

Honorable Representatives,

I am the proud mother of a highly decorated State Trooper, Keller Williams, who has been awarded three Medals for Valor. He is currently on the Violent Fugitive Apprehension Section which apprehends the most dangerous criminals in our society often requiring split-second decisions to accomplish this important mission safely and successfully.

It terrifies me that the Qualified Immunity amendment could result in a deadly distraction while performing his perilous duty. I implore you to keep the Qualified Immunity intact.

Please insure that our courageous Law Enforcement Officers are provided Due Process as every other citizen is granted. It is the fair and right thing to do.

Common sense dictates that you include experts and rank-and - file members of the law enforcement community to bring their first-hand knowledge and experience to a POSA Committee.

I am trusting you with the safety and well-being of my beloved son and his fellow law enforcement colleagues. Bring understanding, compassion, and respect for the commendable, demanding service our brave men and women provide every day to your vote amending and correcting S2820.

In anticipation of your support,

Christine Williams
