing body of said community, the voters of said community in a referendum. No casino gaming operator license shall be granted to operate a casino in the town of Salisbury.

Section 9. (a) The commission shall require that each licensed operator utilize Massachusetts resources, goods and services to the reasonable extent practical in the operation of the licensed casino gaming facility. The Commission shall develop reasonable standards to assure that a substantial amount of all resources, goods and services used in the operation of the licensed casino gaming facility come from manufacturers, suppliers, vendors and service providers in the commonwealth.

(b) The commission shall require that each licensed operator make reasonable effort to insure that a substantial number of their employees are residents of the commonwealth. The commission shall develop reasonable standards to assure that residents of the commonwealth are afforded preferential treatment in hiring and training.

(c) The commission shall require that each licensed operator provide facilities and make available for sale Massachusetts lottery tickets on the premises of the licensed casino gaming facility on the same terms as other non-casino retail lottery outlets in accordance with section 24 of chapter 10 of the General Laws.

(d) In the event that an off-track betting system is sanctioned by the commonwealth each licensed casino gaming facility shall, on reasonable terms and conditions, make available within said facility space for an off-track betting facility to be jointly leased and operated by all persons licensed under section 3 of chapter 128A, other than licensees conducting horse or dog racing in connection with a state or county fair, to be operated in accordance with the rules and regulations applicable to the enabling legislation of that off-track betting system.

(e) No licensed operator shall obtain any gaming equipment from a person who does not hold a license. No licensed operator shall enter into any agreement for the receipt of goods or services, of any form and in any amount, from a person who does not hold a license, when a license is required for such agreement under this chapter or under regulations promulgated by the commission or bureau.

(f) No licensed operator shall employ any person in a gaming establishment who does not hold a work permit, when a work permit is required for such position under regulations promulgated by the commission or bureau.

(g) Any person who the commission determines is qualified to receive a license or be found suitable under the provisions of this chapter may be issued a state gaming license or found suitable, as appropriate. The burden of proving his qualification to receive any license or be found suitable is on the applicant. A license to operate a gaming establishment shall not be granted unless the applicant has satisfied the commission that he or she has adequate business probity, competence and experience, in gaming; and the proposed financing of the entire operation is adequate for the nature of the proposed operation; and, from a suitable source. An application to receive a license or be found suitable constitutes a request for a determination of the applicant's general character, integrity, and ability to participate or engage in, or be associated with gaming, as appropriate. The commission may limit the license or place such conditions thereon, as it may deem necessary in the public interest. The commission may, if it considers necessary, issue a probationary license. No state gaming license may be assigned either in whole or in part. The commission may limit or place such conditions, as it may deem necessary in the public interest upon any registration, finding of suitability or approval for which application has been made. A licensee may be granted a temporary gaming license to operate a casino gaming facility during the construction phase of any licensed casino gaming facility, provided that no more than 1 temporary license be awarded for any licensed casino gaming facility, and provided further that no temporary license remain in force for a period in excess of 24 months.

(h) Any state license in force may be renewed by the commission for the next succeeding license period upon proper application for renewal and payment of state license fees and taxes as required by law and the regulations of the commission. If any licensee or other person fails to renew his license the commission may order the immediate closure of all his gaming activity until the license is renewed by the payment of the necessary fees, taxes, interest and any penalties.

(i) If satisfied that an applicant is eligible to receive a state gaming, manufacturing, selling, or distributing license, and upon tender of all license fees and taxes as required by law and regulation of the commission; and a bond executed by the applicant as principal, and by a corporation qualified under the laws of the commonwealth as surety, payable to the commonwealth, and conditioned upon the payment of license fees and taxes and the faithful performance of all requirements imposed by law or regulation or the conditions of the license, the commission shall issue and deliver to the applicant a license entitling him to engage in the gaming, manufacturing, selling or distributing operation for which he is licensed, together with an enumeration of the specific terms and conditions of the license.

(j) A license issued pursuant to the provisions of this chapter shall be posted by the licensee and kept posted at all times in a conspicuous place in the area where gaming is conducted in the establishment for which the license is issued until it is replaced by a succeeding license.

(k) If the commission is not satisfied that an applicant is qualified to be licensed under this chapter, the commission may cause to be made such investigation into and conduct such hearings concerning the qualifications of the applicant in accordance with its regulations as it may deem necessary.

(l) The commission shall have the power and authority to deny any application for any cause it deems reasonable. If an application is denied, the commission shall prepare and file its written decision upon which its order denying the application is based.

(m) A person who has had his application for a license denied or who has been found unsuitable by the commission shall not retain his interest in a corporation, partnership, limited partnership, limited-liability company or joint venture beyond that period prescribed by the commission; and shall not accept more for his interest in a corporation, partnership, limited partnership, limited liability company or joint venture than he paid for it or the market value on the date of the denial of the license or the funding of unsuitability.

(n) The voluntary surrender of a license by a licensee shall not become effective until accepted in the manner provided in the regulations of the commission. The surrender of a license shall not relieve the former licensee of any penalties, fines, fees, taxes or interest due.

(o) The bureau shall promptly and in reasonable order investigate all applications, enforce the provisions of this chapter and any regulations promulgated hereunder. The bureau shall provide the commission with all information necessary for all actions requested of it under this chapter and for all proceedings involving enforcement of the provisions of this act or any regulations promulgated hereunder.

(p) The bureau shall investigate the qualifications of each applicant before any license, certificate, or permit is issued pursuant to the provisions of this chapter; investigate the circumstances surrounding any act or transaction for which commission approval is required; investigate violations of this chapter and regulations promulgated hereunder; initiate, prosecute and defend such proceedings before the commission, or appeals therefrom, as the bureau may deem appropriate; provide assistance upon request by the commission in the consideration and promulgation of rules and regulations; conduct continuing reviews of licensed casino gaming facility operations through on-site observation and other reasonable means to assure compliance with this chapter and regulations promulgated hereunder; conduct audits of licensed casino gaming facility operations at such times, under such circumstances, and to such extent as the director shall determine, including reviews of accounting, administrative and financial

records, and management control systems, procedures and records utilized by a licensed gaming facility licensee; and be entitled to request information, materials and any other data from any licensee or registrant, or applicant for a license or registration under this chapter.

(q) Each licensee or registrant, or applicant for a license or registration under this chapter shall cooperate with the commission and the bureau in the performance of their duties.

(r) The bureau and its employees and agents, upon approval of the director, shall have the authority, without notice and without warrant to inspect and examine all premises wherein gaming is conducted; or gaming devices or equipment are manufactured, sold, distributed, or serviced, or wherein any records of such activities are prepared or maintained; to inspect all equipment and supplies in, about, upon or around such premises; to seize summarily and remove from such premises and impound any such equipment or supplies for the purpose of examination and inspection; to inspect, examine and audit all books, records, and documents pertaining to a gaming licensee's operation; to seize, impound or assume physical control of any book, record, ledger, game, device, cash box and its contents, counting room or its equipment, or licensed casino gaming facility operations; and to inspect the person, and personal effects present in a licensed gaming facility licensed under this chapter, of any holder of a license or registration issued pursuant to this chapter while that person is present in a licensed casino gaming facility.

(s) Every licensed casino gaming facility must, upon receipt of criminal or civil process compelling testimony or production of documents in connection with any criminal investigation, immediately disclose such information to the bureau.

Section 10. (a) All gaming service industries as defined in this chapter offering goods or services which directly relate to gaming activities or indirectly relate to gaming operations shall be licensed in accordance with rules of the commission and prior to conducting any business whatsoever with a gaming applicant or licensee, its employees or agents, and in the case of a school, prior to enrollment of any students or offering of any courses to the public whether for compensation or not. Gaming service industries that directly relate to gaming activities shall include gaming and wagering equipment manufacturers, suppliers and repairers, schools teaching gaming and either playing or dealing techniques, and gaming security services. Gaming service industries that indirectly relate to gaming operations shall include junket enterprises; suppliers of alcoholic beverages, food and non-alcoholic beverages; garbage handlers; vending machine providers; linen suppliers; maintenance companies; shopkeepers located within the approved hotels; limousine services and construction companies contracting with gaming applicants or licensees or their employees or agents.

(b) Each gaming service industry, as well as its owners, management and supervisory personnel and other principal employees must qualify under standards promulgated by the commission.

Messrs. Tarr and Tisei moved to amend the bill by adding the following section at the end thereof:—

“SECTION __. Chapter 7 of the General Laws is hereby amended by inserting after section 40F½, the following section:—

Section 40F¾. It is the policy of the commonwealth to encourage the development of housing for its citizens. Consistent with that policy, it is the commonwealth’s intent, when feasible, to expedite making available underutilized property, which is owned by the commonwealth and determined not to be needed for foreseeable state or direct public use pursuant to section 40F for the primary purpose of creating or redeveloping housing on such property.

(a) For purposes of this section, the following terms shall have the following meanings, unless the context clearly requires otherwise:

- (1) ‘Affordable,’ housing, affordable to low or to moderate income households where the household pays no more than 30 per cent of household income as rent or no more than 40 per cent of household income for homeownership expenses of principal, interest, insurance and taxes.
- (2) ‘Agency,’ the Massachusetts development finance agency.
- (3) ‘Agency reuse plan,’ in the case of any potential housing property to be transferred under subsection (b), any redevelopment plan or plans relating to the development of such potential housing under the terms of section 16 of chapter 23G.
- (4) ‘Agency transfer request,’ a request provided by the agency to the commissioner in response to the agency’s receipt of notification from the commissioner under paragraph 2 of subsection (a) of section 40F½ that all or part of the surplus property which is the subject of the notification be transferred to the agency for disposition by the agency for housing development. The request shall contain the terms and conditions upon which the agency would accept transfer of the land.
- (5) ‘Commissioner,’ the commissioner of the division of capital asset management and maintenance.
- (6) ‘Department,’ the department of housing and community development.
- (7) ‘Director,’ the director of the department.
- (8) ‘Division,’ the division of capital asset management and maintenance.
- (9) ‘Division reuse plan,’ with respect to any potential housing property to be transferred pursuant to subsection (c), any plan relating to the development of such potential housing property which the commissioner has approved in writing.

(10) 'Housing,' single and multi-family housing.

(11) 'Housing development,' the development or rehabilitation of potential housing property with a significant number of units of housing, as determined by the agency, the director and the commissioner, but the development of such housing units may be accompanied by commercial, recreational, industrial, municipal, or other non-residential use of the property is not inconsistent with the development of the units of housing. In determining whether the number of units is significant, the director and the commissioner and also, in the case of an agency transfer request, the agency, shall consider, without limitation, the need for housing and for affordable housing in the surrounding community, the size of the potential housing property and the potential housing property's physical characteristics. All development on potential housing property undertaken under this section must be consistent with any agency reuse plan or division reuse plan and must take into consideration any other local plan approved by the community in which the property is located.

(12) 'Low-or-moderate-income,' with respect to households, low-income is household income which is 50 per cent of area median income or less and moderate-income is household income which is between 50 per cent and 80 per cent of area median income, as determined by the United States Department of Housing and Urban Development.

(13) 'Potential housing property,' state-owned land that (i) has been determined by the commissioner, acting pursuant to section 40F to be surplus as to both the current and foreseeable needs of state agencies and to public agencies for direct public use, (ii) is not subject to Article XCVII of the Articles of Amendment of the Constitution, and (iii) is determined by the commissioner and the director to be suitable for use for housing or housing development. In determining whether said land is suitable for use for housing or housing development, the commissioner and director shall consider any existing reuse plan approved by the commissioner and any other existing reuse plans adopted by the community or communities where the land is located or prepared by the elected officials of the municipality in which the land is located.

(b)(1) Notwithstanding the provisions of sections 40E to 40F½ and 40H, but in accordance with the provisions of this section, the commissioner may, if an agency transfer request for a potential housing property has been submitted by the agency to the commissioner in compliance with the provisions of this section, transfer for the purpose of housing development the property to the agency under the terms contained in the agency transfer request, provided that the agency may acquire, take possession, care and control of such potential housing property only after an agency reuse plan for such lands has been approved by the agency's board of directors; the city council, board of aldermen, town council or board of selectmen of the municipality or municipalities in which the potential housing property is located; the division; and the department which approvals shall not occur until a public hearing is held on the agency reuse plan in accordance with the provisions of section 16 of chapter 23G. The agency reuse plan shall be developed, reviewed, and voted upon by such persons or entities in an expeditious manner. The potential housing property shall be developed in accordance with the approved plan. No agency reuse plan shall be approved unless the agency and the department find that the plan provides for housing development of the potential housing property, and furthermore, that at least 25 per cent of the housing units of such housing development shall be affordable to low or to moderate-income households. The affordable low to moderate-income housing shall be subject to affordable housing restrictions and shall remain affordable housing for a period of not less than 30 years. The agency shall place covenants and provisions, including affordable housing restrictions, in any document evidencing the sale, lease, conveyance or disposition of potential housing property for affordable housing development pursuant to subsection (b) providing for the restrictions on and maintenance of affordability for not less than 30 years. Without limiting the foregoing, and where feasible, the remaining housing units shall provide housing options for households having a broad range of household incomes.

(2) If the city council, board of aldermen, town council, or board of selectmen of the municipality or municipalities in which the potential housing property is located do not approve any agency reuse plan within a 12 month period of the date of such agency reuse plan's approval by the agency's board of directors, and such period is not extended by the mutual agreement of the agency, department and divisions, then such potential housing property shall not be transferred to the agency under this subsection pursuant to the agency transfer request relating to such agency reuse plan. At and after such time, the commissioner may transfer such potential housing property in accordance with the terms of subsection (c).

(3) The agency may dispose of any potential housing property acquired under subsection (b) in accordance with chapter 23G and this section. Net proceeds received by the agency from the final disposition by the agency to a third party of any potential housing property transferred to the agency under subsection (b) shall, after reimbursement to the agency of land preparation, remediation and other related costs directly incurred by the agency, and payment of other reasonable administrative fees as outlined in the agency transfer request, be deposited into a fund established and maintained by the agency to be known as the MassDevelopment Housing Fund for the purpose of housing development, including, but not limited to, environmental remediation, land preparation and other costs related to land transferred to the agency pursuant to this subsection.

(c)(1) If the agency elects not to submit an agency transfer request for a potential housing property; or a potential housing property is not transferred to the agency because an agency reuse plan was not approved within the time frame set forth in paragraph (2) of subsection (b), then, notwithstanding sections 40E through 40F½, but in accordance with the provisions of this subsection, the commissioner may sell, lease for a term or terms which in the aggregate do not exceed 99 years, transfer or

otherwise dispose of such potential housing property for the purpose of housing development subject to the provisions of this section and the requirements contained in any approved division reuse plan and any reuse restrictions required by this subsection.

(2) Any disposition of potential housing property by the division pursuant to this subsection shall be subject to such reuse restrictions, if any, as the commissioner and the department shall deem necessary, but in determining such reuse restrictions, the commissioner and the department shall consult with elected officials of the municipality or municipalities in which the potential housing property is located, and if the commissioner has approved a division reuse plan for the potential housing property, the reuse restrictions determined by the commissioner and the director shall be consistent with such division reuse plan. Without limiting the foregoing, the commissioner and the director, in connection with any disposition of potential housing property by the division under this subsection, shall require housing development of the potential housing property, and furthermore, that at least 25 per cent of the housing units of such housing development shall be affordable to low and moderate-income households. The affordable low or moderate-income housing shall be subject to affordable housing restrictions and shall remain affordable housing for a period of not less than 30 years. The division shall place covenants and provisions, including affordable housing restrictions, in any document evidencing the sale, lease, conveyance or disposition of potential housing property for affordable housing development under this subsection providing for the restrictions on and maintenance of affordability for not less than 30 years. Without limiting the foregoing and where feasible, the remaining housing units shall provide housing options for households having a broad range of household incomes.

(3) With respect to any potential housing property conveyed by the division pursuant to this subsection:

(A) The price for any sale, lease, conveyance or disposition of such potential housing property shall be the fair market value of said property as determined by the commissioner in consultation with the director, taking into consideration its use for housing development purposes under this subsection; the projected costs of such housing development, including site preparation, demolition, environmental remediation and related expenses; and any restrictions imposed by the commissioner and director, including the required development of affordable housing, under this subsection and any other public purposes but, in any event, notwithstanding the foregoing, 'fair market value' of any potential housing property shall be determined by the commissioner in his discretion so as to ensure the proposed housing development's financial feasibility.

(B) The recipients of any transfer of such potential housing property from the commissioner shall be responsible for the costs of any appraisals; surveys, including, but not limited to, the costs in full of preparing a recordable survey and the costs of recording said plan with the appropriate registry of deeds or filing the plan with the appropriate registry district of the land court; and other expenses relating to the transfer of said property deemed necessary by the commissioner for the conveyance of said property.

(C) Twenty-five per cent of the proceeds of the purchase price for any potential housing property transferred pursuant to subsection (c) shall be deposited into the Affordable Housing Trust Fund created by chapter 121D; the remaining proceeds shall be deposited in the General Fund."

The amendment was *rejected*.

which had been previously *rejected* by the Senate.
