

We're facing an unprecedented opportunity to understand the **Future of Work** and what it will mean to industries, economies, and individuals

Rearchitect WORK

By 2025, **50%** of workers will need **reskilling** because of the impact of technological advances on **85 million** jobs worldwide – but also, **97 million entirely new roles** will emerge as a result of this dynamic.¹

Unleash the WORKFORCE

Remote job postings on LinkedIn increased more than **five times** between March and December 2020, while **40%** of the global workforce are considering **leaving their employer** this year.²

Adapt the WORKPLACE

It's not just about physical location – it's the **context and environment** that enables work. On average, employees spend **25% of their time looking for information** they need to do their jobs.³
