

**DIVISION OF ADMINISTRATIVE LAW APPEALS
2015 REPORT TO THE GENERAL COURT PURSUANT TO § 4H OF
CHAPTER 7 OF THE GENERAL LAWS**

The Division of Administrative Law Appeals (“DALA”) is proud to submit this report for calendar year 2015 pursuant to § 4H of Chapter 7 of the General Laws. It is our intention to provide an overview of DALA’s operation, focusing on the status of our backlog and our objective of eliminating it.

I. Executive Summary

DALA is made up of two units: the General Jurisdiction Unit (“GJU”) and the Bureau of Special Education Appeals (BSEA). In 2015, the GJU made substantial progress reducing its backlog. Although the GJU confronts a number of challenges associated with the large scope of its jurisdiction and budget constraints, the progress made over the last year establishes that the GJU is moving forward and improving the quality of its service to the people of Massachusetts and its agencies.

In 2015, the BSEA continued its outstanding work that the children, parents and school districts have come to rely on. The BSEA is a nationally recognized leader and provides a broad range of dispute resolution services applicable to disputes concerning eligibility, evaluation, placement, individualized education programs (IEPs), special education services, and procedural protections for students with disabilities.

II. OVERVIEW OF THE DIVISION AND ITS MISSION

DALA is an independent agency responsible for providing individuals and state agencies with fair and impartial hearings in the most efficient manner

possible. As stated above, it has two independent units, its General Jurisdiction Unit and the Bureau of Special Education Appeals.

A. General Jurisdiction Unit

Last year, the GJU reduced its backlog by 768 cases. The inventory of retirement cases was reduced by 251 cases. GJU reduced the inventory of nursing home Rate Setting cases by 495.¹ Tab 1 contains a summary of open GJU cases as of March 11, 2016. This summary shows that the GJU has 4,612 open cases -- down from 4,885 cases on March 23, 2015.²

In addition, during 2015, GJU addressed the increased volume of cases caused by ERIP efficiently and fairly.³ It also began to develop and implement a new case tracking system and started a review of its policies and procedures. Both of these initiatives are proceeding on schedule and will be completed about the time this report is presented.

On December 16, 2015, DALA received its first case pursuant to G.L. c. 43D section 10 (Expedited Permitting Statute). Passed in 2006 and amended in 2012, Chapter 43D provides for permitting and application processes for priority development sites. Pursuant to the Legislature's mandate, DALA must provide an expedited hearing process and deliver a decision on these cases within 90 Days of filing. Immediately upon receipt of this matter, a magistrate was assigned, a Pre-hearing Order was issued and a Pre-hearing Conference was

¹ Due to the age of the Rate Setting cases that were closed, they were not included in the Division's Access computer data and, therefore, the figures kept by Access do not reflect their closing.

² These figures do not reflect the older rate setting cases, filed before the Access computer system was implemented. While the computer data reflects that there are 3,270 open rate setting cases, the actual number is now 3,705.

³ In June, DALA opened 98 retirement cases, 130 in July, and in August it opened 116. The average number of retirement cases filed the other 10 months of 2015 was 29.8.

held on January 13, 2016. With the cooperation of the parties, the issues were narrowed and DALA issued its decision on March 16, 2016.

DALA's mission is to provide the due process hearings that are the pre-condition of other agencies' final agency actions and, when provided for by statute, to hear *de novo* appeals of other agencies' decisions. General Jurisdiction cases come to DALA in two ways: (1) by legislation mandating that certain types of cases be heard at DALA; and (2) upon request of an agency, subject to the approval of the DALA Chief Administrative Magistrate and the Secretary of Administration and Finance (A&F). Currently, DALA conducts hearings for approximately 20 state agencies, including the Contributory Retirement Appeal Board, the Board of Registration in Medicine, the Department of Public Health, and the Fair Labor Division of the Office of the Attorney General.

While more aggressive case handling procedures and a concentrated effort to address the inventory of older Rate Setting cases has been successful in reducing the inventory of cases, DALA is committed to improving its practices and procedures even further so that GJU will be more efficient, make more significant inroads into its backlog and be better prepared to deal with a sudden increase in the number of its cases or their complexity. The review of GJU's practices and procedures being concluded by Ripples Group and the new case tracking system being implemented are the beginning of that process.

B. Bureau of Special Education Appeals

The BSEA is an independent unit within DALA. It is federally funded through a grant managed by the Department of Elementary and Secondary Education (DESE). The Bureau was transferred from the DESE to the Division of Administrative Law Appeals by Chapter 131 of the Acts of 2010 to ensure independence from any educational agency that could be a party to or interested in the proceedings before the Bureau. Pursuant to the transfer legislation, the Bureau and its caseload are managed independently of DALA's other operations.

The BSEA provides a broad range of dispute resolution services applicable to resolution of disputes with respect to eligibility, evaluation, placement, individualized education programs (IEPs), special education services, and procedural protections for students with disabilities. BSEA's dispute resolution services include mediations, hearings, settlement conferences, and advisory opinions. Parties to these proceedings may include parents, school districts, private schools, the DESE, and other state agencies. Within the last five years, the Bureau has also provided facilitators for IEP meetings.

In fiscal year 2015, the BSEA received 10,280 rejected IEPs, 1085 mediation requests (the latter an increase of 55 over the number received last year), and conducted 733 mediations (a decrease from the 790 conducted last year). The mediation success rate was 84.4%. Also during fiscal year 2015, 492 hearing requests were received (representing a decrease from the 590 requests in the prior year). Full evidentiary hearings resulting in 18 decisions were conducted (representing a decrease from the 25 decisions issued in the previous

year), and 48 substantive rulings were issued. Tab 2 contains a multi-year summary of the BSEA's annual statistics.

The Bureau has met all of its statutory and regulatory requirements for processing pending cases. The reduction in hearings and mediations reflects reductions in the numbers of cases reaching each stage before resolution and is unrelated to any performance measures.

III. ANALYSIS OF CASES RECEIVED IN 2015

As required by § 4H of Chapter 7 of the General Laws, we focus on the GJU cases received in 2015 and their disposition.

Tab 3 contains a summary and detail report of the cases opened in 2015. The summary report identifies the number of cases received by type of case. The detail report lists each individual case in each case type and identifies its docket number, the identities of the parties, the last event in the case, and the date it was filed with the Division.

Tab 4 contains summary and detail reports of the cases closed in 2015. The cases are listed by case type and in order of docket number within each case type. The "last event" entry in most cases identifies the event (decision, withdrawal, etc.) that caused the case to be closed in the database. The disposition of the 2015 cases that were closed can be tracked by referring to the cases with docket numbers beginning with "15-." If a case with a docket number beginning with "15-" is not listed on the closed cases report, it is still open as of the date of the report.

IV. STATISTICS ON GJU HEARINGS HELD AND DECISIONS ISSUED

In 2015, GJU conducted 248 full evidentiary hearings and issued 1,468 orders/decisions. The difference between the number of full evidentiary hearings and the number of orders issued is the result of two factors. First, the GJU is aggressively managing its docket to ensure that those cases that require a full evidentiary hearing get them as quickly as possible, while those matters that can be decided on the papers are. Second, the GJU is now dealing with the Rate Setting cases and, because of their age, the vast majority of these cases are no longer live controversies. They are being disposed of as efficiently as possible using orders to show cause and dismissals.

VI. CONCLUSION

We appreciate the opportunity to tell you about what DALA accomplished in 2015. DALA's work provides a vital service to the Commonwealth and its citizens. Our magistrates, hearing officers, mediators and staff are proud of their work and we look forward to meeting the challenges addressed in this report. We are convinced that the independent "central panel" approach to review of state agency actions is the fairest, most efficient and cost effective one available.

We look forward to working with you to continue our service to the people of Massachusetts and its agencies.
