“SECTION 91. Section 9A of chapter 200A of the general laws is hereby repealed in its entirety and shall be replaced with the following:

Section 9A. Alternative procedure for handling abandoned funds held by cities, towns and districts.

(a) This section shall apply to abandoned funds, as determined herein, held in the custody of cities, towns or districts that have accepted the provisions of this section pursuant to section 4 of chapter 4 of the general laws. In the case of such cities, towns or districts accepting the provisions of this section there shall be an alternative procedure for disposing of abandoned funds held in the custody of such cities, towns or districts as provided in this section, and only this section shall apply to the disposition of such funds.

(b) Any funds held in the custody of a city, town or district that has accepted this section may be presumed by the city, town or district treasurer to be abandoned unless claimed by the corporation, organization, beneficiary or person entitled thereto within one year after the date prescribed for payment or delivery, provided the last instrument intended as payment bears upon its face the statement “void if not cashed within one year from date of issue.” Once a period of one year has elapsed from the date of any such instrument, the treasurer of any such city, town or district may cause the financial institution upon which the instrument was drawn to stop payment on the instrument, or otherwise cause the financial institution to decline payment on the instrument, and any claims made beyond this date may only be paid by the city, town or district through the issuance of a new instrument. Neither the city, town, district nor financial institution shall be liable for damages, consequential or otherwise, resulting from a refusal to honor an instrument of a city, town or district submitted for payment more than one year from its issuance.

(c) The treasurer of a city, town or district holding funds owed to a corporation, organization, beneficiary or person entitled thereto, that are presumed to be abandoned as aforementioned, shall post a notice, which notice shall be entitled “Notice of Names of Persons appearing to be Owners of funds held by (insert city, town or district name), and deemed abandoned.” The notice shall specify those who appear from available information to be entitled to such funds, shall provide a description of the

appropriate method for claiming such funds, and shall state a deadline beyond which funds may no longer be claimed, provided such deadline is no earlier than sixty days from the date such notice was either postmarked or first posted on a website as herein provided. The treasurer of such city, town or district may post such notice using one or both of the following methods: (1) by mailing such notice postpaid to the last known address of the beneficiary or person entitled thereto, sent via first class mail, or (2) if the city, town or district maintains an official website the said treasurer may, as an alternative, post the notice conspicuously on said website for a period of not less than 60 days.

(d) In the event funds appearing to be owed to a corporation, organization, beneficiary or person amount to \$100 or more, and the deadline as provided in the aforementioned notice has passed, and no claim for the funds has been made, the treasurer shall cause an additional notice, in substantially the same form as the aforementioned notice, to be published in a newspaper of general circulation in the county (or counties) in which the city, town or district is located, except that this notice shall provide an extended deadline beyond which funds cannot be claimed, which shall be no earlier than one year from the date of publication of such notice.

(e) Once the final deadline of the aforementioned notice(s) has passed, the funds owed to such corporation, organization, beneficiary or person entitled thereto shall escheat to the city, town or district and the treasurer thereof shall record the funds as revenue in the general fund of the city, town or district, and the city, town or district shall not thereafter be liable to the corporation, organization, beneficiary or person for payment of those funds, nor for the underlying liability for which the funds were originally intended. These funds shall then be available to the city, town or district's appropriating authority for appropriation for any other public purpose. In addition to the notices herein provided for, the treasurer of the city, town or district may initiate any other notices or communications that are directed in good faith toward making final disbursement of the funds to the corporation, organization, beneficiary or person entitled thereto.

Prior to escheatment of the funds, the treasurer of the city, town or district shall hear all claims on funds that may arise, and if it is clear, based on a preponderance of the evidence available to the treasurer at the time the claim is made that the claimant is entitled to disbursement of the funds, the treasurer shall disburse funds to the claimant upon receipt by the treasurer of a written indemnification agreement from the claimant wherein the claimant agrees to hold the city, town or district and the treasurer of the city, town or district harmless in the event it is later determined that the claimant was not entitled to receipt of the funds. If it is not clear, based on a preponderance of the evidence before the treasurer at the time of the claim that the claimant is entitled to disbursement of the funds, the treasurer shall segregate the funds into a separate, interest bearing, bank account and shall notify the claimant of such action within 10 days. A claimant affected by this action may appeal within 20 days to the district, municipal or superior court of the county in which the city, town or district is located. The claimant shall have a trial de novo. An appeal shall be perfected by the claimant within 20 days after receiving notice of this action by the city, town or district treasurer. A party adversely affected by a decree or order of the district, municipal or superior court may appeal to the appeals court or the supreme judicial court within 20 days from the date of the decree.

If the validity of the claim shall be determined in favor of the claimant or another party, the treasurer shall disburse funds to the claimant in accordance with the order of the court, including interest accrued. If the validity of the claim is determined to be not in favor of the claimant or any other party, or if the treasurer does not receive notice that an appeal has been filed within one year from the date the claimant was notified that funds were being withheld, then the funds, plus accrued interest, shall escheat to the city, town or district in the manner herein provided.

If the claimant is domiciled in a country or state outside the United States or its territories and the city, town or district determines that there is no reasonable assurance that the claimant will actually receive the payment provided for in this section in substantially full value, the superior court, in its discretion or upon a petition by the city, town or district may order that the city, town or district retain such payment.

The earlier Section 9A of chapter 200A herein repealed shall apply to funds wherein the final instrument of disbursement was issued prior to the effective date of this act."

The assessment of personal property taxes by a municipal board of assessors shall have the force and effect of a signed security agreement under the provisions of chapter one hundred-six, hereinafter referred to in this section as 'the Uniform Commercial Code.' The security interest shall have the force and effect of an unperfected security interest in accordance with the provisions of the Uniform Commercial Code and once perfected shall have the force and effect of a perfected security interest in accordance with the provisions of the Uniform Commercial Code.

The unperfected security interest shall be perfected upon: (1) nonpayment of the tax, including partial nonpayment, fourteen days after the mailing of a demand in accordance with section sixteen of this chapter; and, (2) the filing of a financing statement by the municipal collector at the office of the state secretary in accordance with the provisions of the Uniform Commercial Code, provided that the collector may file a financing statement no earlier than fourteen days following the mailing of a demand to the taxpayer.

The collector shall, upon perfection of the security interest, add the cost of filing the financing statement and the cost of

filing a termination statement plus an additional fee of five dollars for the preparation of the financing statement and an additional fee of five dollars for the preparation of a termination statement to the balance due.

If it appears to the collector that a filed financing statement is going to lapse, the collector shall file a continuation statement, as well as succeeding continuation statements in accordance with the provisions of the Uniform Commercial Code, to continue the effectiveness of the initial financing statement, adding to the balance due the cost of filing each necessary continuation statement plus a fee of five dollars for their preparation.

Once the balance due, including the tax, accrued interest, incidental charges, and fees as provided by chapter fifty-nine and other provisions of this chapter have been fully abated or fully paid the security interest provided for under this section shall terminate, and if the security interest was perfected, the collector or an assignee of the collector shall file a termination statement at the office of the state secretary in accordance with the provisions of the Uniform Commercial Code.

The collector may assign an underlying personal property tax receivable in accordance with the procedures provided for in section 2C of this chapter provided that the provisions of the Uniform Commercial Code governing the assignment of a security interest are also followed. In the event of a direct conflict between section 2C of this chapter and the provisions of the Uniform Commercial Code, the provisions of the Uniform Commercial Code shall control as to the assignment of the security interest and the provisions of this chapter shall control as to the assignment of the tax receivable.

If a tax receivable and security interest has not previously been assigned, the collector shall assign the tax receivable and the security interest, in accordance with the provisions of the Uniform Commercial Code, to any other secured party holding a concurrent security interest in the same personal property, regardless of when the other secured party's interest was perfected, if that secured party fully pays the balance due to the collector.

All remedies available to holders of secured interests under the provisions of the Uniform Commercial Code for default of an underlying obligation shall be available to the collector or to an assignee to collect the balance due and the use of the provisions of the Uniform Commercial Code by the collector or an assignee shall not interfere with the ability of the collector or an assignee to use other remedies, including the further accrual of interest on the tax receivable, as provided in chapter fifty-nine, this chapter or any other applicable provision of law to collect the balance due.

All terms used in this section shall be defined by reference to those terms as they are used under the Uniform Commercial Code unless specific reference is made in this section to another provision of law.

(c) ‘Mortgage lending process’ means the process through which a person seeks or obtains a residential mortgage loan including, but not limited to, solicitation, application, or origination, negotiation of terms, third-party provider services, underwriting, signing and closing, and funding of the loan. Documents involved in the mortgage lending process include, but are not limited to, uniform residential loan applications or other loan applications; appraisal reports; HUD-1 settlement statements; supporting personal documentation for loan applications such as W-2 forms, verifications of income and employment, bank statements, tax returns, and payroll stubs; and any required disclosures;

It is an affirmative defense to a prosecution of a defendant for a violation of this section committed by an employee or agent of the defendant if the defendant demonstrates all of the following by a preponderance of the evidence:

(a) The defendant had in force at the time of the violation and continues to have in force a written policy that includes at least all of the following:

(i) A prohibition against conduct that violates this section by employees and agents of the defendant

(ii) Penalties or discipline for violation of the policy

(iii) A process for educating employees and agents concerning the policy and consequences of a violation

(iv) A requirement for a criminal history check before employing an employee or engaging an agent and a requirement that the defendant will not employ or engage an individual whose criminal history check reveals a previous conviction of a crime

(c) Before the violation of this section the defendant communicated the written policy described in subdivision (a) and the consequences for violating the policy to the employee or agent who committed the violation.

Every ninety days, the PRIM board shall make its best efforts to identify all such prohibited companies in which the PRIT fund has direct or indirect ownership or in which the PRIT fund could have such holdings in the future and shall provide a copy of this list of companies to the clerk of the house and to the clerk of the senate. The identification of such prohibited companies shall be the responsibility of an independent, third-party research firm, as identified by the PRIM board. Within thirty days after the first such list is compiled, the PRIM board may send written notice to any such prohibited company whose securities are directly invested by the PRIT fund, with a copy to the clerk of the house and to the clerk of the senate, containing a copy of this act and stating the PRIM board’s intention to sell that company’s securities in compliance herewith unless the company replies within ninety days by written notice of the company’s intention to cease to own or operate such investments within one year and to make no further investments described herein. If the manager creates a similar fund devoid of such securities, the PRIM board shall determine within six months of such a fund’s creation, whether to replace all applicable investments in said actively managed investment fund with investments in the newly created fund in a timely manner and consistent with prudent investing standards. A company the United States government affirmatively declares to be excluded from its present or any future federal sanctions regime relating to Iran is not subject to this paragraph’s divestment requirements

or ownership prohibition. The provisions of this paragraph shall expire if and when: the President of the United States affirmatively and unambiguously states, by means including, but not limited to, enacted legislation, executive order or written certification from the President to Congress, that the government of Iran has ceased to acquire weapons of mass destruction and support international terrorism; the United States revokes all sanctions imposed against the government of Iran; or the Congress or President of the United States affirmatively and unambiguously declares, by means including, but not limited to, enacted legislation, executive order or written certification from the President to Congress, that mandatory divestment of the type provided for in this paragraph interferes with the conduct of United States foreign policy.”

Mr. Joyce and Ms. Jehlen moved that the bill be amended by inserting, after Section ____, the following new Section: - “SECTION ____. Chapter 6A is hereby amended by adding the following section:-

Section 16P.

(a) As used in this section, the following words shall, except as otherwise provided, have the following meanings:-

‘Level IV treatment intervention’, any procedure which involves the systematic use of noxious or intrusive stimuli which are generally known to be painful or otherwise unpleasant to individuals, including but not limited to, procedures that: (1) cause physical pain to the individual, whether administered directly or through intermediate devices, such as skin electric shock, inhalants, or ingestible substances (excluding alcoholism treatments, such as disulfiram, Antabuse or Antabus) ; (2) involve sleep or food deprivation; (3) include the introduction of additives to make food unpleasant; or (4) involve the prompting of an individual to engage in a behavior which then results in an aversive stimulus being applied as a punitive consequence.

‘Statewide peer review committee’, the review committee established in subsection (c).

‘Department’, the Department of Mental Retardation.

‘Executive office’, the executive office of health and human services.

‘Individual treatment plan’, a plan approved by the statewide peer review committee pursuant to regulations promulgated under this section.

‘Secretary’, secretary of the executive office of health and human services.

(b) The Department hereby creates a new classification of behavioral treatment interventions, to be known as Level IV treatment interventions. The Department shall, with the advice and consent of the statewide peer review committee, promulgate rules and regulations consistent with this chapter regarding the use of Level IV treatment interventions to address behaviors that present a pattern of conduct or behavior caused by a disorder which poses a serious danger to self or others of risk of injury or harm to self or others by any consumer of any public or private agency receiving funding or subsidy through the commonwealth. Such rules and regulations shall be consistent with federal and state protections for protected persons insofar as practicable; provided, however, that the Department, with the advice and consent of the statewide peer review committee, may make such adjustments, exceptions or waivers as in their judgment are necessary to carry out the purposes of this section or to facilitate compliance. The Department regulations regulating the use of Level IV interventions will govern all uses of such procedures by any public or private agency receiving funding through the Commonwealth of Massachusetts.

Level IV interventions are designed for the treatment of certain types of dangerous or self destructive behaviors following a pre-determined treatment protocol which includes highly punitive techniques designed to teach an individual not to repeat those challenging behaviors. Level IV interventions are the most intrusive form of treatment intervention and they shall be considered to only be used as a method to address behaviors that directly present a clear risk of injury or harm to self or others. Level IV interventions are not appropriate for addressing minor behavior problems, even if said behaviors are identified as antecedents to targeted challenging behaviors, unless less intrusive interventions have been attempted and documented to have failed in addressing such minor behaviors. Level IV interventions should only be considered when reinforcement-based interventions and other less intrusive treatments have failed, including programs developed by clinicians specially skilled in positive behavior supports. Documentation of the fidelity of the application of all less intrusive interventions and the completion of formal procedural reliability assessments must be provided in all proposed Level IV treatment intervention submissions.

Level IV interventions are restricted to those techniques and procedures that are considered as evidence-based practices and meet the standards of being scientifically validated, as demonstrated by their publication in peer-reviewed professional journals. All such proposed interventions must have been demonstrated as clinically effective in the reduction of similar topographies of challenging behaviors with participants within similar age ranges or diagnostic categories, and in similar settings. All such proposed interventions for children must be consistent with the Individuals with Disabilities Education Act of 2004 (IDEA) and No Child Left Behind.

(c) There shall be a statewide peer review committee on Level IV treatment interventions. The statewide peer review committee shall be located within, but not subject to control by, the executive office. The governor, shall appoint 3 licensed psychologists, 2 of whom meet the guidelines and standards of clause (2) below, and have 10 or more years of experience in applied behavior analysis and behavior treatment of severe behavior problems.

In the case where a public or private agency in the Commonwealth receives funding from another state or jurisdiction and seeks to utilize a Level IV procedure with a client whose permanent residence from that state or jurisdiction, said state or jurisdiction may recommend an individual who meets the guidelines and standards of clause (2) below to serve as an 'ad-hoc' member of the statewide peer review committee to review any and/or all proposed Level IV interventions for residents from said state or jurisdiction.

The statewide peer review committee shall: (1) review, approve and oversee all Level IV treatment interventions being implemented with any person in the Commonwealth who is served by a public or private agency receiving funding or subsidy through the executive office as provided under this section; (2) appoint a Chair who is a board certified behavior analyst, or holds specialty certification in cognitive and behavior psychology from the American Board of Professional Psychology, or is a licensed psychologist with documented education, professional training and experience in applied behavior analysis and behavior treatment, and 5 years of full-time experience serving individuals within the same age range or diagnostic category; demonstrating similar topographies of challenging behaviors and utilizing similar treatment approaches as those proposed in the behavior treatment plan under review; (3) review individual treatment plans and approve the use of Level IV treatment interventions within such treatment plans; (4) set guidelines and standards for facility peer review committees; (5) review and make recommendations to the executive office for any requested exclusions or waivers from the regulations governing Level IV treatment interventions; and (6) be assisted in its duties by the executive office, which shall provide technical, technological, operational and administrative support.

A member of the statewide peer review committee shall be indemnified from any civil action brought for damages to the same extent as provided for public employees in chapter 258; and shall be indemnified for all expenses incurred in the defense thereof provided, however, that the claim arose out of acts performed by such member while acting within the scope of the member's official duties.

(d) All Level IV interventions shall be designed by an individual who is a Board Certified Behavior Analyst, or holds Specialty Certification in Cognitive and Behavioral Psychology from the American Board of Professional Psychology, or is a Licensed Psychologist with documented education, professional training and experience in applied behavior analysis and behavioral treatment, and 5 years of full-time experience serving individuals within the same age range and diagnostic category; demonstrating similar topographies of challenging behaviors and utilizing similar treatment approaches as those proposed in the Level IV plan under review. Individuals responsible for the design of Level IV interventions will comply fully with the Ethical Principles of Psychologists and the Code of Conduct of the American Psychological Association. All Level IV interventions submitted for review and approval must meet the standards outlined within the Guidelines for Responsible Conduct of the Behavior Analysis Certification Board, and include documentation that the challenging behaviors being addressed are not a function of a medical or psychiatric disorder. Additionally, all such proposed interventions must include evidence of the completion of a formal comprehensive functional behavioral assessment, a preference assessment, and reinforcement strategies

designed to teach functionally equivalent replacement behaviors. In addition to the ongoing empirical measurement of all targeted challenging and replacement behaviors throughout any approved Level IV intervention, all such Level IV interventions must also include ongoing objective documentation of the trauma suffered by the individual or others as a result of the challenging behaviors addressed within the treatment plan.

(e) Level IV interventions shall only be implemented by staff persons that have received specific training in the application of the intervention and the individualized treatment plan. Documentation listing all qualified staff who received specific training in the Level IV intervention and the individuals who designed the treatment protocol and who administered each application of the Level IV intervention shall be incorporated in the client record.

The statewide peer review committee shall require that all Level IV interventions shall be implemented only under the direct supervision and physical presence of the Board Certified Behavior Analyst, ABPP Certified Cognitive and Behavioral Specialist, or Licensed Psychologist with documented education, professional training and experience in applied behavior analysis and behavioral treatment.

(f) Each facility seeking to use Level IV treatment interventions shall establish a facility peer review committee, approved by the statewide peer review committee. Prior to application to the statewide peer review committee for authority to implement a behavior treatment intervention, consent shall be obtained from the client (if competent) and the facility peer review committee. The facility peer review committee shall include (1) psychologists with documented education, professional training and experience in applied behavior analysis and behavioral treatment and (2) a psychologist with broad clinical expertise outside the specialty of behavior analysis. In cases of extreme emergencies, the agency serving the individual shall not be required to apply for approval to the facility peer review committee, but shall apply directly to the statewide peer review committee for a 30-day temporary approval of the intervention; provided, that the agency has secured informed consent from the client (if competent). If such emergency application is approved by the statewide peer review committee, the application must also be submitted, prior to implementation, to the probate court of the county in which the client resides for approval through a substituted judgment review process.

(g) Level IV treatment interventions shall be permitted only when approved by the statewide peer review committee and by a court-ordered substituted judgment treatment plan for an individual client. Prior to rendering a decision, the statewide peer review committee may permit the proponent of the use of such interventions and any other interested person the opportunity to present materials in support of or in opposition to the proposed treatment plan. The decision of the statewide peer review committee shall be in writing, with supporting reasons provided for its decision. A finding by the statewide peer review committee permitting Level IV treatment interventions with respect to any individual treatment plan shall be submitted thereafter to the probate court of the county in which the client resides as part of the court's independent review and approval of said treatment plan.

(h) Level IV interventions shall not be initially approved by the statewide peer review committee unless the proponent of the use of such interventions provides clear and convincing evidence through the evaluation protocol and ongoing behavior data, that (a) the target behavior presents an immediate risk of serious physical injury or harm to self or others; (b) the Level IV procedure will lead to positive outcomes and a significant decrease in the target behaviors; and (c) that less intrusive treatments continue to be unsuccessful or would present an immediate risk of serious physical injury or harm.

Level IV treatment interventions may be initially approved for no more than 30 days by the statewide peer review committee, and may be re-approved thereafter for additional 30-day periods, not to exceed six months. Request for re-approval shall be subject to such conditions as the statewide peer review committee may designate, including a review of all existing data to confirm that the use of the Level IV treatment intervention has led to positive outcomes and a significant decrease in the target behaviors. Any request for the use of the Level IV treatment intervention beyond the 30-day trial shall require re-submission to the statewide peer review committee and the probate court of the county in which the client resides as part of the court's independent review and approval of said treatment plan. The statewide peer review committee shall petition the Commissioner of the Department of Mental Retardation to review cases in which the continued use of Level IV treatment interventions are requested beyond the six month limit.

(i) The executive office may, after a hearing pursuant to chapter 30A, deny, refuse, revoke, limit or suspend a license of any recipient of funding or subsidy through the executive office for failure to comply with the provisions of this section.

(j) Except for emergency regulations adopted pursuant to section 2 of chapter 30A, any regulation, as defined in section 1 of said chapter 30A, or any amendment or repeal of any such regulation adopted by the Department pursuant to this section, shall, after compliance with all applicable provisions of this section and said chapter 30A, except section 5, be submitted to the general court. If the final regulations do not contain the changes proposed by the legislative committee, the Department and the statewide peer review committee shall send a letter to the legislative committee accompanying the final regulations stating the reasons why such proposed changes were not adopted. Not earlier than 45 days after the filing of such letter and final regulations with said legislative committee, said Department shall file the final regulations with the state secretary as provided in section 5 of said chapter 30A and said regulations shall thereupon take

effect.

If no such proposed changes to the regulations are made to the Department and the statewide peer review committee within 60 days of the initial filing of the proposed regulation or any amendment or a repeal of such regulation with the clerk of the house of representatives, the Department may file the final regulations with the state secretary as provided in section 5 of said chapter 30A and said regulations shall thereupon take effect.

SECTION 2. Within 90 days after the passage of this act, the Department, with the advice and consent of the statewide peer review committee shall draft, pursuant to chapter 30A, proposed rules and regulations to the General Court regarding the development, review, approval, and on-going review and monitoring process for behavior intervention treatments.

SECTION 3. The implementation of any Level IV intervention beyond the scope of a court-ordered treatment plan or the approval of the statewide peer review committee, or by a staff member who does not meet the requirement of this section will be considered an act of mistreatment, pursuant to section 13K of chapter 265 and shall be reported to the Disabled Persons Protection Commission.

“SECTION ____ (a) Section 9 of chapter 15A of the general laws, as appearing in the 2006 Official Edition, is hereby amended by striking out the third paragraph.

(b) Section 22 of said chapter 15A, as so appearing, is hereby amended by inserting after the first paragraph the following:

The board of trustees of each state and community college shall, for each academic year beginning on or after July 1, 2009, fix and establish tuition and fee rates for each college. In-state tuition rates for the college shall preserve affordability for residents of the commonwealth. Out-of-state tuition rates shall appropriately balance the financial needs of the college with the need to be competitive with peer institutions regionally and nationwide

For each academic year beginning on or after July 1, 2009, all tuition and fees received by a state or community college shall be retained by the board of trustees of each state or community college in a revolving trust fund or funds and shall be expended as the board of trustees of the state or community college. Every such trust fund shall be established in accordance with and subject to the requirements of section 14 of chapter 73 of the general laws. Any balance remaining in the trust fund or funds at the end of the fiscal year shall continue to be held in said trust fund or funds, shall remain available for expenditure in subsequent fiscal years, and shall not revert to the general fund. All such trust funds shall be subject to audit by the state auditor.

Notwithstanding any general or special law to the contrary, unless the state appropriation is less than the previous fiscal year's appropriation, the rate of increase for in-state tuition and general fees shall not exceed the 3-year average of the Consumer Price Index for Massachusetts (CPI). Each college may request a higher rate of increase within parameters and procedures set by the department of higher education, in conjunction with the presidents of the state and community colleges and upon the approval of the department of higher education. In determining approval, the department shall take into consideration the overall well-being of the institution, the quality of the academic programs, multiple years of underfunding of the institutions, any 9C cuts, so-called, that may have been instituted, and the additional financial burden on the student population of the institutions. Should the state appropriation be less than the previous fiscal year appropriation, the institutions shall first utilize not less than 25% of the combined total of their unrestricted reserve funds, including the student charges stabilization fund established pursuant to this act. For the purposes of this section, unrestricted reserves shall not include funds from auxiliary enterprise activities, grants and contracts, continuing education programs, gifts or plant funds. Following this, should their funding level still fall short of the previous year's appropriation, the institutions may increase student charges to attain the level of the previous fiscal year's appropriation plus the 3 year average of the consumer price index.

Insofar as is practicable, the final rates of student charges shall be established for the subsequent academic year no later than 15 days prior to the deadline for submission of state and federal financial aid applications by students attending institutions of higher education as set forth in section 5.

For employees of any state or community college who, after July 1, 2009, are paid from tuition retained pursuant to this section, fringe benefits shall be funded as if those employees' salaries were supported by state appropriations. This paragraph shall apply only to fringe benefits associated with salaries paid from tuition retained by the board of trustees of a state or community college as a direct result of the authority granted by the preceding paragraph of this section.

Notwithstanding the provisions of this section to the contrary, the board of trustees of a state or community college may fix and establish a tuition rate and charges reduction for residents of bordering states to not less than 1 and ½ times the institution's in-state tuition and fee rates, if it determines that the institution is below enrollment capacity and the projected cost to the institution and the commonwealth of the reduction would be minimal when taking into account the projected enrollment growth associated with such an adjustment. The board of trustees shall seek reciprocal arrangements from bordering states where no such tuition reduction is available for residents of the commonwealth.

(c) Section 1A of chapter 75 of the General Laws, as so appearing, is hereby amended by striking out clause (p) in the fifth paragraph and inserting in place thereof, the following clause: -

(p) to fix and establish tuition rates of said university and to retain such tuition in accordance with this section

(d) Said section 1A of said chapter 75, as so appearing, is hereby further amended by inserting after the fifth paragraph the following: -

The board of trustees shall, for each academic year beginning on or after July 1, 2009, fix and establish tuition and fee rates for the university. In-state tuition rates shall preserve affordability for residents of the commonwealth. Out-of-state tuition rates shall appropriately balance the financial needs of the university with the need to be competitive with peer institutions regionally and nationwide.

For each academic year beginning on or after July 1, 2009, all tuition and fees received by the university shall be retained by the board of trustees in a revolving trust fund or funds and all be expended as the board of trustees may direct for the operation and support of the university. Each such trust fund shall be established with and subject to the requirements of section 11. Any balance in said trust fund or funds at the end of the fiscal year shall continue to be held in said trust fund or funds, shall remain available for expenditure in subsequent fiscal years, and shall not revert to the general fund. Any such trust funds shall be subject to audit by the state auditor.

Notwithstanding any general or special law to the contrary, unless the state appropriation is less than the previous fiscal year's appropriation, the rate of increase for in-state tuition and general fees shall not exceed the 3-year average of the Consumer Price Index for Massachusetts (CPI). The university may request a higher rate of increase within parameters and procedures set by the secretary of education, in conjunction with the board of trustees of the university and the president of the university and upon the approval of the secretary of education. In determining approval, the secretary shall take into consideration the overall well-being of the institution, the quality of the academic programs, multiple years of underfunding of the institutions, any 9C cuts, so-called, that may have been instituted, and the additional financial burden on the student population of the institution.

Should the state appropriation be less than the previous fiscal year appropriation, the university shall first utilize not less than 25% of the combined total of their unrestricted reserve funds, including the student charges stabilization fund established pursuant to this act. For the purposes of this section, unrestricted reserves shall not include funds from auxiliary enterprise activities, grants and contracts, continuing education programs, gifts or plant funds. Following this, should their funding level still fall short of the previous year's appropriation, the institutions may increase student charges to attain the level of the previous fiscal year's appropriation plus the 3 year average of the consumer price index.

Insofar as is practicable, the final rates of student charges shall be established for the subsequent academic year no later than 15 days prior to the deadline for the submission of state and federal financial aid applications by students attending institutions of higher education as set forth in section 5.

For employees of the university who, after July 1, 2009, are paid from tuition retained pursuant to this section, fringe benefits shall be funded as if those employees' salaries were supported by state appropriations. This paragraph shall apply only to fringe benefits associated with salaries paid from tuition retained by the board of trustees as a direct result of the authority granted by the preceding paragraph of this section.

Notwithstanding the provisions of this section to the contrary, the board of trustees of the university may fix and establish a tuition rate and charges reduction for residents of bordering states to not less than 1 and ½ times the institution's in-state tuition and fee rates if it determines that the institution is below enrollment capacity and the projected cost to the institution and the commonwealth of the reduction would be minimal when taking into account the projected enrollment growth associated with such adjustment. The board of trustees shall seek reciprocal arrangements from bordering states where no such tuition reduction is available for residents of Massachusetts.

(d) Said chapter 15A is hereby amended by adding, after section 41, the following section: -

Section 42. (a) Notwithstanding any general or special law to the contrary, each community college, each state college and the university of Massachusetts shall create at the institution a reserve fund, hereinafter referred to as the "student charges stabilization fund", for their respective institution. There shall be deposited annually into the student charges stabilization fund of each institution the following: (1) any moneys which, within 60 days following the end of the fiscal year, the institution certifies to the state comptroller are moneys that were appropriated to the institution for that fiscal year and that were not expended during, and remain unencumbered for expenditure in respect of, that fiscal year; provided, that notwithstanding any general or special law to the contrary, all such moneys shall remain available for expenditure, without further appropriation, in subsequent fiscal years and shall not revert to the General Fund; and provided further that the state comptroller shall transfer any such moneys remaining in the state treasury to the institution within 30 days of receipt of the institution's certification; (2) moneys that are appropriated to an institution which are required by the legislature to be deposited into the institutions student charges stabilization fund; and (3) other moneys that an institution may elect to deposit into its student charges stabilization fund, including student tuition and fee revenue. Student charges stabilization fund moneys shall be deposited in an interest bearing account credited to its respective institution.

(b) Each institution shall deposit 5 per cent of any growth in state appropriation and tuition and fees from the prior year into their student charges stabilization fund.

(c) The board of trustees at each community college, state college and the university may, in a fiscal year and upon the vote of the board, expend moneys in its student charges stabilization fund whenever in any such fiscal year the moneys made available to the institution do not meet the commonwealth's annual full funding obligations with respect to the operating requirements of the institution set forth in section 1. Among the uses as the boards of trustees of each state or community college or the university, shall direct for the operation and support of the institution, the moneys shall first be used to reduce the need for increases in tuition and fees and to mitigate such increases should they become necessary.

(e) Section 19 of chapter 15A, as so appearing, is hereby amended by inserting after the second paragraph the following:

-

The commonwealth shall bear the cost of providing any waivers granted under this section; provided further, that institutions shall not be required, on a year to year basis to grant waivers of a total value greater than those granted during the 2007 academic year.

(f) Notwithstanding the provisions of this section to the contrary, the Massachusetts College of Art and Design and the Massachusetts Maritime Academy shall be governed by section 25 of chapter 45 of the acts of 2005.

(g) The secretary of education shall undertake a review of the tuition retention program not later than July 1, 2014. Within said review, the secretary shall make any recommendations as to legislative changes to the program, including but not limited to, the repeal of said program.

The leases and other agreements authorized in this section shall provide that any benefits to the communities and the costs of improvements and repairs made to the properties provided by the lessees or the recipients of the properties shall be taken into account as part of the consideration for such leases or other agreements. On motion of Ms. Menard,—

Adjournment in Memory of Michael Bhati.

The Senator from Middlesex and Norfolk, Ms. Spilka, requested that when the Senate adjourns today, it adjourn in memory of Michael Bhati, formerly of Medway, Massachusetts.

Mr. Bhati was 31-years old and was a specialist in the politics and culture of Afghanistan. He was killed by a roadside bomb in a remote region of Afghanistan along with two United States soldiers on May 7th. Mr. Bhatia, a Brown University graduate and a doctoral candidate at Oxford University in England, had been in Afghanistan since November, helping the Army's 82d Airborne Division to understand the country's tribal customs. He is among a handful of academics who have partnered with the US military in so-called human terrain teams to establish peace in Afghanistan and Iraq. He is survived by his parents Manik and Linda and his sister Tricia, all of Medway.

Accordingly, as a mark of respect to the memory of Michael Bhati, at twenty-two minutes past ten o'clock P.M., on motion of Mr. Berry, the Senate adjourned to meet again on Tuesday next at eleven o'clock A.M.
