Subject: FW: OOS Convictions

Hello,

Please see Sue Crispin's response in regards to the Queue 352 (MRB – Invalid Conviction Form). I wanted to get a better understanding on past processes based on her knowledge.

It appears we should not be working these at this time. However, we really should investigate if there is feedback between our system and other states'. If there is an error, is the other state aware of it?

Thanks for your input everyone.

Caroline Quan, M.A.

Subject: RE: OOS Convictions

I had mentioned to Roxanne that these work items should not be worked at this time. There are way too many problems with them. Any OOS conviction info really needs to be handled by the SPEXS team as there are just too many AAMVA rules involved in what needs to be present and in what format.

In the case below, Atlas should not have accepted the H3 message containing the conviction info as it was missing the offense reference for two of the offenses. If it did go down into the AAMVA messaging I can see that). We should have kicked it back to VA with an error. I have asked FAST to fix this as this is the other State's responsibility to correct.

Good afternoon Sue,

I wanted to get a better understanding on OOS Convictions and how you previously would handle missing fields for OOS Convictions.

We have a couple of work items that need to be corrected, but I wanted to get in contact with your first to understand how you used to handle these.

Thank you for taking the time to review this. Please see the example below:
