# About the Division of Banks

## Mission

The mission of the Division of Banks (Division) is to ensure a sound, competitive, and accessible financial services environment throughout the Commonwealth of Massachusetts.

## Vision

The vision of the Division is to have a financial services environment in which the public has confidence in its financial institutions, consumers have the information they need to make wise financial choices, and financial institutions can compete on a level playing field.

## Brief History

The Division traces its origins to February 7, 1784 with the chartering of The Bank of Massachusetts, the forerunner of the former First National Bank of Boston, through Chapter 25 of the Acts of 1783. This Charter, signed by Governor John Hancock and Senate President Samuel Adams, includes one of the first known provisions to require bank examinations. Records dating back to 1839 reveal the existence of 118 Massachusetts banks with total combined assets of \$53 million.

Massachusetts was on the forefront of the banking industry as well as banking regulation. The Provident Institution for Savings in the Town of Boston was incorporated as the nation's first mutual bank in 1816. On March 27, 1906, Chapter 204 of the Acts of 1906 was signed and established the current structure of the Division.

## At a Glance

The Division's 146 managers, examiners, and support staff are responsible for the supervision of 174 state-chartered banks and credit unions holding combined assets of approximately \$417 billion, as well as two limited purpose trust companies with assets under management totaling \$1.5 trillion. The Division is also responsible for the supervision of three excess deposit insurers, and the licensing and supervision of 10,107 individual mortgage loan originators and 3,723 non-bank financial entities, including mortgage brokers and lenders, finance companies, check cashers, money transmitters, debt collectors, and loan servicers. Accordingly, the Division plays a key role in maintaining depositor confidence in the state's banking system as well as fostering a positive impact on the Commonwealth's economy.

# Letter from the Commissioner

---

I am pleased to present the 2018 Annual Report of the Massachusetts Division of Banks (Division). Prior to being appointed Commissioner of Banks in May 2019, I served as the Division's Chief Operating Officer since 2015. Throughout the past year, the Division has remained a leader in strengthening consumer protection in the financial services industry, while also maintaining a secure and sound state-chartered banking and financial services system.

In 2018, the Division continued efforts to provide consumers and those employed in the financial industry with information to make informed financial decisions and prepare to mitigate anticipated risks. In an effort to enhance our core supervisory functions, we worked in conjunction with federal agency partners to develop and participate in large bank risk management and consumer protection programs for banks exceeding the \$10 billion asset threshold. The Division also continued our elder financial abuse prevention and cybersecurity initiatives by participating on various committees and awareness campaigns throughout the year. Following the gas explosions in Merrimack Valley in September, the Division encouraged regulated entities to work with homeowners and borrowers who may have been impacted by these unique circumstances. We hope that these initiatives helped to strengthen Massachusetts financial institutions and prepare consumers for countless financial decision-making processes.

To further these efforts, the Division continued to participate in public education events and community development efforts across the Commonwealth. Many members of our staff spoke at events with financial industry professionals on topics including financial technology, foreclosure prevention, and banking the legal marijuana industry. In addition to industry-focused events, our staff participated in a number of consumer education events and workshops throughout the Commonwealth, the majority of which were first-time homeowner certification classes and credit for life high school financial reality fairs.

In closing, I would like to acknowledge the hard work of the entire team at the Division. As you will see throughout this report, 2018 was an accomplished year. Our objectives for 2019 aim to continue the agency's tradition of excellence.

Sincerely,

A handwritten signature in blue ink that reads "Mary L. Gallagher". The signature is fluid and cursive, with the first letters of each name being capitalized and prominent.

## Enforcement Highlights

- Equifax, one of the country's three major credit reporting agencies, disclosed a major data security breach in late 2017 which impacted the personal information of an estimated 146 million U.S. consumers. In June 2018, state financial regulators from seven states including Massachusetts, announced that they entered into a Consent Order requiring the company to remediate the deficiencies and unsafe practices that contributed to this security breach. The Division issued a joint press release with OCABR.
- Massachusetts, along with twenty-one other state regulators, issued public regulatory orders and charges in April 2017 against Ocwen Loan Servicing for violations of state and federal laws. To resolve these charges, a penalty of \$1,000,000 was paid to the Commonwealth, and Ocwen agreed to numerous corrective measures including the transfer of all Massachusetts consumer loans onto a new servicing platform. The Division and OCABR issued a press release announcing the Consent Order requiring corrective action and penalty on April 2, 2018.

## Supervision and Regulatory Environment

Effectively supervise and examine the Division's regulated entities through a regulatory framework which ensures consumer protection while promoting a competitive industry.

Ensure a sound, competitive, and accessible financial services environment; maintain a robust supervision program to complete our core supervisory function through examination, licensing, consumer complaint review and response; and initiate regulatory actions where appropriate.

## Consumer Protection and Outreach

Implement and enforce consumer protection laws and regulations while providing consumers and/or industry with information to make informed financial decisions and be prepared to mitigate anticipated risks.

Continue staff participation in consumer outreach events by collaborating with non-profits, industry groups, and other state agencies to promote financial education throughout the Commonwealth.

## Administration Staffing and Development

Update and establish operational policies and procedures to mitigate risk and ensure the Division functions effectively and efficiently.

Ensure efficient staffing by having the right people in the right roles with the right skills to perform their responsibilities and work toward achieving the Division's vision.

Continue to explore cross-training and collaborations to expand local and agency training opportunities on relevant and emerging topics such as virtual currency and payments systems.

In 2018, the Division improved its mortgage exam reporting by implementing a new exam and risk scoping template in an effort to increase efficiency and effectiveness in the allocation of resources. In addition, the Mortgage Examination Unit (MEU) engaged in extensive Home Mortgage Disclosure Act (HMDA), Equal Credit Opportunity Act (ECOA), Community Reinvestment Act (CRA), and Fair Lending training in preparation for the assumption of the responsibility for conducting CRA for Mortgage Lenders (MLCI) examinations. The MEU is well versed in and regularly takes advantage of the Nationwide Multistate Licensing System and Registry (NMLS), including the analytics and mortgage call reporting functions, resulting in efficient risk scoping during the pre-exam phase of the examination.

In support of the MEU’s overall risk assessment, key risk indicators are regularly evaluated to ensure appropriate strategic, operational, financial, and compliance tolerances. The MEU continues to support and participate in coordinated exams with other states through the Multi-State Mortgage Committee, New England Regional Mortgage Committee, and direct organization for identified mortgage licensees, where applicable.

Mortgage lender and broker license applications continued to increase in 2018, specifically for smaller businesses (proprietors). The licensing unit regularly evaluates the overall state of the Massachusetts housing market, the rise of non-qualified mortgage license applications and other housing finance options.

The figures below include regulatory action and approved licensee information occurring with the MEU during 2018.

## CRA for Banks and Credit Unions

Under the Massachusetts Community Reinvestment Act (CRA), the Division examines state-chartered banks and credit unions to assess the institution's record of meeting the needs of its entire assessment area, including low-and moderate-income neighborhoods, consistent with the safe and sound operation of the institution. Upon conclusion of a CRA examination, the Division prepares a written Public Evaluation which can be obtained on the Division's website or directly through the institution.

The Division conducted 39 CRA examinations of banks and credit unions during 2018. As of year-end, a total of 175 Public Evaluations of banks and credit unions were posted on the Division's website. The below figure includes a breakdown of posted CRA ratings for examined Massachusetts state-chartered banks and credit unions.

## CRA for Mortgage Lenders

CRA requirements are in place for certain mortgage lenders in accordance with M.G.L. c. 255E, § 8. These provisions require a CRA evaluation of mortgage lenders that have originated 50 or more HMDA reportable mortgage loans annually in the previous two calendar years.

The Division conducted 17 CRA examinations of mortgage lenders during 2018. As of year-end, a total of 68 Public Evaluations of mortgage lenders were posted on the Division's website. The below figure includes a breakdown of posted CRA ratings for examined mortgage lenders.

## Foreclosure Prevention

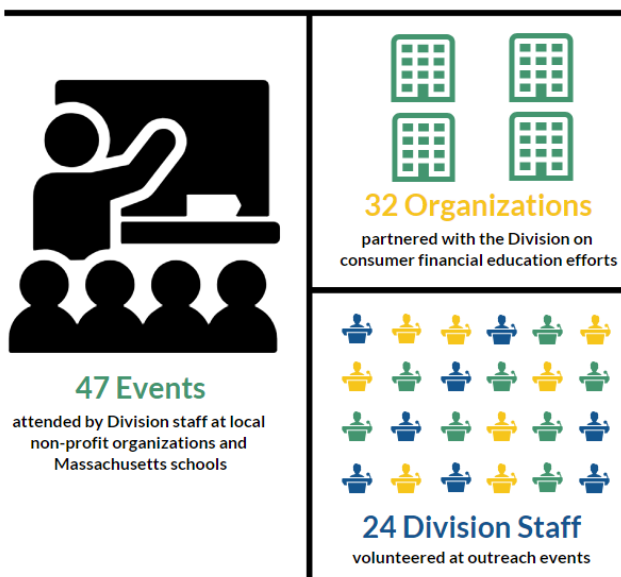

Since the inception of the foreclosure counseling and education grant initiative in 2008, the Division has awarded over \$13 million to nonprofits with a focus on consumer counseling and education services pursuant to Chapter 206 of the Acts of 2007, *An Act Protecting and Preserving Homeownership*. Over 48,000 consumers have been assisted thanks to these grants. Funding is possible through administrative fees associated with the licensure of loan originators according to M.G.L. c. 255F.

In 2018, the Division awarded 21 organizations a total of \$1.5 million in Chapter 206 grants. Awarded organizations offer programs including, but not limited to foreclosure prevention counseling services, loan modification assistance, first-time homeownership education, or counseling for non-traditional or high-cost loans such as subprime products. Collectively, grantees helped over 7,400 consumers in the Commonwealth in the 2018 calendar year using Chapter 206 funding.

## Consumer Protection and Outreach

The Division's 2018 consumer protection and outreach efforts continued to focus on elder financial abuse prevention and cybersecurity awareness. Both initiatives resulted in volunteer events and speaking engagements for Division employees. To align with these initiatives, the Division is represented on elder abuse prevention coalitions and working groups in the Commonwealth. During National Cybersecurity Month, the Division distributed cybersecurity awareness material weekly and hosted an informational teleconference call for the industry including a question and answer session with leaders from the Division, Commonwealth Fusion Center, and United States Secret Service.

Outreach event participation continued throughout 2018 with Division employees volunteering at events around the Commonwealth. A majority of these events were First-Time Homebuyer Workshops and Credit for Life Fairs at area high schools where Division staff helped to educate students about financial literacy. The Division partnered with organizations and schools to encourage and support their financial education efforts. The infographic below highlights the Division's outreach participation details.

## Consumer Finance/Money Service Business Activities

In 2018, the Consumer Finance/Money Services Business (CFMSB) Unit’s accomplishments helped promote the Division’s mission of ensuring a sound, competitive, and accessible finance services environment throughout the Commonwealth.

The Division’s CFMSB Unit participated on seven multi-state examinations in 2018: three examinations were conducted jointly with members of the National Association of Consumer Credit Administrators (NACCA), two joint examinations were conducted with the Money Transmitters Regulatory Association members, and two with the North American Collection Agency Regulatory Association (NACARA). Four of these examinations were conducted concurrently with the Consumer Financial Protection Bureau.

Throughout 2018, the Division issued cease directives against unlicensed foreign transmittal companies, check cashers, lenders, and loan servicers. Unlicensed activity was identified through examinations and the license application process, as well as information provided by other state regulators and anonymous tips. The Division entered into several Consent Orders during 2018 resolving unlicensed activity resulting in over \$2 million in fines, penalties, and additional reimbursements to consumers. Almost \$600,000 was reimbursed to over 7,000 Massachusetts consumers in 2018 as a result of examinations conducted on licensed finance companies and debt collectors.

The Division maintains membership in committees for the NACCA and NACARA. The CFMSB Unit’s Chief Director serves as president of NACARA, and examination staff serve on the NACCA Functional Committee, and the NACARA Regulatory Supervision Committee.

### CFMSB Consent Orders

In November, the Division entered into a Consent Order with a license applicant to resolve allegations that false and misleading financial and bank statements were submitted during the application process. This order included a ten year prohibition on licensure.

In December, the Division entered into a Consent Order with a licensed debt collector to resolve allegations of substantial non-compliance with applicable state statutes, rules, and regulations governing the conduct of debt collectors in Massachusetts. In particular, these allegations included falsely threatening consumers with legal action, and rude and abusive behavior by collectors. As part of the agreement, the debt collector surrendered its license, paid an administrative penalty, and agreed to a twelve month prohibition on licensure.

In December, the Division entered into a Consent Order with a licensed small loan company and its parent, a licensed debt collector, to resolve allegations they engaged in unlicensed small loan activity prior to obtaining a license and charged Massachusetts consumers illegally high interest rates. As part of the Consent Order, the companies agreed to surrender their licenses to operate in Massachusetts. They also agreed to pay an administrative penalty and reimburse consumers for all interest and fees charged on these illegal loans.

There were nine major corporate transactions consummated in 2018.

## Eight transactions involved mergers:

- Three of the mergers resulted in the reduction of two co-operative banks and one credit union.
- Two of the mergers involved federally-chartered national banks merging with and into state-chartered savings banks.
- One of the mergers involved a Rhode Island state-chartered bank merging with and into a Massachusetts state-chartered co-operative bank.
- One of the mergers involved a federally-chartered national bank merging with and into a state-chartered trust company.
- One of the mergers involved a federally-chartered credit union merging with and into a state-chartered credit union.

A federally-chartered credit union converted to a Massachusetts state-chartered credit union.

## Board of Bank Incorporation Approval:

The Board of Bank Incorporation (Board) approved the petition of New Valley Bank & Trust, Springfield to establish a trust company in its Decision dated November 18, 2018 and issued a Certificate of Public Convenience and Advantage (Certificate) in conjunction with that Decision. The issuance of this Certificate is the first phase of a two-step procedure required before the Board prior to commencing banking operations. As of year-end 2018, the capital raising efforts to fund the de novo bank remained in process.

## Bank Transactions

In 2018, there were six bank merger transactions, two of which reduced the number of Massachusetts-chartered banks. At year end, there were 52 savings banks, 41 co-operative banks, 14 trust companies, and 2 limited purpose trust companies. Following is the list of the bank merger transactions that were consummated in 2018.

## Legislation

### Legislation Signed into Law in 2018:

#### Chapter 228 of the Acts of 2018, *An Act Relative to the Economic Development in the Commonwealth*

- Chapter 228 of the Acts of 2018, *An Act Relative to Economic Development in the Commonwealth*, (the Act) included the following three provisions relating to the banking and financial services industries under the supervision of the Division:
  - **Certain Trust Company Board Composition Waivers:** SECTION 26 of the Act amends G.L. c. 172, s. 12 to allow for a state-chartered trust company engaged in a global custody business to apply in writing to the Division for a waiver from the requirement that a majority of the directors of a state-chartered trust company must be citizens of Massachusetts and residents therein. The amendments also provide that the Commissioner of Banks may waive or modify this requirement and may take into consideration factors including, but not limited to, the impact on the safety and soundness of the bank, or the current or prospective board composition and their expertise, experience and qualifications.
  - **Licensure of Mortgage Lenders, Mortgage Brokers, and Mortgage Loan Originators:** SECTIONS 49 through 52, inclusive, amend G.L. c. 255E to authorize an application process for a Massachusetts nonprofit to apply to the Division for a determination that the nonprofit qualifies as a "bona fide nonprofit affordable homeownership organization," which would exempt such an entity from the licensure requirements for mortgage lenders and mortgage brokers. The amendments to G.L. c. 255F exempt mortgage loan originators from licensure if they are employed by a bona fide nonprofit affordable homeownership organization. The amendments also codify the Division's interpretation of the term "instrumentality created by the United States or any state," which was already exempt from licensure under the prior statute, and exempt employees of such entities from mortgage loan originator licensing requirements.
  - **Special Commission To Promote Minority-Owned Real Estate and Financial Services Corporations:** SECTION 61 of the Act establishes a Special Commission to promote minority-owned real estate and financial services corporations (Commission), consisting of the Commissioner of Banks or designee, the Director of the Division of Professional Licensure or designee, one representative of the National Association of Real Estate Brokers, and two minority business enterprise owners, as described in G.L. c. 7, s. 58. The Commission is required to develop and implement strategies to promote minority-owned real estate and financial corporations, and to identify barriers for socially or economically disadvantaged persons, particularly with regard to barriers to obtaining mortgage lending or broker licenses, state bank charters, and insurance licenses.

### Written Testimony:

The Division provided written testimony to the Joint Committee on Financial Services on January 31, 2018 in support of the following three bills:

- House 2189, *An Act Relative to the Regulation of the Business of Domestic and Foreign Money Transmission by the Division of Banks*;
- House 2190, *An Act Establishing Uniform Confidentiality and Enforcement Provisions Relative to Certain Licensees under the Jurisdiction of the Division of Banks*; and
- House 2191, *An Act Relative to the Licensing and Supervision of Finance Companies by the Division of Banks*.

The Division provided written testimony to the House Committee on Ways and Means and the Senate Committee on Ways and Means on July 23, 2018 in support of the following bill, which was incorporated into St. 2018, c. 228, as described above:

- House 4334, *An Act Relative to Mortgage Licensing and Exemptions*.

## Regulations

The Division held a public hearing on September 13, 2018 relative to proposed amendments to the following regulation:

### 209 CMR 50.00: *Parity with Federal Credit Unions*

- The purpose of 209 CMR 50.00: Parity with Federal Credit Unions is to implement G.L. c. 171, s. 6A, which authorizes the Commissioner of Banks to promulgate regulations to grant state-chartered credit unions certain expanded powers in parity with federally-chartered credit unions. The proposed amendments primarily reorganize and amend the Incidental Powers authorities, and restore them to a single section. There are two new authorities proposed under Incidental Powers. The first new proposed authority would authorize a state-chartered credit union to apply for expedited approval from the Division for certain activities that the federal regulator, the National Credit Union Administration (NCUA), has deemed approved or deemed acceptable in writing to be an Incidental Power, and which is reasonably related to an individual power as set forth in other Incidental Powers authorities in the parity regulation. The second new proposed authority would authorize a state-chartered credit union to apply for approval from the Division for activities that the NCUA has deemed approved or deemed acceptable in writing as Incidental Powers but which are not included in the other Incidental Powers authorities in the parity regulation. In addition, the proposed amendments restructure and streamline procedural requirements throughout the parity regulation by allowing state-chartered credit unions to exercise certain authorities that previously required approval or notice to do so without approval or notice. Several technical amendments are also proposed.

### The Division has twenty-one effective regulations:

Massachusetts state-chartered banks had a banner year in 2018. Asset growth of approximately 5% resulted in aggregate state-chartered bank assets increasing to \$399.30 billion at year-end. Growth was centered in loans which grew by approximately \$11.97 billion. Funding for loan growth was done through a combination of security sales, deposit growth, and wholesale borrowings.

From an earnings perspective, the uptick in interest rates over 2018 along with an expansion in lending helped interest income expansion, leading to the average net interest margin to increase by 12 basis points year-over-year, to 3.36%. The Tax Cuts and Jobs Act of 2017 also had a major impact on state-chartered bank profitability, as, on an aggregate level, state-chartered banks paid approximately 33% less in income taxes in 2018, as compared to the prior year. These earnings allowed for net income to grow by approximately 26% or \$885.19 million, to an aggregate \$4.26 billion at year-end 2018. This resulted in the average ROA for Massachusetts State-chartered banks increasing by 21 basis points, to 1.10% for the year. Robust earnings levels allowed for strong capital growth, with aggregate total equity capital among state-chartered banks increasing by 11% or \$4.27 billion, to \$43.18 billion. As a result, the average Tier-One Leverage Capital Ratio for state-chartered banks jumped by 25 basis points to 11.40% for the year.

Overall, 2018 was a very successful year for Massachusetts state-chartered banks. Asset quality is strong, with the ratio of non-current assets and other real estate owned to total assets at 0.41%, falling six basis points from 2017. Growing margins resulting from an increasing rate environment, and reduced taxes as a result of legislation helped expand earnings. Capital levels also benefited from this increase in retained earnings. However, deposit competition remains fierce, and a reliance on alternative funding sources is trending upward.

In 2018, state-chartered credit unions' assets continued to grow, reaching \$17.8 billion. This represents an increase of 8% since 2017. Profitability and loan growth are also sound, leading to a strong overall financial condition of the Massachusetts credit union industry.

Net income from 2017 to 2018 improved by 27%, or \$22 million, fueled by steady growth in interest income, a 29% decline in provision expenses, and continued increases in non-interest income. Interest income rose by 13% over 2017 levels, spurred by consistent loan originations and higher investment yields from the rising interest rate environment. The net interest margin stands at 2.78%, compared to 2.74% at year-end 2017. Improvement to the net interest margin was hindered by a higher cost of funds. The Cost of Funds to Average Assets ratio increased from 0.57% in 2017 to 0.73% in 2018, due to the rising interest rate environment coupled with increased borrowing costs. Offsetting the higher cost of funds were well-managed operating expenses as well as lower provision expenses as a result of decreased loan delinquency. As such, steady income sources combined with moderate expenses led to an increase in the Return on Average Assets from 0.50% in 2017 to 0.59% in 2018.

In 2018, the net worth ratio rose to 11.31% from 11.25% in 2017. Gains in income outpaced modest asset growth, which resulted in the increase in the net worth ratio. Credit union net worth continues to be robust and healthy, supporting the overwhelming majority of Massachusetts credit unions that remain financially sound.
