“SECTION 208. Chapter 41 of the General Laws, as so appearing, is hereby amended by striking out section 108L and inserting in place thereof the following section:—

Section 108L. There is hereby established a career incentive pay program offering base salary increases to regular full-time members of the various city and town police departments, uniformed members of the department of state police appointed under section 10 of chapter 22C of the General Laws and state police detectives appointed under said section 10, as a reward for furthering their education in the field of criminal justice.

Only graduates of criminal justice or law enforcement programs that meet or exceed the guidelines for criminal justice and law enforcement programs as set forth by the board of higher education shall be eligible for the police career incentive pay program. Any degree programs pursued for police career incentive pay increases shall require the submission of a letter of intent to the chancellor of the board of higher education to seek approval as a police career incentive pay program. The president of a New England association of schools and colleges-accredited institution or a board of higher education-approved institution with an approved criminal justice or law enforcement program shall submit a letter of intent to the chancellor of the board of higher education indicating the institution’s intent to seek approval of a criminal justice degree program during the first year of the implementation of the guidelines. The letter of intent shall include a statement of commitment to implement guidelines for criminal justice and law enforcement programs.

Any application to seek approval as a police career incentive pay program participating institution shall include the following: (1) a profile of the program, (2) a self-assessment of the program, and (3) an application fee to cover the evaluation costs of the review process.

Each institution shall pay an evaluation fee to the board of higher education’s police career incentive pay program quality assurance trust fund to cover the costs of review of a program. In addition to the fee, the institution shall pay for travel, room, board and other normal expenses of the external evaluation committee. If the committee requires subsequent visits, the board of higher education shall charge for further expenses at its discretion. Evaluation fees will be determined by the total number of degrees awarded to all students enrolled in the criminal justice and law enforcement program being reviewed based on an average of the 3 years immediately before the submission of the application. Fees shall be set in the following manner: \$1000 for a degree program with an average enrollment of not more than 20 students per year, \$1500 for a degree program with an average enrollment between 20 and 50 students per year, \$2000 for a degree program with an average enrollment between 51 and 100 students per year, \$2500 for a degree program with an average enrollment between 101 and 150 students per year, \$3000 for a degree program with an average enrollment between 151 and 200 students per year, and \$3500 for a degree program with an average enrollment above 200 students per year.

Once an application is submitted, the following timetable shall apply: (1) not more than 30 business days after application submission, the board of higher education shall determine whether or not the application is complete and notify the institution; (2) not more than 30 business days after notification, the board of higher education shall appoint an external evaluation committee in accordance with the guidelines for criminal justice and law enforcement academic programs, set forth by the board; (3) not more than 30 business days after committee appointment, said committee shall submit a report to the board of higher education staff; (4) not more than 30 business days after receipt of the report by the board of higher education, the committee’s final report shall be sent to the institution for a response; and (5) not more than 30 days after receiving the institution’s response, the staff of the board of higher education shall evaluate materials submitted by the institution, the committee’s written report, the written response by the institution and any additional information submitted by the institution, and based on its review, the board staff shall make a recommendation to the board for deferral, approval or disapproval. If the board recommends disapproval, the board shall provide a statement of reasons for the decision.

Programs approved by the board of higher education shall be included on an approved program list for 5 years. The institutions shall annually submit a status report on their approved programs to the board. Programs receiving deferrals from the board shall be notified of specific conditions that must be met and a timetable for coming into compliance. Programs not approved by the board may not re-apply for at least 1 calendar year following the board’s determination.

When, in the judgment of the board staff, a review or inspection of a degree program is necessary, the board, in conjunction with the applicant institution, shall select and appoint an external evaluation committee to serve in the following manner: (1) The committee shall review the materials submitted by the program, shall, under most circumstances, visit the institution and shall

submit a report to the board containing recommendations regarding the program's request for approval. (2) The number of reviewers on the committee shall be determined by size, number and level of program being reviewed and shall in no instance include fewer than 2 academicians. External evaluators shall have a disinterested professional commitment to the task of rendering objective findings and recommendations based upon empirical evidence and informed judgments. (6) Each committee shall have a chair who shall be responsible for providing leadership to the committee, for being the committee's liaison with the institution and for preparing the committee's report with the other committee members. (7) The committee shall submit a written report, including recommendations to the board. Board staff shall forward a copy of the report to the institution to correct factual errors and respond to the content and recommendations within said report. (8) Evaluators will be given an honorarium by the board of higher education in addition to the evaluation fee and the evaluators' expenses. (9) Evaluators will be provided an orientation prior to conducting reviews.

Annually, each approved institution shall submit two copies of a report to the board reviewing the status of the institution's criminal justice and law enforcement program(s). This report shall certify that the criminal justice program is being maintained and operated in accordance with the provisions and guidelines set forth by the board of higher education for criminal justice and law enforcement programs. If, at any time, in the judgment of the board staff, there is a reasonable probability of non-compliance with the board's guidelines by a particular institution, the board may review said institution to determine if continued approval of said institution is proper.

An institution that objects to an adverse decision may appeal the board's determination. Said appeal shall be heard by a review panel appointed by the board of higher education and the findings and recommendations of the panel will be received by the board.

With the implementation of the guidelines for criminal justice and law enforcement programs, as approved by the board of higher education, said board shall certify career incentive pay increases only for graduates of New England Association of School and Colleges-accredited or board-approved law schools who have passed the Massachusetts bar examination.

Career incentive bonuses authorized by this section for degrees attained from programs approved by the board of higher education shall be granted annually in the following manner: \$6,000 for an associate's degree; \$7,500 for a baccalaureate degree; and \$8,500 for a master's degree or a law degree.

A city or town which accepts the provisions of this section after August 1, 2002, however, and provides annual career incentive bonus payments for police officers, shall not be reimbursed by the commonwealth for the Commonwealth's share of those payments for any fiscal year before 2006. Said information shall be filed with said board on or before September first of each year, on a form furnished by said board. The board of higher education shall also certify the amount of annual career incentive bonus payments to be allocated to the members of the department of state police appointed under section 10 of chapter 22C from information filed with said board on or before September first of each year by the colonel of state police. This information shall be filed on a form to be furnished by the board of higher education.

Notwithstanding any provision of this section to the contrary, police officers and members of the department of state police appointed under section 10 of chapter 22C of the General Laws and state police detectives appointed under said section 10, who have attained their degree pursuant to this section before January 1, 2004, irrespective of the date of certification of their eligibility for annual career incentive bonus payments under this section by the board of higher education and including those who transfer to any other city or town that has accepted this section, shall upon certification be paid career incentive bonuses pursuant to the provisions of this section in effect before January 1, 2004."

Section 29J. Notwithstanding any general or special law to the contrary except for sections 52 to 55, inclusive, of chapter 7, the commissioner shall in each fiscal year identify and pursue projects to optimize non-tax revenue management and collections by the commonwealth.

For the purposes of this section, ‘department’ or ‘participating department’ shall refer to any department, agency, board, commission, office, or institution under the executive control of the governor or other constitutional officer and determined by the commissioner to be participating in the revenue optimization projects authorized by this section; allocations to participating departments for the successful implementation of revenue optimizing projects, as determined by the commissioner, shall be known as ‘department incentive payments’; payments to private vendors for services in identifying and pursuing projects to optimize revenue shall be known as ‘vendor participation payments’; and non-tax revenue payments, and other charges directed to the Maximization Fund shall be known as ‘net additional revenue.’

The commissioner or his designee may contract with private vendors and to enter into interdepartmental service agreements to identify and pursue projects. Private vendors shall be compensated from the non-tax revenues collected by such projects in excess of the non-tax revenues established by said contracts as the minimum to be collected by each such project.

Departments shall be awarded department incentive payments under this section only if (1) the collection of a fee or any other non-tax revenue during the fiscal year is greater than the amount of revenue collected from said fee or other non-tax revenue during the preceding year, the base period, so called, and (2) the total non-tax revenue collected by such department in the fiscal year is in excess of the amounts projected for each department in section 1B of the general appropriation act of the fiscal year, or alternatively in excess of the most recent revenue estimate, should there be one, from the fiscal affairs division. Revenues that are attributable to a new fee or a newly reimbursable service or clientele shall be considered to have base period revenue of zero.

The comptroller shall deposit in the Maximization Fund all revenue under this section and may allocate from the fund without further appropriation at the direction of the commissioner, department incentive awards to participating departments an amount not to exceed 20 per cent of the total net additional revenue. Seventy-five per cent of said allocations shall be distributed to participating departments in proportion to the revenue collected by each individual department as a per cent of the total revenue collected under the provisions of this section. The remaining 25 per cent shall be distributed to participating departments at the discretion of the commissioner, regardless of the amount of revenues collected by the individual departments. The comptroller shall transfer to the General Fund at the close of the fiscal year any balance remaining in the Maximization Fund after providing for said allocations to participating departments, vendor participation payments, and other charges to the Maximization Fund, but no expenditure shall be made from the Maximization Fund that would cause the fund to be in deficit at the close of the fiscal year.

Departments may expend department incentive payments without further appropriation after obtaining the written approval of the commissioner or his designee of a plan detailing proposed expenditures, allocations, and reallocations provided that approved plans must be filed with the house and senate committees on ways and means not less than ten days in advance of any such

allocation or reallocation. All expenditures made pursuant to the provisions of this section shall be for one-time expenses that shall not recur in the current or a subsequent fiscal year, and shall not be used to supplant purposes authorized in any other item or appropriation act enacted in the current or a subsequent fiscal year. Any unexpected balance from said allocations at the end of each fiscal year shall, at the discretion of the commissioner or his designee, revert to the General Fund except to the extent that said approved spending plan includes multi-year expenditures.

The comptroller and the commissioner shall report not later than January 31 of each year, to the house and senate committees on ways and means on the status of the revenue optimization projects authorized by this section for the six-month period ending the preceding month. Said report shall detail, by vendor, project, and department, the amount of vendor participation payments, the net additional revenue retained by the commonwealth, the amounts allocated or reallocated to each participating department, and the estimated receipts, payments, and allocations for the fiscal year.

The comptroller and the commissioner shall report to the house and senate committees on ways and means, not later than September 30 of each year, the preceding detailed information for the fiscal year just ended, and include a plan detailing, by executive office and department, the net additional revenue estimated to be collected in the fiscal year under this section.”

To the extent there is adequate funding available as may be determined by the secretary of administration and finance, such awards may be paid as approved by the secretary from the operating appropriations of each agency that realizes reduced costs, as a result of the employee’s suggestions or efforts. The amount of any such award shall equal not more than 10 per cent of the annual reduced costs or increased revenues generated by the employee’s suggestion, up to a maximum of \$5,000 for any 1 suggestion, unless a larger award is approved by the general court. All such awards shall be reported quarterly to the house and senate committees on ways and means, detailing the recipient of the award, and the amount of money saved or realized by the commonwealth. Section 2. On or before the ninth Tuesday before the primary election in any year in which elections are held for statewide elective office the state secretary shall determine and certify to the director and the state treasurer the names and addresses of all candidates for statewide elective office who qualify for the primary ballot and are opposed by one or more candidates who have qualified for the same ballot in the primary election. For purposes of this chapter any candidate for statewide elective office for whom certificates of nomination and nomination papers have been filed in apparent conformity with law shall be considered qualified for the ballot notwithstanding any objections thereto that may be filed and notwithstanding any vacancy that may occur following the filing of such certificates of nominations and nomination papers other than a vacancy caused by withdrawal of a candidate within the time allowed by law. On or before the fifth Tuesday before the state election in any such year the state secretary shall determine and certify to the director and to the state treasurer the names and addresses of all candidates for statewide elective office who qualify for the state election ballot and are opposed by one or more candidates who have qualified for the state election ballot. For purposes of this chapter any candidate for statewide elective office for whom certificates of nomination and nomination papers have been filed in apparent conformity with law shall be considered qualified for the ballot, as provided with respect to candidates for the primary election, and any such candidates nominated at the primary election shall be considered qualified for the ballot notwithstanding any objections thereto that may be filed and notwithstanding any vacancy that may occur other than a vacancy caused by withdrawal of a candidate within the time allowed by law. The state secretary shall promptly determine and certify to the director and state treasurer the name and address of any candidate that no longer qualifies for the primary or state election ballot or no longer has opposition because of death or withdrawal or ineligibility for office or because objections to certificates of nomination and nomination papers have been sustained or because of a recount or for any other like reason.

Section 3. The director shall determine and certify to the state treasurer those candidates for statewide elective office that are eligible for limited public financing as provided in sections 4 and 6 and shall determine and certify to the state treasurer the amounts due to each eligible candidate as provided in sections 5 and 7.

The director shall prescribe and make available forms on which statements of qualifying contributions shall be filed by candidates, which statements shall contain the name and address of each individual making a contribution, the amount of the contribution and date of deposit, the cumulative total of all contributions made by that individual during the calendar year in which elections are held for statewide elective office and the next preceding calendar year and shall contain such other information and shall be organized in such a manner as the director may reasonably require to expedite the determinations required to be made by the director by this chapter. The director shall notify candidates of any amounts determined by the director to be due from candidates under section nine and shall direct that such amounts be paid to the state election campaign fund. On or before January 30 of any year next following a year in which elections are held for statewide elective office the director shall prepare and submit a report relating to the matters entrusted to him under this chapter to the clerk of the senate and to the commission established by section 3 of chapter 55 and shall make copies of such report available to any person upon payment of the reasonable cost of copying or reproduction.

Section 4. Any candidate for statewide elective office certified by the state secretary under section 2 as qualifying for the ballot and having opposition in primary election shall be eligible to receive limited public financing of his primary election campaign, to the extent provided by section 5, on determination and certification by the director that the candidate (a) has filed a request for public financing with the director together with the bond required by section 8; (b) has filed with the director a statement under subsection (a) of section 1A agreeing to abide by the expenditure limits provided thereby; and (c) has received qualifying contributions as defined by section 1 in at least the following minimum amounts for the following statewide elective offices:

Lieutenant Governor.....	15,000

Secretary.....	15,000
Treasurer and Receiver General	15,000

Only amounts appearing in statements of qualifying contributions filed with the director, in such form as he shall prescribe, shall be considered in determining whether any such minimum amount has been met. Determination and certification of the eligibility of candidates shall be made by the director on the eighth Tuesday before the primary and shall be based solely upon information contained in such statements as have been filed on or before the Friday next preceding said eighth Tuesday.

Section 5. Any candidate eligible to receive limited public financing of his primary election campaign shall, on determination and certification by the director, be entitled to an amount equal to \$1 for each one dollar of qualifying contributions as defined by section 1, subject to the following limitations: (a) no candidate shall be entitled to receive any amount in excess of the balance

then remaining in the primary candidate account established for that candidate under section 42 of chapter 10; (b) nor shall any candidate be entitled to receive any amount in excess of the following maximum amounts for the following statewide elective offices:

Determinations and certifications of the amounts to which eligible candidates are entitled shall be made by the director on or before the eighth, sixth, fourth and second Tuesday before the primary election and shall be based solely upon information contained in such statements as have been filed prior to such dates.

Section 6. Any candidate for statewide elective office certified by the state secretary under section two as qualifying for the ballot and having opposition in the state election shall be eligible to receive limited public financing of his state election campaign, to the extent provided by section 7, on determination and certification by the director that the candidate (a) has filed a request for public financing with the director together with the bond required by section 8; (b) has filed with the director a statement under subsection (a) of section 1A agreeing to abide by the expenditure limits provided thereby; and (c) has received qualifying contributions as defined by section 1 in at least the following minimum amounts for the following statewide elective offices:

Secretary.....	25,000
Treasurer and Receiver General.....	25,000
Auditor.....	25,000

Only amounts appearing in statements of qualifying contributions filed with the director, in such form as he shall prescribe, shall be considered in determining whether any such minimum amount has been met. Determination and certification of the eligibility of candidates shall be made by the director on the fourth Tuesday before the state election and shall be based solely upon information contained in such statements as have been filed on or before the Friday next preceding said fourth Tuesday.

The fact that a qualifying contribution has previously been considered in determining eligibility for, or the extent of, public financing of a candidate's primary election campaign shall not prevent consideration of the same contribution in determining eligibility for public financing of such candidate's state election campaign.

Section 7. Any candidate eligible to receive limited public financing of his state election campaign shall, on determination and certification by the director, be entitled to an amount equal to \$1 for each one dollar of qualifying contributions as defined by section one subject to section nine and subject to the following limitations: (a) no candidate shall be entitled to receive any amount in excess of the balance then remaining in the state election candidate account established for that candidate under section 43 of chapter 10; (b) nor shall any candidate be entitled to receive any amount in excess of the following maximum amounts for the following statewide elective offices:

Governor and Lieutenant Governor.....	\$750,000
Attorney General.....	312,500
Secretary	187,500
Treasurer and Receiver General	187,500
Auditor	187,500

Only amounts appearing in statements of qualifying contributions filed with the director, in such form as he shall prescribe, shall be considered in determining amounts to which candidates are entitled. Determinations and certifications of the amounts to which eligible candidates are entitled shall be made by the director on or before the fourth and second Tuesday before the state election and shall be based solely upon information contained in such statements as have been filed prior to such dates.

The fact that a qualifying contribution has previously been considered in determining eligibility for, or the extent of, public financing of a candidate's primary election campaign shall not prevent consideration of the same contribution in determining the extent of public financing of such candidate's state election campaign.

Section 8. No candidate shall be eligible to receive public financing under this chapter unless and until the candidate deposits with the director a bond for the faithful compliance by such candidate and any political committee organized on his behalf with the provisions of this chapter. Such bond shall be in a form approved by the director, shall be signed by such candidate and the chairman and treasurer of any such committee, shall run to the commonwealth, shall be in force during the year in which

elections for statewide elective office are held and for the following calendar year. The bond deposited for the purpose of receiving public financing for the primary election campaign must be for the amount which the comptroller has credited to the account established on behalf of that candidate for the primary election campaign. The bond deposited for the purpose of receiving public financing for the state election campaign must be for the amount which the comptroller has credited to the account established on behalf of that candidate for the state election campaign, but in the case of a candidate for governor, the bond on behalf of said candidate shall be in the amount which the comptroller has credited to the account established on behalf of that governor and lieutenant governor team.

On determination by the director that a candidate has failed to make the payments to the state treasurer required by section 9 the director may request the attorney general to bring an action in the name of the state treasurer upon the bond of such candidate and his political committee and may recover for the benefit of the state election campaign fund, up to the sum of such bond, any such payments so required. Any such action shall be in addition to remedies otherwise available by law and no action on any such bond shall preclude the director from bringing such other civil or criminal proceedings as may otherwise be provided by law.

Section 9. Within two weeks following any primary or state election for statewide elective office any candidate who has received public financing under this chapter shall file a statement with the director showing the balance remaining in the candidate's depository account as of the primary or state election less any reserve necessary to cover debts incurred to defray campaign expenditures incurred during such primary or state election. Except as provided in this section, any candidate having a surplus balance following any such primary or state election shall thereupon pay to the state treasurer for deposit to the State Election Campaign Fund an amount determined by multiplying such surplus balance by a fraction the numerator of which is the total amount of public financing received on account of such primary or state election campaign and the denominator of which is the sum of such public financing received and all contributions received by such candidate. No candidate having a surplus balance following the primary election shall be required to make any payment on account of such surplus if such candidate is certified by the state secretary under section 2 as qualifying for the ballot and having opposition in the state election and is certified by the director of campaign and political finance as eligible for public financing for the state election within 3 weeks following such primary election. In determining and certifying the amount to which any such candidate is entitled under section 7, the director shall reduce the amount that would otherwise be determined under that section by an amount equal to the amount that such candidate would be required to pay to the state treasurer under this section but for this sentence.

If the director determines that any portion of the payments made to an eligible candidate under this chapter was in excess of the aggregate amount of the payments to which the candidate was entitled he shall so notify the candidate and he shall thereupon pay to the state treasurer an amount equal to the excess amount.

If the director determines that any portion of the payments made to a candidate under this chapter for use in his primary election campaign or his state election campaign was used for any purpose other than to defray campaign expenditures in that campaign, or to repay loans the proceeds of which were used to defray campaign expenditures in that campaign, the director shall so notify the candidate and he shall thereupon pay an amount equal to the full amount so used to the state treasurer without regard to the source of the funds so used.

Any candidate who fails to pay an amount determined by the director to be due within 10 days of notice thereof shall be subject to a penalty of \$50 per day for every day that such amount remains unpaid.

Section 10. No candidate shall be required to accept public financing nor shall any candidate otherwise eligible for public financing be denied such financing solely because an opposing candidate declines to accept such financing.

Section 11. The director shall promulgate such rules and regulations as are necessary to effectuate the purposes of this chapter.

The director shall have the same power and authority to investigate the legality, validity, completeness and accuracy of all reports and actions required to be filed and taken by candidates pursuant to this chapter as is provided by section 3 of chapter 55 pertaining to campaign contributions and expenditures.

Section 12. Violation by any person of any provision of this chapter shall, in addition to any civil liabilities established by this chapter, be punished by imprisonment for not more than 1 year or by a fine of not more than on \$1,000, or both.”; by inserting after section 215 the following section:—

“SECTION 215A. Section 6C of chapter 62 of the General Laws, as so appearing, is hereby amended by striking out, in lines 2 and 3, the words, ‘Massachusetts Clean Elections’ and inserting in place thereof the following words:— State Election Campaign.”; and by inserting after section 580K the following section:—

“SECTION 580L. Any funds in the Massachusetts Clean Elections Fund shall on the effective date of this act be transferred to the State Election Campaign Fund, established by section 42 of chapter 10 of the General Laws. Any funds in the Massachusetts Clean Elections Judgment Fund, established by section 174 of chapter 184 of the acts of 2002, shall be transferred to the General Fund.”

After debate, the amendment was adopted.

Ms. Creem, Messrs. Antonioni and Berry, Ms. Wilkerson, Ms. Fargo and Messrs. Joyce, Rosenberg and Pacheco moved to amend the bill by inserting after section 580Q the following section:—

“SECTION 580R. (1) Notwithstanding any general or special law to the contrary, the board of education shall take such action as necessary, including, as appropriate, promulgating emergency regulations to modify the process governing MCAS appeals for children with disabilities in sufficient time to apply to children with disabilities subject to the MCAS graduation requirement in 2003. The appeals process established by 603 CMR 30.05 shall be revised to include the following provisions: A child with an individual education plan shall be eligible for an MCAS appeal if the following criteria are met: (a) the child has taken the grade 10 MCAS at least 3 times in each subject area considered in the competency determination in which the student did not achieve a pass score or submitted a portfolio assessment through the MCAS Alternative Assessment at least 2 times without being granted a competency determination; (b) the child has maintained an adequate attendance level as established by the department, or the child’s days of absences from school in excess of the number allowed by the department are excused; (c) the child has demonstrated participation in academic support services made available and accessible by or approved by the school district under an individual student success plan or under any other plan designed to strengthen the student’s knowledge and skills in the subject at issue, or the child’s lack of participation in available academic support services has been related to the child’s disability.

(2) The regulations shall require that, at the request of the child’s parent or guardian or with the parent or guardian’s consent, the superintendent of schools for the school district in which the student is enrolled, or the superintendent’s designees, shall file an appeal on behalf of a child with an individual education plan. Denial of an earlier appeal shall not prevent a new appeal under this section.

(3) The regulations shall require that the superintendent include in the performance appeal evidence of the student’s knowledge and skills in the subject at issue, including: (a) documentation that the student has met the local graduation criteria established by the local school committee; (b) documentation that the child’s individual education plan team, with the approval of a parent or guardian of the child, recommends graduation for the student consistent with chapter 71B and the Individuals with Disabilities Education Act; (c) certification from the individual education plan team, including the parent or guardian, that the student’s MCAS scores do not accurately measure the student’s abilities; (d) a recommendation from 1 or more of the child’s teachers in the area of appeal, assessing the level of the student’s knowledge and skills in the subject area at issue; (e) where possible, a meaningful comparison of the child with a group of other students who passed the MCAS in the subject area of the student’s appeal; provided, however that, in the event of an inability to identify an appropriate set of students to enable a meaningful comparison with other students provision (e) shall be waived and shall not be reason for denying a performance appeal; and (f) other supporting information, such as work samples and scores of the student on other standardized tests in the subject area, evidence of acceptance to college courses, or other evidence of academic achievement which support a case for graduation consistent with the standards established pursuant to section 1I of chapter 69 of the General Laws.

(4) The commissioner shall grant the appeal for a child with an individual education plan unless the commissioner finds that there is compelling evidence in the documentation provided in clauses (a) to (f), inclusive, of subsection (3) that, contrary to the certification of the individual education plan team, the MCAS does accurately reflect the failure to have achieved knowledge and skills commensurate with a performance level required for the competency determination, in which case the commissioner must provide written documentation of such evidence to the individual education plan team, including the parents. Nothing in this section shall affect or in any way limit a child’s right available under chapter 71B of the General Laws or the Individuals with Disabilities Education Act.

(j) The commissioner of education shall take all steps necessary to: develop and implement a system to effectively monitor and enforce provisions of federal and state law which require provision of accommodations, modifications, and alternate assessments for children with disabilities participating in MCAS; develop and implement a system to effectively monitor and enforce provisions of federal and state law which ensure access to and meaningful participation in the general curriculum so that children with disabilities can meet the educational standards established in the learning standards set forth in the Massachusetts curriculum frameworks; establish policies and procedures to ensure that children with disabilities receive the accommodations, special education, related services, and supplementary aids and services necessary to participate in any MCAS tutorial, remedial, or academic support services made available by or approved by the school committee or the department; and develop and implement a system to effectively monitor and enforce provisions of federal and state law which require school districts to ensure that a continuum of alternative placements is available to provide a free and appropriate public education to meet the needs of children with disabilities who have not demonstrated competency on the grade 10 MCAS examination even though they have satisfied local graduation requirements.”

“SECTION 491A. Chapter 270 of the General Laws is hereby amended by striking out section 22, as appearing in the 2000 Official Edition, and inserting in place thereof the following section:—

Section 22. (a) No person shall smoke in any public elevator, supermarket or retail food outlet, in or upon any public mass transit conveyances or indoor platform or enclosed outdoor platform or at any open meeting of a governmental body as defined in section 11A of chapter 30A, section 23A of chapter 39 and section 9F of chapter 34.

(b) No person shall smoke in any courthouse, school, college, university, museum, library, train, airplane, waiting area of an airport, waiting area of a health care facility as defined in section 9C of chapter 112, group child care center, school-aged day care center, or family day care center or on any premises where activities are licensed under section 38 of chapter 10 or in any public building. No person shall smoke in the state house or in any building owned by the commonwealth or in any space occupied by a state agency or department of the commonwealth, including any private office, so occupied. The provisions of the foregoing sentence shall not apply to residents of the Soldiers’ Home in Massachusetts and the Soldiers’ Home in Holyoke.

(c) No person shall smoke in any vehicle owned, leased, operated or occupied by the commonwealth or any political subdivision thereof.

(d) No person shall smoke in any workplace. For the purposes of this section, ‘workplace’ shall mean any enclosed indoor area, structure or facility or any portion thereof at which one or more employees perform services for their employer, including the personal residence of the employer during those hours when used as a child care or health care office. For the purpose of this section, ‘enclosed’ shall mean a space bounded by walls, with or without windows, continuous from floor to ceiling and enclosed by doors including, but not limited to, offices, rooms and halls. Workplaces shall include, but not be limited to, restaurants, bars, hotels, motels, inns, shopping malls and retail stores.

(e) The owner, manager or other person in charge of a facility, building, vehicle or place described in the preceding paragraphs shall conspicuously post such notices or signs at each entrance indicating that smoking is prohibited. Any owner, manager or other person in charge of such facility, building, vehicle or place that violates this section shall be fined \$100 for the first violation. A second violation, within 2 years, of the first offense, shall be assessed a fine of \$200. A third or subsequent violation, within 2 years of any previous violation, shall be assessed a fine of \$300. Each calendar day on which a violation exists shall be deemed to be a separate offense. The commonwealth or its agents including, but not limited to, the department of public health, the attorney general or the state police; any municipal government or its agent; any board of health or its agent; or any local police shall enforce this section. In the city of Boston, the commissioner of health and his authorized agents shall enforce this section. Any violation of this section shall be considered a civil violation. If the enforcing authority is a board of health or its

authorized agent, any violation of this section may be disposed of by the non-criminal method of disposition contained in section 21D of chapter 40 without an enabling ordinance or by-law. If the enforcing authority is any city or town or its agent, any board of health or its agent, or any city or town police department, fines assessed pursuant to this section shall be payable to the city or town in which the violation occurs. Any person aggrieved by the failure or refusal to comply with this section in any public building may complain in writing to the head of such department or agency occupying the area wherein such violation occurs. Such agency or department head shall respond, in writing, within 15 days, to the complainant that he has inspected the area described in the complaint and has enforced this section. Such agency or department head shall file a copy of the original complaint and his response thereto with the department of public health. Nothing in this section shall be construed to permit smoking in any area in which smoking is or may hereafter be prohibited by law including, without limiting the generality of the foregoing, any other provision of the law or ordinance or by-law or any fire, health or safety regulation.”

Section 65B. Except as otherwise permitted by law, each board of registration, after a hearing, may assess and collect a civil administrative penalty of up to five thousand dollars for each violation upon any person who, without holding the required license, certificate, registration, or authority, engages in the practice of any trade or profession over which the board has jurisdiction and for which a license, certificate, registration, or authority is required. This section shall not affect, but shall be in addition to, any other penalty or remedy provided by law. Each board may apply to the superior court for an order enjoining unlicensed practice, or ordering payment of any assessed fine, or both. Upon a showing by the board that such person has engaged in unlicensed practice, an injunction, restraining order, money judgment, or other order as may be appropriate shall be granted by such court.

Section 65C. Each board of registration that has jurisdiction over a licensee whose continued practice poses an immediate and serious threat to the public health, safety or welfare may suspend or refuse to renew the holder's license, certificate, registration or authority pending a hearing on the merits of the allegation against the holder, provided that the board shall hold a hearing on the necessity for the emergency action within 7 business days of the action. At the request of a licensee the board may reschedule this hearing to a date and time mutually agreeable to the board and licensee. Any such rescheduling of the hearing granted at the licensee's request shall not operate to lift or stay the emergency action order. If such hearing is not held within 7 business days of the board's emergency action, or at such rescheduled time as may have been agreed to, the license, certificate, registration or authority against which action was taken shall be considered reinstated. At the hearing, the board shall receive evidence limited to determining whether the emergency action order shall continue in effect pending the final disposition of the complaint. Following such hearing, any continuing suspension or non-renewal imposed by a board shall remain in effect until the conclusion of any formal proceeding on the merits of the allegations against the holder, including judicial review thereof, or until withdrawn

by such board. The division of professional licensure and the department of public health, as appropriate, after proper notice and hearing, shall adopt rules and regulations governing the emergency action procedure authorized by this section.

Section 65D. Any complaint, report, record or other information received or kept by any board of registration in connection with an investigation shall be considered a public record only following the issuance of an order to show cause or final action by the board. Before issuing an order to show cause or final action, each board may keep confidential any complaint, report, record or other information received or made in connection with an investigation conducted by the board, provided that the identity of the person filing a complaint shall be exempt from disclosure as a public record at all times, except to the extent that a licensee may be entitled to such information for purposes of preparing a defense in a formal adjudicatory hearing. The requirement that investigative records or information be kept confidential shall not apply to requests from other state or federal agencies, boards or institutions as the division of professional licensure or the department of public health, as appropriate, shall determine by regulation.

Meetings of the boards held for the purpose of conducting investigative conferences related to a complaint shall not be considered open meetings within the meaning of section 11A1/2 of chapter 30A.

Section 65E. After a complaint has been filed with any of the boards of registration alleging that any holder of a license, certificate, registration or authority issued by any of the boards may be incompetent or unable to practice his or her profession or trade with reasonable skill and safety because such holder's ability to practice is impaired due to mental illness or physical illness, the board may order such holder to be examined by one or more physicians or psychotherapists approved by the board at the board's expense. If the individual fails or refuses to comply with an order by the board for such examination, and upon reasonable notice to the holder, the board may apply to the superior court for an order compelling the holder to submit to an examination. If the board's application is granted, the court may, after opportunity for hearing, require the individual to pay to the board its reasonable expenses incurred in obtaining the order, including attorney's fees, unless the court finds an award of expenses unjust. The holder's failure to comply with a court order issued under this section shall constitute grounds for disciplinary action by the board, including but not limited to the sanctions listed in section 61.
