(b) The benchmarks in subsection (a) may be achieved through increasing non-fare revenues, increasing total fare revenues through ridership growth, increasing fare levels while accounting for potential loss of ridership from fare increases or from savings to the authority’s operating budget; provided, however, that the authority shall submit a preliminary report of savings to the operating budget by October 1 of each fiscal year and a final report of savings to the operating budget by January 1 of each fiscal year. Those preliminary and final reports of savings shall be submitted to the house and senate committees on ways and means and the joint committee on transportation. Nothing in this section shall be construed to relieve the authority of any legal requirements it must fulfill under state or federal law prior to increasing fares or eliminating service.

(c) The revenue generated to meet the benchmarks in subsection (a) may be derived from any funds collected by the authority through fees and fares and any other funds directly collected by the authority; provided, however, that such revenue shall not include funds contributed to the Massachusetts Bay Transportation Authority State and Local Contribution Fund under section 35T of chapter 10 of the General Laws.

(d) The authority may achieve these benchmarks by restraining operating costs and increasing ridership prior to proposing a fare increase. The authority shall, in the authority’s budget plan, regularly create and update 5-year pro forma financials and as part of the budget planning process may plan for small, regular fare increases of not more than 5 per cent for all modes and populations. The authority shall not increase fares at intervals of less than 24 months or at a rate greater than 5 per cent. The authority shall not implement any fare increase unless it is in strict compliance with section 5 of chapter 161A of the General Laws. If the authority’s budget plan does not achieve a required benchmark within a given budget year, but is within 0.5 percentage points of the benchmark, and fares have been increased within the previous budget year, the authority shall increase the subsequent year’s benchmark by an equivalent amount and make needed adjustments to the operating budget and fare levels in the subsequent budget year.”
